REPUBLICAN DOCUMENTS IN THE MAILS. A letter in the Newport (Ky.,) News from a V In Montrose, Nov. 20th, by Eld. A. L. Post, Mr. THE SEMI-WEEKLY & WEEKLY TELEGRAPH leading Cincinnati Republican, reveals the fact that a very large portion of the Repub. E. Fox, of Forest Lake, Susq. Co. lican transient newspapers and documents VIn Harford, on the 17th inst, by Rev. Lyman Richsent through the mails during the late campaign failed to reach their destination. Democratic doeu one ofter another, through a long course of years, ments were delivered without being addres. sed and in many instances country postmasters forced them between the folds of Repulslican papers, so as to throw the suspicion of their circulation upon innocent sources; while Republican documents were thrown into corners as uncalled for and sold for waste paper. We do not complain of this, nor is it necwe must expect them to use it for their own ends. To be aware of the fact is to be guarded against the dangers it reveals; and to remember it will sweeten the vengeance when the day of reckoning comes. - Pittsburgh

A HIST FROM MR. FILLMORE -The Buffalo Commercial Advertiser, published at the home of Mr. FILLMORE and regarded as his confidential organ, throws out the following: If Kansas is to be made a slave State by executive interference, if Walker is to be aided in order to make Nicaragua a basis of opout the doctrines of the Ostend circular, which Mr. Buchanan was the first to signif this programme is to be followed out, why, nothing is more certain than the complete consolidation of the American and Republicans parties into a compact position. "If Buchanan proves to be the pliant and

facile tool of the filibusters and fire-caters, we repeat our warning, that the party, will not again be saved from perdition by a divided

These qualified its come at a queer stage in the contest, and they seem to imply that there may be contingencies in our political conditien which will justify a " complete consolidation" to resist the aggressions which are threatened in one section of our Union. We have no respect for that kind of care and cantion which " locks the door after the hor-e has been stolen," and if the Advertiser and its pecular friends had been wise in time, all dan per of the contingencies referred to would have been effectually removed.

STATE APPORTIONMENT.—It will be the duof the legislature which meets this winter Harrisburg to apportion the State into Senatorial and Representative districts. It is perhaps, a favorable circumstance that, while the House is locofoco, the Senate and Gov. erner are just the reverse; so that neither party will have it in its power to gerrymander the State, even if either had the will. There is therefore a prospect of something like a fair apportionment, unless indeed, the locofoco majority in the House should become bull-headed, and, failing to have its own way, defeat an apportionment altogether. Tais we do not anticipate however.

Representatives are apportioned upon the basis of the number of taxables; that is, the ever got before.

GUTTENBURG, ROSENBAUM, & CO. bles in the State is the ratio for a representarive. The number of taxables for the year 1856 has not yet been published. In 1855 Shawls, from \$1,00 to \$9,00, just opened, and for the total was 565,000, and this year it is sale cherp, by BENTLEY & READ. the total was 565,000, and this year it is give 5809 as the ratio.

Some change will necessarily be wrought the apportionment. The strictly agriculural counties will lose, while the mining and minufacturing counties will gain.

PORTABLE Upright Steam Saw-Mill. THIS Mill commands the universal admiration of saw-mill men everywhere. As its merits be-come known the demand for its increase. Orders are coming from every section of the country, Canada. Cuba and South America. It is suited for every section of the world wherever there is timber to be sawed, no matter of what character, how hard, how large, or how small. Two extensive manufactories are non engaged in building these Mills, yet it is almost impossible to turn them out as fast as they are wanted. They embrace several valuable patents and improvements, and combine all the following advantages: SIMPLICITY.—Both the mill and power are so sim- A time for flirting with heartless coquettes, ple in their construction that any one of ordinary me- A time to pay your addresses and debts, chanical ability can comprehend them, put them up A time to make people think you are smart, and run them without danger or difficulty.
