UNPARALLELED CASE OF MALPRACTICE, All the Teeth of the Upper Jaw Torn out in Extracting a Molar. R. H. a Dentist of considerable distinction tion called at my office a few days since, and while examining a set of new instruments recently

brought with me from Dental College, took up the "Universal Molar Forces," for the "Saperfer Maritiary," and expressing his admiration of it turned to several gentlemen in the room and inquired if some one of them hadn't a tooth he wished extracted; that that he had, and took the chair. Now the Doctor is a man of powerful physique, and seizing the tooth without even the usual ceremony of "cutting round." he gave it an unmerciful twist, when oh! frightful! out came the entire upper jaw, teeth, gums and all. The heart rending horrors of the scene that followed shall not attempt to describe. The rells, the screams, the convulsive leaps in frantic agony of the poor sufferer, were enough to plack the heart out of a decemp man, and cause the gravel stones in the gizzard of the miserly Shylock to shake like a rattle box. But before your hearts go quite to smash my friends, just let me ease you a little, by stating that both the teeth and gams in this case were Artificial, but so very natural in their appearance, that even the Doctor's practiced eye failed to detect; them, and hence the catastrophe. But please bear in mind that this deception can be produced by no other kind of Artificial Dentures, except the

"Juproved Mineral Plate." in which the teeth and plate are one solid place, carved and colored in so exact imitation of nature as o render it hard to believe that they can be Artifical, when seen in the mouth. I have been several times accused by those who have looked at them, of a scalping, some mouths while in the city, and more cuel than even the Sioux, I have brought away not only the flesh but the bone. Those wanting teeth are invited to call and examine specimens. They need no puffin, or laudation extra, as their smarks naturalness, beauty and cleanliness, are applicit at sight. And now, in conclusion, "my dear fellow men and fellow women," I am happy to profier you the benefits of whatever Professional knowledge or skill their needs of the profile of the conclusion of the contract I may have acquired while abroad, together with my most hearty thanks for the bounty of your patronage which has sustained me in the past. My charges will be as ever, "according to your ability." For the be, as ever, "according to your ability." for the poor whom "we always have with us," my operations ed, and blind, the middle "ten-thousand," and the "upper ten centums," the "Aristocraey," and the Codocracy," for I still have some hopes of everybody in this bad world, except Rum pationis Christians and Rum drinking Carson Leaguans—they are gone in.

Yours, for cash,

C. D. VIRGIL, Resident Dentist.
