

**PRESIDENT BUCHANAN'S MARRIAGE.**—The Washington correspondent of the Baltimore *Patriot* communicated the following gossip respecting the President elect. We give very little credence to the rumor of Mr. Buchanan's prospective marriage with Mrs. Polk, though, so far as he is concerned, the alliance would be equally auspicious to his domestic happiness and his political fame. It is well understood that the late President Polk, who was indefatigable writer, left a diary of his administration, containing some very querulous observations on the conduct of Mr. Buchanan, then his Secretary of State. This record it was the ambition of his life to have published after his death. On this, he desired the reputation of himself and the administration to rest, and no doubt, he left instructions for its publication. Mr. Polk's marriage to Mr. Buchanan, therefore, in such a case, might involve a conflict of duties. As the widow of Mr. Polk, she must feel bound to publish, as the wife of Mr. Buchanan, to suppress, these damaging revelations. Altogether, the question is a complicated one, and demands the next President's most deliberate consideration. Sixty-five years of preparation ought not to result in a misstep.

But here is the Baltimore *Patriot's* story: "The gossip concerning Mr. Buchanan's alliance with the widow of a deceased President, the accomplished Mrs. Polk, grows stronger and stronger, and actually begins to partake of probability. In lady circles it was hinted that his equally accomplished niece is opposed to the Union, and wants to preside over the White House herself, and do all the honors thereof. She acted in that capacity for him whilst in London, and of course thinks her equal to it; she is right. If the alliance does take place, it will be the first instance in American history of a President-elect marrying."—*N. Y. Eve. Post.*

**MONTROSE.**—It was stated recently that a census of this extraordinary territory made the population 170,000. Such was the information found in the Western papers, but a St. Paul paper now estimates it at 200,000. At this rate of increase the census of 1860 will show Minnesota with a population of half-a-million of souls. These free territories and States of the West seem all destined to be great and flourishing. Iowa now polls nearly as many votes as Missouri.

Taking the ratio of one voter to every six inhabitants, the population of Iowa would be 385,000. Applying the same ratio to Michigan, we have 120,000, which would indicate a population of 750,000. Wisconsin polls 102,564 votes, and has therefore some 610,000 inhabitants.—*New American.*

**THE POSTAGE STAMP.**—The price for it, one of the knowing clerks in the Philadelphia Post Office, who has an eye to every thing that can possibly trouble, says that the upper right hand corner of the letter is the place for the stamp. There it is readily seen when the clerk is running over his pile of letters and there the mailing stamp serves to obliterate the postage stamp. But if placed upon the other end of the letter, the stamp is not easily seen, and besides the clerk is likely to stamp twice, once in order to oblige the head, and once to impress the post office stamp. Now, if this were to be done with every letter, the labor of the clerk would be doubled, all through the network of correspondents to attend to the rule we have laid down, always to stick the stamp upon the upper right hand corner (as the writer has done), of the envelope.

**THE LAND SALE IN KANSAS.**—The sale of the Delaware lands in Kansas, took place on the 17th ult. A letter dated, I, arrived on the 18th, says:

"Two-thirds, if not three-fourths of the speculators now present here, are from the North; I can hear of but very few from the Slave States. One, a Kentuckian, has \$20,000, and one from Baltimore, Md., \$10,000, to invest in the purchase of valuable land as there is in Kansas. There are several from the North; one from Illinois, with \$20,000; one from Indiana, with as much more; one from New York, with \$10,000; and one from Ohio, with as much, all to be invested."

**TERRELL SNOW SUPPORTS THE NORTHWEST.**—*MILWAUKEE.*—The storm of Tuesday last was very severe along Lake Michigan. Many buildings were swept away, damaged, &c. The railroads are blocked up, and no trains are arriving or departing.

During the storm of Tuesday the brig Storm King and Algonquin, and the schooner Welland were all wrecked within sight of the city. All on board were saved.

Several propellers from Buffalo are over-due and have been entertained for their safety. Many shattered vessels are arriving here.

**ELECTION OF U. S. SENATOR.**—The Harrisburg *Keystone*, speaking of the time for electing a U. S. Senator from this State says: "The act of Dec. 2, 1828, fixed the second Tuesday of January for the election of U. S. senator. The act of April 18, 1853, changed the time to the second Tuesday of February. The act of January 4, 1855, repeated the act of 1853; so that the election of U. S. Senator will take place on the second Tuesday of January next, the 13th."

**REPUBLICAN STATE CONVENTION.**—The Erie *Gazette* suggests that a Republican State Convention be held at an early day, to organize for the campaign of 1857, and names the second week in January as the time. It also proposes Judge Kelly or Judge Wilcox as a proper candidate for Governor. We are agreed to an early day for such a Convention, but are not satisfied that it would be politic to begin so early as the day named.

**NOTICE TO TAX COLLECTORS.**—By an act passed by the last Legislature it is made the duty of Tax Collectors to return Taxes due on unseated land to the Commissioners, office prior to the first Monday of January. Those failing to do so are made responsible for the taxes.

**ARRIVAL OF POULTRY.**—Seven thousand live turkeys, and three thousand chickens, from Upper Canada, were brought down yesterday by railroad, and turned out at the Somerville station.—*Boston Journal.*

**MICHIGAN.**—The Adrian, Michigan, Express states, that the entire Republican press of that State, with one or two exceptions, has already raised the name of Fremont for President in 1860.

**THE CATHOLIC VOTE.**—A work recently published in Germany by Franz Leber, a German Catholic, on the History and Condition of the Germans in America, contains the following pregnant paragraph, as quoted by the *Argentine Zeitung*:

"The Catholics have, in the United States as well as in Canada, world-renowned and accomplished priests and teachers, who are superior in mind and intellect to their Protestant brethren. This vases the preachers of the old English sects, and they are beside themselves with anger. The warehouse of their own theology offers them only a few weapons. Their religion is cold, intelligent, and yet not rational enough; they, therefore, libel and persecute the Catholic Church, and represent its priests as the most ferocious hosts of prey, only to be devoured with skin and bones. This is exactly the thing most agreeable to the Catholic managers. They have plenty of money, which is everything in America, although half of it comes from Europe. Their priesthood is well regulated and drilled, and the multitude of their bishops obey their commands like one man. The Catholic Bishops have already sent word to all the Presidents and Governors, and to the legislatures of the free States, the greatest political power. They elect Presidents and Governors, and are mostly always Democratic, though they know when to change their politics."

The late Presidential election, if not proved absolute of this assertion, will serve as a confirmation of the growing belief in it.

**DEMOCRACY AND KANSAS.**—The Louisville *Journal* of the 21st ult. says:

"A prominent and highly respectable citizen of Louisville, who was never either a Whig or a Know Nothing, was in, or not far from Evansville a few days after the late Presidential election. He there had a conversation with a highly intelligent and intelligent Indiana Democrat who is a member of the elect Legislature of that State, and law partner of one of the Democratic members of Congress. In that conversation the Louisville gentleman pressed home the matter of the Indian difficulties, and asked the citizen of Indiana how the Democratic party could settle them. The Indiana man expressed his views, closing with these emphatic remarks:

"One thing is settled. You can't come in as a free State. If it does not, the Democratic party goes to hell everywhere in the North."

With the Northern section of the party have sprouted matters of great vexation for the sake of harmonious action with the South.

Democracy, but there are things against stand, and the bringing of Kansas into the Union as a slave State, is one of them."

Unquestionably this gentleman concluded a great and stern truth. If Kansas is brought in as a slave State, the Democratic party North will go to the horrid place mentioned by him, and if Kansas is brought in as a free State, the Democratic party South will not stop short of the same bad destination."

**THE BIRMINGHAM DEMOCRATIC.**—The Birmingham *Democrat*, a weekly newspaper, having a general or special Act of Assembly to prevent Judge Wilcox from concerning himself in politics. No wonder the Democrats have the dog's life.

The Boston *Advertiser*, republican newspaper, has told the Democrats that if they will not stand, and the bringing of Kansas into the Union as a slave State, is one of them."

One thing is settled. You can't come in as a free State. If it does not, the Democratic party goes to hell everywhere in the North."
