CASE OF MALPRACTICE, All the Teeth of the Upper Jaw Torn out in Extracting a Molar. R. H. a Dentist of considerable distinct tion called at my office a few days since, and while examining a set of new instruments recently brought with me from Dental College, took up the "Universal Molar Forcep," for the "Superior Maxillary," and expressing his admiration of it turned to several gentlemen in the room and inquired if some one of them hadn't a tooth he wished extracted, that he might try the instrument. One of them replied that he had, and took the chair. Now the Doctor is a man of powerful physique, and seizing the tooth without even the usual ceremony of "cutting round," he gave it an unmerciful twist, when oh! frightful! out came the entire upper jaw, teeth, guns and all: The heart rending horrors of the scene that followed I shall not attempt to describe. The yells, the screams, shall not attempt to describe. The yells, the screams, the convulsive leaps in frantic agony, of the poor sufferer, were enough to pluck the heart out of a decent man, and cause the gravel stones in the gizzard of the miserly Shylock to shake like a rattle box. But before your hearts go quite to smash my friends, just let me case you a little, by stating that both the teeth and gums in this case were Artificial, but so very

natural in their appearance, that even the Doctor' practiced eye failed to detect them, and hence th

catastrophe. But please bear in mind that this deception can be produced by no other kind of Artific ial Dentures, except the "Improved Mineral Plate," in which the teeth and plate are one solid piece, carved and colored in so exact imitation of nature as to render it hard to believe that they can be Artificial, when seen in the mouth. I have been several times accused by those who have looked at them, of "acalping" some mouths while in the city, and more cruel than even the Sioux, I have brought away not only the flesh but the bone. Those wanting teeth are invited to call and examine specimens. They need no puffing or laudation extra, as their superior naturalness, beauty and cleanliness, are apparent at sight. And now, in conclusion, "my dear fellow men and fellow women," I am happy to proffer you the benefits of whatever Professional knowledge or skill I may have acquired while abroad, together with my most hearty thanks for the bounty of your patronage I may have acquired while abroad, together with my most hearty thanks for the bounty of your patronage which has sustained me in the past. My charges will be, as ever, "according to your ability." For the poor whom "we always have with us," my operations will be gratuitous. Come on then ye halt and maimed, and blind, the middle "ten-thousand," and the "upper ten centums," the "Aristocracy," and the "Codocracy," for I still have some hopes of everybody in this bad world, except Rum patronising Cheistians and Rum drinking Carson Leaguans—they Christians and Rum drinking Carson Leaguans they are gone in.
