New Theory of Neutralization. TO THE AFFLICTED EVERYWHERE. DOCTOR J. P. LAMBERT. Auburn 4 Corners, Pa.,

REATS most diseases under the application the principles of NEUTRALIZATION. This THEORY, though new, is the most truthful, and in its application the most effective of any other ever propagated. Its adaptation to meet sudden emerpropagated. Its adaptation to meet sudden emer-gencies, its reasonableness, its rapidity of action when Therapeutically applied, and its effectiveness and certainty secures for it a confidence never secur-ed for any other. It needs but to be known, to be appreciated. It saves more patients, and relieves them more quickly, than any heretoford known theo-

ry. It reveals first causes, the effects of those causes on the living man, and points out the NEUTRALIZING REMEDY.

It, is no strange affairs, for it effectually and forever to root out Fever and Ague with one dose of medicine. There need be no failures in the cure of Fevers, Dysenteries, Inflammation of the Lungs, &c., &c., None need die with those complaints, for every case on he eneed with those complaints. There need can be cured with unerring certainty. There need no man die with Pleurisy, Illiac Passion, or Cramp in the Stomach; from three to ten minutes will posi-tively relieve and cure the last two named cases. Itexacts but few medicines, (so few, that patients often wonder how so few can give so great and sudden relief,) and those of the mildest character. It will bear the most rigid scrutiny, and defies a flaw to be picked in its pathology. It cannot possibly hurt any one, but cares nearly all that submit to its action. Ample roofs can be furnished of its effective power to cure, he having met with but one fatal case, within one year, out of several bundreds of cases brought under its treatment, and in curing many cases given up to die by those following the Old Theories. The rap-

die by those following the OLD THEORIES. The rap-id dispersion of disease, before the mild and bland treatment, founded on the theory of Neutralization, is a sufficient vindication of the principles of it, and a triumphant proof of its adaptability to most of the forms of disease around us.

Now you may ask what is this New Theory? All the answer I can give you here, is, that it neutralizes the cause engendering disease, and in this way cures

the case digendering it at once.
