RINGRED FLIGHT OF MORMONS FROM SALT AKE. -We learn from one of the officers of from Upper Missouri, that on reaching Omaha City, he was informed by some of the citizens that a party of sixty Mormons had arrived on the 2d inst. The party encamped that they intended to in the town, and stated that they intended to in the town, and stated that they intended to start down the river by some boat in a few days. They were loud in their denunciations of the ruling men of Utah, and aver their firm belief that a large number of the inhabitants of the valley, as soon as they see a chance of protection, by the arrival of United States troops, will gladly avail themselves of the opportunity of withdrawing themselves from the yoke they are now gronning under. These persons who have reached Omaha, were a portion of the dissatisfied citizens of were a portion of the dissatisfied citizens of Salt Lake City, and their escape (that is the word they use) was the result of a well-devised and cautious stratagem. They left Salt Lake about April 20th. Missouri Den-

A party of several hundred Mormons, just from Utah, and en route for the southern part of Kansas, where they propose to settle, passed Fort Leavenworth on Tuesday (June 9th). They are heartily sick of the tyrannical rule of the Mormon leaders, and were fearful, if they remained, of suffering violence during the anticipated conflict between the United States government and the BRIGHAM Young oligarchy .- Quindaro (Kansas) Chin-

THE NEW CENT.—The Congregationalist discovers one peculiarity in the new coin in the omission of the word "Liberty," which had so conspicuous a place in the old money. It says the new is eagerly sought for from the South, where the old one was almost un-

TO THOSE WHO WANT FARMS. A Farm Within the Reach of Every Man.

I rangerents by which all who desire to settle or purchase a home can do so.

The Farms consist of the best limestone soil of the to \$20 per acre, payable by instalments, to be located at the time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payable \$6 per month or 121 acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, as

liscount of 5 per cent. will be allowed, and for over-\$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality, the following are presented.

First.—The soil is a rich limestone capable of raising the heaviest crops, owing to which this set tlement has attained its present great prosperity.

Second.—It is the centre of the great North-West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veins of the best Bituminous Coal, amounting in the aggregate, to over 22 feet, which makes, 22,000 tons of coal under each acre. This will make

the land of inestimable value.

property. The Sunbury and Eric Railroad gives un a market for our coal to the lakes—it runs from Eric to Philodelphia. A large part of this road has been finished, and is now in running order. A heavy fared is now, working from Eric towards our hand in the western direction the more for the complete. western direction, the means for the completion of which has been raised—it will soon be finished. The Alleganny Valley Railroad connects us with New York; Boston and Pittsburg. The Venange Read connects us with the West.

There are already good Turapike Roads rapaing

There is no opportunity equal to it now offered to the man who wants to provide himself a lione in access way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever ever having been known to the world, has to endure sickness and pain, and perhere is a thriving settlement having three towns, con-taining churches, schools, hotels, stores, saw mills, grist mills, and overwhing desired. There is a cash market at hand. The lumber trade last year amount. ed to over two hundred million feet of lumber. In a short time, owing to the coal, it will become suil? more valuable, as a number of iron works and manu-factories will soon be started; they are at present starting them extensively at Warren. Even for these who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a compotence by the rise which will take place in the value of land.
