Republicans of Susquehanna County! Loss than one week remains before you will be called upon to discharge one of the most important duties pertaining to the cilizens of a free country. on to rally, and by their votes sustain the principles and policy upon which our glorious Republic was founded. ...

Our ticket from first to last is one around which than party should delight to rally. The name of David Wilmot has for the last ten years stood in the front rank of the friends of freedom and equal rights. In 1847, he raised the standard of freedom in Congress, and since that time he has remained unflinchingly at his post, encouraging his friends and carrying dismay into the ranks of the enemy. For the last six weeks he has been fearlessly showing to the people of Pennsylvania the position he occupies, while his opponent, "General Backer," has dodged behind his Committee, refused to accept the challenge which his friends for months dared Judge Wilmot to make, and now like a poltroon is sneaking around the State two or three days behind Wilmot, attempting to lie down the man that his craven spirit dared not meet face to face. Let the freemen of old Susquehanna rally in their might and by the majority they shall roll up for Wilmot and freedom, tell the country that amongst the hills and valleys of the free North the breed of doughfaces is dying out. Messrs. Villward, Lewis, and Veech, the other candidates on our State ticket, are all true men, capable and honest, and are entitled to the vigorous support

of every Republican voter. Of the rounty ticket it is unnecessary to particularize, as it is composed of men who are well known to the citizens of the County. Messrs. Chase, Young, and Wade, were formerly members of the Democratic party and acted with that party until it was wholly swallowed up and controlled by the slave oligarchy of the South : since that time they have done yeoman

The ticket was placed in nor of Northern rights to leave the people to decide nomination by one of the most intelligent Conventions united with the Free Democracy of the North upon ever asembled in the County. No one has dared to breathe a syllable against a man upon the ticket, re-Secting upon his honesty or capacity. Most if not all of them have at different times served the people of their respective townships in a public capacity, and all are known to be men of strictest integrity. Our enemies have endeavored to sow discord in our ranks by inducing some who were disappointed in a nomination to offer themselves as independent candidates. A regular epistolary correspondence has that from here to the Western boundary of Texas,

been kept up by the old Slavedriving leaders, promising Republicans who would take the field the full Hunker vote, and that in due time some of their candidates should be withdrawn, leaving them a clear no intimation even, of the kind? The very reverse is the fact. While Texas remained an independent their promises, they very coolly turned their backs appon the independent candidates, told them they never had any idea of electing them, but were in hones that through their aid an old Hunker wight. hopes that through their aid an old Hunker might and a half and the forty-second parallels—were to beslip in. One of the tricks very commonly resorted to the Sham Democracy of our County, is this: In Townships where the Republicans have a majority the Hunkers, about the time nominations for Township officers are beginning to be talked of, will pretend to be opposed to bringing party into these local elections, and will offer to make up a ticket composed partly of Republicans and partly of Hunkers --To many this looks very fair and liberal, and accordthe plan, so that on election day there are two tickets in the field, one composed wholly of Republicans, and Sham Democracy. In some Townships enough Republicans have been drawn in to the support of such such case the result has been claimed by the party and announced in the Democrat as a Democratic vicory! and as foreshadowing the speedy downfall of pretty generally come to the conclusion that hereafter they will make regular Republican nominations will have nothing to do with those mixed tickets, which are only got up to cheat Republicans, and are never heard of in those Townships where the Hunk-

The Shamocracy refuse to take Tuttle out of the field; they have printed their tickets with his name for Register and Recorder; and the Democrat of this week says, " Our ticket was nominated in good faith, and will be supported entire." They hope to elect Tuttle, if they can split up the Republicans.

Massas, Editors: In my former letters setting forth the habits of the hireling whites of this country, the value of their services as compared with those of the slaves, &c., I endeavored to point out a class who are by the rich here denominated "gray-backs," and is another class of poor in this country who are as noble and enterprising people as are to be found in any country. This class of laboring whites feel themselves too near akin to royalty to hire themselves out as common laborers.

It may be of interest to your readers to know some country, and the value of their services as affected by the peculiar institution. man's friend." Rather than the white females of this country will sell themselves to Slavery-to labor together with nogro slaves-they will work out in the open fields under a tropical sun, (which is " too hot for the white man,") go in filth and rags, deny themselves of education and social refinement, nay, in many instances, sacrifice their virtue and their soul's salvation! Put these facts in the opposite pocket to that in which you cram the epithets "fanatic, abolitionist," &c .--

From the foregoing you may readily perceive that that Slavery shall be excluded from that portion of the house-keeping qualities of the class of females lesignated must necessarily be very rude, even inferior to those of the negro wench who has been reared and disciplined in families of wealth and household refinement—laying aside the convenience of making: the niggers do all the work, and more than all the honor of having wool in the kitchen.

Amendments of the State Constitution. The voters of Pennsylvania should bear in mind when they go to the polls at the election on the 13th inst., that the proposed by the niggers called "real poor white folks." There amendments to the State Constitution are to fall by that vote. Each voter should examine them before he goes to the polls, and vote understandingly. They are published in full in one or more papers in every county within the State, by the Secretary of the Commonthing of the laboring white tromen of this part of the wealth, and also by the Sheriffs of the several counties, in their county proclamations. They have been agreed to by two successive Legislatures, and only require to be ratified by a vote of the people to be engrafted upon the State Constitution. The amendments are four in number, and the vote will be cast for or against each one separately. The First Amendment relates to the pub-

or insurrection, or for the purpose of redeeming the present debt. 2. A sinking fund shall be provided suffiters might find regular employment and at the same cient to pay the interest on the existing State

the needless division of counties by prohibiting the erection of any new county containing less than 400 square miles, and requiring the express consent of the vaters of the county, to authorize any division of such county which shall cut off one tenth of its population.

unendments, but sufficient, we trust, to show their importance, and to induce our readers to examine them carefully, so that they be prepared to vote upon them with an intelligent understanding of their nature and bear-

STICKING TO PRINCIPLE.—The Benton Democrats of Missouri, have boldly endorsed the Free Soil party of Kansas. In the very face of the Institution of Slavery, they have asserted the cause of freedom. They have taken ground in favor of Emancipation in their own State—and as a logitimate consequence, they are openly averse to the extension of Slavery in the Territorie. They adhere to and carry out their principles. The example of Missouri Democrats is

worthy the imitation of Pennsylvania Democrats. While they are fighting against the extension of Slavery, the leaders of the democracy of this State are afraid to compromise themselves. They know that from the foundation of the government, Pennsylvania Democrats have been opposed to the propawhere it exists—but stern and uncompromising opposition to its extension has marked
