he desperation of the Pro-Slavery leaders who have so long disturbed the peace of the Territory, and must convince even the most skeptical that the half of what the Free-State citizens have suffered has not yet been written. - If it were but possible for every intel ligent elector of our country-either from the North or South-to come out here and examine for himself, listen to the accounts of those who have passed through the fiery ordeal of two years' residence, and learn from personal observation the truth of what has occurred, loud and deep would be the indignation against the Pro-Slavery party.

Nor were the invading Missourians and Southerners the only opponents with which the Free-State men of Kansas were compelled to contend. In definince of protests and petitions and memorials, of the Congressional Committee's report and detailed statements, substantiated beyond the shadow of a doubt, a Democratic anajority in Congress has not only refused to grant the Free-State men redress, but even gone so far, in the madness of party zeal as to ridicule their prayers, to admit Whitfield, the bogus Delegate, and to refuse to adopt the Topeka Constitution, which had been indorsed by fully three-fourths

of the residents of Kansas. On the 10th of March a Free-State Convention assembled at Topeka and adopted a platform, which will be found appended to this address. In that platform it will be seen that the Free State men refuse to vote for delegates to a constitutional Convention, under a register act which passed the last bogus Legislature. Late developements have proved the wisdom of this policy, for, by the lists of qualified electors returned by the sheriffs of the different counties, thousands of Free-State voters have been ignored, while the mames of numerous unknown and mythical individuals are entered as "qualified electors." All the machinery of the election is to be controlled by Pro-Slavery partisans, and it would be suicidal for the Free.State party to go into an election in the face of such odds. and with their past experience.

Although the present Federal Administration owes its success to the impression that prevailed at the North that the Chief Execu. tive would use influence and authority toward securing the freedom of Kansas, if such should be the will of the people, we can see as yet no indication of such policy on the part of Mr. Buchanan; and with moderation, yet firmness, we emphatically protest against the Federal appointments that have been made in the Territory, selected as they have been from the most guilty and obnoxious of our Pro-Slavery opponents.

Both Fresident Buchanan, in his Inaugural, and Governor Walker, in his letter of accept ance, have pledged themselves to obtain " an open, honest and independent expression of opinion from the bona fide residents of Knnsas." We look to see this pledge redeemed. and feel satisfied that if it is, the next Delegate to Congress and the next Legislature of that, with a Free Constitution, Kansas will come into the Union.

At the municipal election in Leavenworth city, held Monday, April 13, a Free State Mayor was elected by a majority of 184 over all opponents. This is the first time in the hat a fair vote has been obtained ; and cuty tion of Freedom or slavery.

The Free State meh of Kansas have made a proposition to acting Governor Stan ton, that two persons, one from each party, be selected in each voting district to correct the registry lists, which are notoriously incorrect and partial, and that four judges of election shall be elected in each election-precinct, two by the pro-Slavery and two by the Free-State party; and they propose, i the pro-Slavery party will give such proof that a fair election is intended, to overlook the past and go into the election for delegates to a Constitutional Convention. he had no power to appoint the judges, of course this amounts to nothing more than a show of something like fairness in the Governor. The pro-Slavery Probate Judges will be sure to appoint pro-Slavery judges of election. The registry lists have been made unfairly, and the places for holding the elections have been unfairly located. For instance no election is to be held within twelve miles of Lawrence, which is the largest town in the Territory, but inhabited almost exclusively by Free State men. This illus. trates the principle on which the election is to be conducted, by which a pro-Slavery

Constitution is to be forced upon a Free Soil people, with the connivance and by the aid of Mr. Buchanan's administration.

VIRGINIA SPEAKS .--- Since the recent triumph of the Free State party in St. Louis. leading papers are speaking out on the Sla. very question. The Wheeling (Virginia) Intelligencer says:

"Those elections do demonstrate this fact beyond a cavil -- that the sentiment of the great majority of the people of the Union is irrevocably opposed to the extension of slavery; that they are determined if over-whelming public sentiment can avail anything, another slave State shall not be admit. ted into the confederacy. And why are they so determined? Because they believe, and not only believe, but see and know, that slavery is an unmitigated curse to the soil that sustains it. They know this, because they see every free state outstripping every slave

state in all the elements that make a people. Philadelphia again, as everybody expected powerful and prosperous; because they see the people in the one educated and thrifty, stood, Mc'Grath, (Dem.,) 29,487; Potts, and in the other ignorant and thriftless; be. cause they have before their eyes a state like our own, once the very Union itself almost in importance, to-day taking ber rank as a fifth rate power.
