THE VINTAGE IN THE WEST .- The vintage in the West this year has been remarkably successful. At the German colony in Missouri where the vine is largely cultivated, the yield is unprecedented, about one hundred thousand barrels having been grown during the season. The Germans in Western Texas are about to undertake the culture of the grape on an extensive, scale. In California, the red and white wines produced by the German Vineyard Society at Los Angeles are justifying anticipations. The Germans in that region have purchased a tract of some five hundred acres of land, all of which is planted with vines, yielding good crops. It is found that the white wine only, made from the Spanish grape, bears transportation to the Spanish grape, bears transportation to the Rost the red spoiling during the transit. the East, the red spoiling during the transit. Its quality is pleasant, with a fruity flavor. The wine trade is becoming an important branch of business. It has grown up with remarkable rapidity since Mr. Longworth made his first attempts to introduce pure natire wines.

PROSPECTUS. DAILY TELEGRAPH FOR THE SESSION.

THE Harrisburg Daily Telegraph is now in the second year of its existence. It was started last fall rather as an experiment, and has succeeded beyond the most sunguine expectations of its publishers. It has gradually won its way to public favor, until it has placed itself upon a firm and sure basis, and is now one of the permanent "Institutions" of the Capital. It has been specially conducted in all its departments with an eye single to the public good, and its gradual and steady increase of patronage, has been a gratifying evidence of the public appreciation of the labors of the publishers to make it what it is, a reliable record of the public events of the day, local

It shall be the effort of the publishers to continue it in the spirit in which it has thus far been conducted, to add to its general and local interest, and to merit its steadily increasing patronage; and should its increased patronage in subscriptions and advertising be commensurate with their hopes and expectaions, it is their intention to enlarge it about the first of January next, by the addition of four more col-umns. This will give us additional room for our adwithout trenching upon the space allotted to the reading matter. As an advertising melium the Telegraph is already one of the most desirable in the interior of the State, and is daily becoming more and more so. During the sessions of the Legislature es-

pecially is this the fact, as the full reports of Legisla-tive proceedings given in its columns, renders it a de-sirable paper in every part of the State, and insures it a wide circulation.

During the approaching session of the Legislature. it is our intention to make the "Datta Tilleguart." a correct and reliable exponent of the doings of the Edgislature of Pennisylvania. With this view, a corps of competent Reporters will be employed in | each House, and a full, complete, and accurate te-port of the proceedings will be given every day up to the adjournment of the morning sessions, embarc-ing the details of the business of the session, sketch-es of debates on all important and interesting questions and such editorial comments as the importance of the subjects, and their bearing apoli the paone no terests may suggest.

fail to be henclitted by a careful every day reading of the proceedings on such subjects.

All public documents of importance emanating Business men throughout the State, who desire correct knowledge of the doings of their representa-tives during the sessions of the Legislature, and we know there are many such, do not properly appreciate the Tilegraph. Through its columns they can obtain this knowledge, and we hope to see them avail themselves of the opportunity it affords them to obtain correct and early information. We know if they once received it they would not again do with-

news of the day, domestic and foreign, by telegraph and the mails; and will be a perfect mirror of the
