For the Independent Republican. Report of Institutes.

we held seven Teschers' Institutes in different parts of the county, each continuing from tion of the Socool Law. the whole time. At the seven institutes we had in attendance over twelve hundred citi zens, and upward of three hundred and fifty teachers.

follows: 1st, SUBQUEHANNA DEPOT, March It is one of which neither Directors or Teachness. The citizens gave us a liberal countenance by their presence, and upward of fifty teachers attended. All of the teachers were readily entertained free of charge, and, judg-ing from the spirit manifested, twice that number would have been just as easily.— Prof. Stoddard lectured to a full and delight ed house on Monday evening, and would have done so the next evening had his health permitted; but as it was we ware compelled to make a lame apology for his absence, much to our regret and that of the audience. On the whole, we had a good time, and, we thick, made friends to Teachers' Institutes and Common School Education. The generosity and flospitality of the people cannot be too highly praised. We would individualize were we able to do justice, but we are not.

2nd, JACKSON, March 11th and 12th .--Arrived at the place at the appointed time but found nothing in readiness, and concluded the tide was against us, and the people too. However, there was one thing in our favor-we were not taken by surprise;knowing how well the most of the people liked the Superintendency, we had guessed as much. One of the Directors had done all he could, probably, under the circumstances. Notwithstanding all the adverse feeling we had a good auditory, and Prof. Stoddard's Lectures upon the SCIENCES and upon the ART OF TEACHING had a telling effect on those present,-some of them declaring that one hundred dollars weald not tempt them to be deprived of the information thy had gained during the sessions of the Institute. Most of the candil who came and listened were convinced. Some who staid from the Institute see properly executed. But we must at the until the afternoon of the last day-solely because of prejudice-came and were converted. Upwards of eighty teachers were pres-ent. We occupied the Baptist church, and obtained our black-boards from the neighboring school houses.

3d, FRANKLIN, March 13th and 14th .-When we reached Franklin we found upward of four nundred intelligent citizens awaiting our arrival. A monstrous blackboard-fifty square feet-prepared for the occasion, stood there in all its ebon purity,---in fact everything was in order. The people were enthu-siastic throughout—it was a perfect triumph. The citizens were ready and anxious to ac-commodate thrice the number of teachers and visitors in attendance. Indeed so im-portunate were they that it was quite difficult for a person of indecision to choose his host. The Lectures by Prof. Stoddard were receiv-ed with enthusiasm. Not that all were in transport at all he said, but the general im-transport at all he said, but the general imthing was in order. The people were enthutransport at all he said, but the general imlow came forward and in a neat and approof the entirents for our enous in trying their warments in inangard of Common School Edu-cation. His sentiments were besutiful and very neatly expressed, and evidently reflected the feelings of the large and intelligent assem-bly present. Their warm and heartfelt thanks were formally tendered Prof. Studdard for the happy manner in which he had entertained and instructed them. This demonstration of Franklin will long be reniembered with gratitude by all our friends of Education. A number of Directors were in attendance during all the sessions of the Institute. 4th, FRIENDSVILLE, March 16th, 17th and 18th .- As the Institute at this place has been reported by some friend, it is of little use for me to add more. Suffice it to say that not withstanding the bad going we had a large attendance, and the hospitality of people ex-ceeded all bounds. Some citizens entertained of us may acquaint himself with some importen or twelve teachers during the whole time. The Directors were exceedingly active and efficient, and the best of feeling existed throughout. We never before so fully appreciated the appropriateness of the name the place bears. Truly "a city set upon a, hill cannot be hid." "Neither do mes light
