We copy from the "Agriculture of Massachusetts, for 1855," the statements of W. kept on hay and meal. He says:

"I have kept from six to ten oxen and four horses for the past five years, until last spring, when I dispensed with oxen altogether. I have learnt by actual experience, the cost of keeping to be as follows: A pair of horses, weighing twelve hundred pounds each, will work every fair day during the year ten hours, and keep fut on six quarts of Indian meal and sixteen pounds of good hay each per day. A pair of oxen, girting nine feet, or weighing thirty or thirty-two hundred weight, will require four quarts of Indian meal and thirty pounds of good hey each, per day, provided they are kept at work as many hours as the horses. The cost of keeping a pair of horses as above, would be, at prices in this vicinity at this time, thirty-two pounds of hay per day, at \$25 per ton, forty cents—twelve quarts of Indian meal, at \$1,12 per bushel, forty-two cents-total, eighty. two cents, or \$299,30 for one year. Keeping one pair of oxen one day, sixty pounds of hay, \$25 per ton, seventy five cents; eight quarts of Indian meal, \$1,12 per bushel, twenty-eight cents-total, for one day, \$1,03, or \$375.95 for one year." These figures will astonish many farmers;

The cost 64 1.2 cents per day, (39 cents per day less than Mr. Porter's estimate.) yet the expense of feeding a yoke of seven feet oxen, as it cost us, would amount to \$234 per year, to say nothing of shoeing, taxes, interest on their value, risk of sickness, accidents, &c. We have failed of present success, not because the People are against us, but because that large portion who did not hear or read the argument and do not know what were the real questions at issue, went almost solid against us, re-versing the verdict which the great majority of the educated and intelligent endeavored to pronounce. These facts indicate the path of pressing duty. With no unmanly repinings over what is irrevocable -with no abatement of heart or hope because the with no shadow of regret that the responsibility of governing is not coulded to her champions before the People were fully ready to sustain them—we begin afresh the work of diffusing that vital truth which, in regard to the concerns of this world as well as of the next, makes Free indeed. Now, in the Slave Power's heyday of victory, when its ministers and servitors are gathering and plotting to make the most of their triumph and "crush out" the spirit which they vainly believe to be crucified and entombcd—now when the faint-hearted or cold-hearted who lately basked in the sunshine of our premature hopes are hauling off to repair damages and talking of abandoning the rugged arena of Politics for more quiet and flowery fields—now, in this hour of weariness and shadow, The TRIBUNE renews, its vows of eternal hostility to every form of tyranny over the bodies or souls of men-to the shameful assumption that the benighted and feeble, whether in soul or hody, are to be regarded and treated as the conven-ience or the prey of their wiser or stronger breth-ren—to the domination of despots and oligarchs, whether of empires or plantations—to the enslavers of cities and kingdoms in Europe or the breeders of
