B. DEANS, the occupant of the Sky W. Barlor in the Brick Block, is now prepared to furnish, in addition to his former style of pictures, the "Improred Ambrotype" and the recently invented " Atrephograph."

These Ambrotypes are durable, soft and brilliant in their tone and fauish, and free from that dark leadenhae which has been an objection to pictures of this description.

The Atrephograph is an unreversed likeness on paper, (unlike the Photograph) very susceptible of colors, and much resembles a fine painting on ivory. They are just the thing for inserting in gift books and family records, or for mailing togahsent friends. Come and see, the sight is fror, and you'll agree,

CERTAIN politicians, interested in the support of the "peculiar institution," have endeavored to persuade the public that Mrs. Stowe's last work is artistically a failure, and that it has produced no pro-found impression on either side of the Atlantic. But Mo the publishers are happy to state, that of the many hundreds of American potices which they have re-

ceived the vast majority have been decidedly favora-ble, most of them enthusiastic; and the sale, thus far has exceeded that of any work of fiction ever published-the Sixty-Läght Thousand set of two volnes each, being now in press.

In England, the success has been even more wonderful. The press there, with but one or two exceptions, acknowledge the genius and power of the au-thor, and in terms of which any living writer might be proud; and during the twelve days succeeding its publication no fewer than Sixty-Thousand Copies, were sold. The universal voice of Literary men now places Mrs. Stowed among the Forement Authors of the Age ; and neither partisanship, nor an austere religious bigotry, can ever deprive her of the laurels she has so nobly carned.
