TREATS most diseases under the application of the principles of Neutralization.

This Theory, though new, is the most truthful, and n its application the most effective of any other ever. propagated. Its adaptation to meet sudden emer gencies, its reasonableness, its rapidity of action when Therapeutically applied, and its effectiveness and certainty secures for it a confidence never secured for any other. It needs but to be known, to be appreciated. It saves more patients, and relieves them more quickly, than any heretofore known theory. It reveals first causes, the effects of those causes on the living man, and points out the

NEUTRALIZING REMEDY.

t is no strange affairs, for it effectually and forever to root out Fever and Ague with one dose of medi-cine. There need be no failures in the cure of Fevers, Dyscuteries, Inflammation of the Lungs, &c., &c.
None need die with those complaints, for every case
can be cured with unerring certainty. There need
no man die with Pleurisy, Illiac Passion, or Cramp in
the Stomach; from three to ten minutes will posithe Stomach: from three to ten minutes will posi-tively relieve and cure the last two named cases. It exacts but few medicines, (so few, that patients often wonder how so few can give so great and sudden re-lief,) and those of the mildest character. It will bear the most rigid scrutiny, and defies a flaw to be pick-ed in its pathology. It cannot possibly hurt any one, but cures nearly all that submit to its action. Ample proofs can be furnished of its effective power to cure, proofs can be furnished of its effective power to cure, he having met with but one futal case, within one year, out of several hundreds of cases brought under its treatment, and in curing many cases given up to die by those following the Old Theories. The rapid dispersion of disease, before the mild and bland treatment, founded on the theory of Neutralization, is a sufficient vindication of the principles of it, and a triumphant proof of its adaptability to most of the forms of disease around us. forms of disease around us.

Now you may ask what is this Now Theory? All Now you may ask what is this Now Theory? All the answer I can give you here, is, that it neutralizes the cause engendering disease, and in this way cures the case, by arresting it at once.
