Notices.

Acknowledgment.—Mr. and Mrs. BILLET tender their grateful acknowledgments to their friends, who, from time to time, during the past few weeks, have given them substantial evidence of their kindness, by the contributions they have made to their comfort. Much as the receivers value the benefactions, we still trust that it may be found in the rich spiritual experience of each, that "it is more blessed to give than to receive." March 11, '57.

Another Institute.—We will hold an Institute in Springville Hollow, on Monday, the 23d of March—session to commence at 10 o'clock, A. M.

Prof. Stoddard will lecture to the Teachers and Parents in the evening.

Will some of the friends see that things are in order to accommodate the Institute?

9w3 SUPERINTENDENT.

Dr. Halsey's Forest Wine and Pills.—It should be understood that these remedies are not made of drugs, as are nearly all other medicines, but they have been produced from certain plants of great medicinal virtues. We will mention, for example, three of these plants, *Dandelion, Sarsaparilla*, and *Wild Cherry*, whose virtues are well known.—The others are found growing *wild* in the mountains and forests, and their medical properties are ten times greater than those we have named. Were it not for making known the secret of a discovery, which Dr. Halsey places great value on, we would give their names. Suffice it to say, that this delightful wine and the pills have acquired a high reputation in every part of the country. We never know a single instance, where these remedies have been taken according to the directions, in which they do not produce the most decided benefit. Even in old standing complaints, where the patient persevered in them for a reasonable length of time, cures have been effected.

Dr. Halsey's advertisement can be seen in another part of this paper. ABEL TURRELL, Agent.

Deceased was a native of Windham Co., Conn., whence he removed to Mt. He was a pattern of honesty and industry, quiet and unassuming in his manners, beloved and respected by all who knew him well. He departed in peace, leaving the assurance that our loss is his "infinite gain." [COM.

UNPARALLELED CASE OF MALPRACTICE,

All the Teeth of the Upper Jaw Torn out in Extracting a Molar.

DR. H. a Dentist of considerable distinction called at my office a few days since, and while examining a set of new instruments recently brought with me from Dental College, took up the "Universal Molar Forceps," for the "Superior Maxillary," and expressing his admiration of it turned to several gentlemen in the room and inquired if some one of them hadn't a tooth he wished extracted, that he might try the instrument. One of them replied that he had, and took the chair. Now the Doctor is a man of powerful physique, and seizing the tooth without even the usual ceremony of "cutting round," he gave it an unmerciful twist, when oh! frightful! out came the entire upper jaw, teeth, *gums and all*. The heart rending horrors of the scene that followed I shall not attempt to describe. The yells, the screams, the convulsive leaps in frantic agony, of the poor sufferer, were enough to pluck the heart out of a decent man, and cause the gravel stones in the gizzard of the miserly Shylock to shake like a rattle box. But before your hearts go quite to smash my friends, just let me ease you a little, by stating that both the teeth and gums in this case were *Artificial*, but so very natural in their appearance, that even the Doctor's practiced eye failed to detect them, and hence the catastrophe. But please bear in mind that this deception can be produced by no other kind of Artificial Dentures, except the

"Improved Mineral Plate,"

in which the teeth and plate are one solid piece, carved and colored in so exact imitation of nature as to render it hard to believe that they can be Artificial, when seen in the mouth. I have been several times accused by those who have looked at them, of "*scalping*" some mouths while in the city, and more cruel than even the Sioux; I have brought away not only the flesh but the *bone*. Those wanting teeth are invited to call and examine specimens. They need no puffing or laudation *extra*, as their superior naturalness, beauty and cleanliness, are apparent at sight. And now, in conclusion, "my dear fellow men and fellow women," I am happy to proffer you the benefits of whatever Professional knowledge or skill I may have acquired while abroad, together with my most hearty thanks for the bounty of your patronage which has sustained me in the past. My charges will be, as ever, "according to your ability." For the poor whom "we always have with us," my operations will be gratuitous. Come on then ye halt and maimed, and blind, the middle "ten-thousand," and the "upper ten centums," the "Aristocracy," and the "Codocracy," for I still have some hopes of everybody in this bad world, except Rum patronising Christians and Rum drinking Carson Leaguans—they are *gone in*.

Yours, for cash,

C. D. VIRGIL, Resident Dentist.
