The Educated Farmer. The cultivation of the soil and its kindred branches, holding the first rank of industry as they do, although laborious and despised by many, present pleasures to the true student of Nature, of which the superficial observer in ignorant. The mere toil without a knowledge of the true and correct principles applicable to good farming, is certainly unsat sfactory enough; the mind, as well as the body of the farmer should be occupied with his pursuit; his occupation deserves and demands study, as well as medicine, law or divinity, and he is found to be successful in proportion to the stock of actual knowledge he has acquired. Chemistry, geology and botany have much to do with his business, and our daily experience must be convincing to all reflecting minds that these branches are indispensable to a true and correct system of Agriculture. It is true that thousands stir the soil without naving the remotest idea of any of these branches, and some raise good crops by mere chance and favorable circumstances, copying in miny cases their more enterprising neighbois without having candor enough to ac-

Among this class of farmers, we find the men, who believe in the transmutation of wheat into clieat, and timothy into other grasses, and in such like absurdities. With the studious farmer, these things are different, he is ready to prove by correct reasoning, that all plants are produced from seeds, roots, and slips "after their kind;" he studies from Naturd, compares his experience with the labors of those who devoted their whole life time to study subjects correctly, and is always ready to yield when he is found wrong; he looks at things in Nature's own way, and imitates them as near as it is in his power, he finds pleasure in all things connected with the farm-to him the well-fed, sheltered, clean, gentle, ruminating cow presents an emblem of peace and contentment—the well-trained beast of burden is an emblem of obedience—the fine poultry gladden his heart by their graceful movements, while the wide spread and thriving fields of grass and grain fill him with profound oy and pleasant feelings; Nature is to him a powerful stream by which he overcomes all

FEEDING SWINE,-Wm. P. Hopkins, exhibited a simple apparatus for feeding swine, invented by Robert M. Abbe, a Connecticut Yankee. The front of the feeding pan is made to swing upon a pivot on each end of the top edge. When putting the food into the trough, this swinging board is moved back and fastened, so as to throw the trough upon the ontside of the sty. A gentleman stated that he had used this contrivance with a great

Had an Last.-A young man from the "rural districts" went to the Post Office the other day with a bank note, for a dollar's worth of postage stamps. He was told that said the attendant, "for more than twenty cents apiece." The countryman thought Uncle Sam mighty particular, so he went away again and obtained a dollar in coppers. "Now" said he, on returning to the office, and laying down his "pile" at the window of the delivery, "I guess I can suit ve." The man inside looked at the display of "specie currency," and coolly said, "we never take more than three cents in coppers at any one time; it is not a legal tender above that sum."

The country man looked at the compose official for the space of a minute and a balf, without stirring; and then he belched out, "Look here you; ain't you kind of particu-lar, for fellers locked up in such a jail as this ere? You don't take only three cents in coppers at a time, hey? Well, then, s'pose vou give me three cents worth of stamps, anyhow." The official very politely cut him off a single stamp and passed it out, for which the countrymen laid down three cents. He was about to pass away, when the latter cried out, Look here, you! Hold on! That 'ere's our time. Now s'pose you gin me three cents worth more on 'em."

Uncle Sam's clerk was not slow in discov ering that he had caught a tartar. " How many coppers have you got?" be asked .-"Wall, mly about ninety-seven on 'em; I had a hundred on em when I begun." "Pass 'em it !" was the gruff reply. "Pass out your stamps fust and then I will," said Jenathan, "But I reckon you don't ketch me again." The stamps were passed out, the coppers were handed over, when the countryman went off, saying, "I s'pose because a feller holds office under Uncle Sam he thinks he's smarter'n all oreation; but I guess they larnt somethm' that time."

THE TRIBUNE FOR 1857.

HE Election is past, and its result proves that not yet completed. In all the Eastern and Northern portions of the country—in New-England, New-York, Ohio and the North-West—the Republican banner floats in triumph; while in Southern Jerrey, Pennsylvania, Indiana and Illinois—in short, wherever few newspapers are taken, and where common schools are too new and too feeble to have educated the present concept to of vetern—the black flog of the present guneration of voters—the black flag of Slavery obstructs the annahine. A stranger to Amerlea might distinguish those portions of our country, most blessed with Education, Intelligence, Thrift and Virtue, by scanning the returns of the Presidential contest of 1856. We have failed of present succers, not because the People are against us, but because that large portion who did not hear or read the argument and do not know what were the real questions at issue, went almost solid against us, reversing the verdict which the great majority of the educated and intelligent endeavored to pronounce.

These facts indicate the path of pressing duty. With no unmanly repinings over what is irrevocable with no abatement of heart or hope because the triumph of Liberty in her new ordeal is not won at the Long Island and White Plains of her strongle—

with no shadow of regret that the responsibility of governing is not confided to her champions before the People were fully ready to sustain them—we be-gin afresh the work of diffusing that yital truth which, in regard to the concerns of this world as well as of the next, makes Free indeed. Now, in the Slave Power's heyday of victory, when its ministers and servitors are gathering and plotting to make the most of their triumph and "crush out" the spirit knowledge it, and not unfrequently we can which they vainly believe to be crucified and entombed—now when the faint-hearted or cold-hearted who lately basked in the sunshine of our premature hopes meet a fariner who in his humble way by accident does a thing scientifically, without being are hauling off to repair damages and talking of abandoning the rugged arens of Politics for more quiet and flowery fields—now, in this hour of weariness and shadow, THE TRIBUNE renews its vows of eternal hostility to every form of tyranny over the bodies or souls of men-to the shameful assumption that the benighted and feeble, whether in soul or. body, are to be regarded and treated as the conven-ience or the prey of their wiser or stronger breth-ren-to the domination of despots and oligarchs, whether of empires or plantations—to the enslavers of cities and kingdoms in Europe or the breeders of hildren for the auction-block and the cotton-field in Virginia or Alabama.

The doctrine that no human being was ever creat-

ed for the benefit or advantage of another—that all service between man and man should be free and re-ciprocal—that the laborer should not toil and sweat to pamper others' pride or minister to others' luxure, but, for the sustenance and comfort of those near and dear to him-is destined to certain triumph. It was prevail, for God reigns, and Earth was not created to be a theater of injustice, oppression and misery for ever. It was triump; for all true prophecy affirms and the vindication of the Divine benignity imperatively requires it. If MUST triumph; for Democratic America cannot always remain the scoff of aristocrats and the shame of reformers and liberals Also, Ladies Gaiters, Buskins, &c. throughout the Old World. It were triumph; for powerful stream by which he overcomes all provocations that encounter him, and he escapes in peace.

But even if ,we Republicans were disposed to fold our arms in slumber, our adversaries would not permit it. They are busy to-day in lengthening their cords and strengthening their stakes with a vigilance and activity which reveals a consciousness on their In the spring of 1832 my father commence part that their dominion must be made sure forthwith and a garden, and among other things, he set on their scepter will have forever departed. To-day, myrmidous of the Slave Power threaten and hands myrmidous are appropriately forest and settings for current bushes. I determined to Northern Mexico, are encamped in the heart of Cenexperiment on one of these cuttings; and as tral America and waging a war of extermination on soon as it grew, I pinched offall the leaves except the top tuft, which I let grow. The cut- it by turns leers and scowls at Cuba, while its most ting was about 14 inches long, and during the ruthless bands are precipitated on devoted Kansas, summer the sprout from this grew ten inches: ninistration. Even as we write, the telegraph in forms us that twenty Free-State men, guilty of at-tempting to defend their homes against the rapine and violence of Bulord's and Titus's blood-thirsty bandita, have been convicted by Lecompte's Court of manslaughter; and sentenced to five years' imprison-ment at hard labor as felons. This is but a fair speto hear fruit, it was more productive than any cimen of what has long passed for "justice" in Kansas—a justice which takes the criminals into pay and the hair; Halloway's Pills and Ointment, and nearly It-was unjufested with spiders and other insects: henercould not nick off the fruit and out" the innocent, whom it consigns to the State grass and weeds were more easily kept from resisting their oppressors. Such crimes and wrongs the roots. I would propose that current cut as unhappy Kansas has fer twelve months endured, tings be set in rows about four or five teet even Hungary or Poland has never known; and the apart each way (let them be long straight Power at whose instigation those villainies were and are perpetrated sits enthroned in the White House, and has just achieved another four years' ascendency.

THE TRIBUNE will be, as it has been, a Political Journal—arowedly, though not exclusively so. It recognizes the truth that Freedom and Slavery are here grappled in a deadly conflict, and in the result proceedings of Congress, like those in Kansas, will be saving of food, and it had taught his hogs to be gentlemen. watched and reported by an able and fearless corps of Correspondents, while from London, Paris, Constantinople, Havana, San Francisco, Albany and other center of interest, our special advices will be, as they have been, fresh and reliable. A member of our Editorial coars—Bavard Taylor—is now in Northern Europe, and will spend the Winter in Sweden, Lapland, Russia, thence making his way next season apaper money was not received. He went and thence homeward by the Pacific and camorma, away, and shortly returned with four Spanish unless some change of route shall promise greater interest and profit to our readers, for whom alone interest and profit to our readers, for whom alone he will write regularly throughout his avdenturous journey, which is likely to require two, years for its empletion. Our reports of the most interesting Lectures, Public Meetings, &c., will be full and relia ble, and our Foreign and Domestic News made up with a careful regard to the condensation into our imple columns of the greatest amount of intelligence that is consistent with the use of type of generous size. The Postmasters are semi-officially admonished not to aid our circulation, but to urge instead that of journals deemed, "sound" and National" by the compatitions of Atchison & Stringfellow. Ambrotypes, Atrephographs, Daguerreotypes.

Strange things are uprising-Man is ever devising Something new and surprising. B. DEANS, the occupant of the May Parlor in the Brick Block, is now prepared to furnish, in addition to his former style of pictures, the "Improved Ambrotype" and the recently invent-

ed "Atrephograph."

These Ambrotypes are durable, soft and brilliant in their tone and finish, and free from that dark leaden hue which has been an objection to pictures of this description. The Atrephograph is an unreversed likeness on super, (unlike the Photograph) very susceptible of clors, and much resembles a fine painting on ivory. They are just the thing for inserting in gift books and mily records, or for mailing to absent friends. Come and see, the sight is free, and you'll agree that my work is fine as need to be.

Don't forget that, now. Montrose, Dec. 17, 1856. MILLINERY.

good medicines have been made known to the public, yet thousands have already experienced their good effects. Invalide, given over by their physicians as incurable, have found relief and been restored to sound and vigorous health from their use. The great amount of good these medicines have done, has in

duced thousands to recommend them to their friends Men of integrity and physicians have sanctioned their use, recommended them to the public.

READER, if you want not your constitution inured by that slow, lurking poison, calomel; or other mineral substances, touch not such medicines as contain them, but procure those excellent and purely

regelable preparations; Halsey's Forest Wine and If you have the dyspepsia, or are troubled with costiveness, take this Wine and the Pills, according o the directions, and you will then get well. If you are nervous, or weakly, or have emaciated countenance, or general debility, this Wine and the Pills will restore you to health and energy.

If you have unhealthy colored skin, or pimples, or pustules, or blotches, these medicines will purify the fidelity. If you have a weakly constitution, and feel your selves too old for your years, take these excellen

medicines, and they will invigorate your constitution and fortify it tor longer life.

If you are bilious (which may be known by such ryon are binous (which may be known by such a standware, stoneware, massware, mostly, symptoms as drowsiness, loss of appetite, dizziness, furred tongue, etc.) take a good dose of the Forest Pills, and they will purge from the stomach and bowels all morbid and bilious matter, and thus prevent Notions, &c. fit of sickness, and save your doctor's bill of \$10.

If you have the liver complaint, the Forest Wine and Pills will cure it. These medicines exert a powerful and most salutary action on the liver, and have been the means of curing thousands of this trouble PARENTS, there is not, perhaps, a month in the year that some member of your family does not comclain of hendache, or sickness at stomach, or have

furred tongues, or some other unfavorable symptoms. These are the forebodings of disorder; and sickness toms always show that bile or morbid matter exists in the stomach and howels, or that the system is otherwise disordered. Timely use of the Forest Wincand Pills will, in all cases, prevent sickness from such causes, and will purify the blood, and productrength and animation. The Forest Medicines, kept always at hand, to be

taken whenever such symptoms are exhibited, will save your family almost entirely from sickness, as well as your doctor's bill, which frequently amount to more in a week, than sufficient of these medicine to keep your family in good health for years.

LADIES, the Forest Wine is your medicine. This pleasant, agreeable, yet effective medicine, exactly suits your delicate constitutions. If you are weakly, or nervous, or in general ill health, this Wine will do more to restore you than all other medicines. In all cases where bile exists, or the bowels constipated, the Forest Pills also should be taken, according
