This Paper, having a larger circulation by several hundreds than any other in the County, is, of course, much the lest medium for advertising.-Those interested will please take notice of the fact.

Many have discovered, eximentally, that there is a wide difference.

Many of the Susquehanna county Demo opposed to the passage of the Nebraska-Kansis hill : and there was no paper in the State mor munhatic and outspoken in condemnation of that easure than the Montrone Democrat. Remarks are frequent, "Butter will fall"-some will, some will not-we can send butter to New York in eight hours-we have customers for butter, and they are very particular, and for a first rate article are willing to pay the highest market rates. This is the reason our butter will never be low. If you cannot make butter to suit N. Y. market, go to some of your neighbors who can, and learn; it's no the step. I tell you, Susquehanna County butter sells well in N. This county is capable of shipping \$100,000 of butter this season, and give the women $\frac{1}{2}$ of the returns and we will have many nice dairies, in 5 years. What say you farmers? Do you not think more of oue woman than any dozen men you can find? Let us try home products and a fair distribution of the proceeds, and I will risk the result.
