large stock of muck to be thrown up at

dried in Sommer, and freely mixed with the

contents of the stable and var I in Winter .-

The importance of apples, as food, has no hitherto been sufficiently estimated in this country, ndr understood. Besides contributmg a large portion of sugar, muclage, and other nutritive matter, in the form of foot they contain such a fine combination of vegetable acids, extractive substances, and are matic principles, with the nutritive mutty as to act powerfully in the capacity of refresh ments, tonics, and antisepties; and when free ly used at the senson of ripeness, by rural l borers and others, they prevent debil to stresgthen digestion, correct the putrefactive tendencies of hitrogenous food, avert seury and probably minimain and strongthen the powers of profluctive labor. The operative of Cornwall, in England, consider apples near ly as nourishing is bread, and more so than potatoes. In the year 1801, a year of scared ity, apples, instead of being converted into cider, were sold to the poor; and the laborers asserted that they could stand to the work on baked apples without meat, whereas a potatoe diet required cither meat or lish The French and Germans use apples exter sively; indeed, it is rare they sit down, in the rural districts, without them in some shape or other even at the best tables. The labor ers and mechanics depend on them to a very great extent, and frequently diet on sliced apples and bread. Stewed with ric, cabbage, carrots, or by themselves with plenty of choice fruit, we will venture that not one man, woman, or child in fifty would care for animal flesh to cat. Who doubts for a moment that many scrofulous and other diseases a are traceable to a meat diet? It is well known that nivel of the meat we eat is in a diseased state when slaughtered, and its clfect may be well imagined. Yet your fruit is always in a healthy state, and can not gera diluting, purifying and renovating tenden partment.

Give Hess Meat.-Many persons com plain that their hens will not lay, and that, notwithstanding their assiduity in furnishing them with all the articles ordinarily recoinmended to insure fecundity, the eggs the produce will not half pay the expenses. Now, we presume there is something lacking or the fowls would not run their owners in debt. It is not generally understood, even by those who profess to be most deeply versed in the mysteries of 'henology,' that the hen being omniverous, requires, to insure feemidity, a very liberal allowance of ment! When ance is derived from insects, worms, &c. She partakes but sparingly at such times of grain; and often when that article is supplied leaves it for the more inviting food which nature supplies her with, in her favorite haunts. Now, if we confine her where the natural propensity for this description of food cannot be gratified, even though we supply the best of grain, and in abundance, she will cease to lay. The privation affects her health, and will need goods. essarily be an end of profit until the deficien ey is supplied. When fresh meat and fresh fish connot be supplied, the common scraps of the butcher, which are hard and compact can be kept any length of time, and answer all the desired purposes .- New England Farm

INVALIDS, READ AND JUDGE FOR YOURSELVES.

JULES HAUEL, Esq., the well known perfumer, of Chestnut Street, Philadelphia, whose choice products are found at almost every toilet, says:

"I am happy to say of your Catharte Pills, that I have knind them a better family medicine, for common use, than any other within my knowledge. I have of them, and coincide with me in believing that they possess extinoidinary virtues for driving out diseases and curing the sick. They are not only effectual, but safe and pleasant to be taken—qualities which must make them valued by the public, when they are known."

The venerable Chancellor WARDIAW writes from Baltimore, 15th April, 1854:

"Dr. J. C. Ayer.—Sir: I have taken your Pills with great benefit, for the listlessness, languer, loss of appetite, and Bilious headache, which has of late years overtaken me in the spring. A few doses of your Pills cured me. I have used your Cherry Pectoral: many years in my family for coughs and colds with unfailing success. You make medicines which cure: and I feel it a pleasure to commend you for the good you have done and are doing."

JOHN F. REATTY, Eaq., Sec. of the Fenn. Railfoad Co., says:

"Pa. R. R. Office, Philadelphia, Dec. 13, 1853.

"Sir: I take pleasure in adding my testimony to the efficacy of your medicines, having dorived very material benefit from the use of both your Pectoral and Cathartic Fills. I am never without them in my family, nor shall I ever consent to be, while my means will procure them."

The widely renowned S. S. STEVENS, M. D., of Wentworth, N. H., writes, "Having used your Cathartic Pills in my practice, I certify from experience that they are an invaluable purgative. In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of diseases that follow they are a surer remedy than any other. In all cases where a purgative remedy it can be used to a superior to any other I have ever found.

I confidently recommend these Pills to the public, as superior to any other I have ever found.

They are sure in many years known your Cherry Pectoral as the lest Cough medicine in the world; and these Pills are in no wise inferior to that admirable preparation for the treatment of diseases."

"Dn. J. C. Axer — Dear Sir: I have been afflicted from my birth with scrofula in its worst form; and now, after twenty years' trial, and an untold of amount of suffering, have been completely cured in a few weeks by your Pilts. With what feelings of rejoicing I write can only be imagined when you realize what I have suffered, and how long.

"Never until now have I been free from this balliss me disease in some shape. At times it attacked my cys., and made me almost blind besides the unendurable pain; at others it settled in the scale of my head, and detroyed my hair, and has kept me early hald all my days; sometimes it came out in my face and kept it for months a raw sore. "About nine weeks agod I commenced taking your Cathartic Pilts, and now im entirely free from the complight. My eyes are well, my skin is fair, and my hair, has commenced a healthy growth; all of which thakes me feel already a new person.

Read this from the distinguished Solicitor of the Supreme Court, whose brillant abilities have imade him well known, not only in this but the neighboring States.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severe sind dangerous cough, by your Chenne Placosen, and since then has enjoyed perfect health. My children have several times been cured from anticks of the Influence and Croup by it. It is an invaliable tranedy for these complaints. Mour Cathabette Prills have entirely cured me from a dyspepsia and costivenessy which has grown upon me for some years,—indeed, this cure is much more important, from the fart that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedics liad taken. dies I had taken.
