5.-A child of Mrs. Brown, Waterbury, Connecticut. 6.-G. W. Robertson, New York.

Forty seven are wounded, some fatally. Among the wounded are the following: Wm. Raise, John Hally, D. W. Seely, New York, N. H. Banard, C. F. Budell, of Newark; C. B. The passengers in the forward cars were thrown into the greatest disorder by the sudden break, and, on gaining their feet, they opened the windows and doors of the cars, and heard the shouts and moans of dying and wounded beneath them. The greatest excess of confusion here prevailed; some running to and fro, calling on the conductor to stop the train, while others rang the bell attached to the engine in rapid succession.

The engine was soon stopped, and the passengers ran to the spot where the wails of the dying and wounded were truly heart. rending.

The train was immediately sent on to Port

Jervis for medical aid, and in the course of an hour, four medical men from that' place were on the ground.

In the meantime the passengers had been busily at work in taking the dead and wounded from between the broken fragments, and carried them a few yards and laid them upon the grass.

The scene was beyond description. Children crying for their fathers and mothers, and husbands seeking for their wives, which, together with the shrieks of the passengers, presented a scene which is very seldom met

At the time of the accident there were no lights burning in the care, which is something | SUGARS, COFFEE, SOAPS, very unusual on the Erie trains.

PAINT FROM COAL .- A novel, and apparently very important, application of coal has recently been introduced by G. W. Griswold, of Carbondale, Pa., in the manufacture from it of a paint. The product is called " Carbon Paint." This paint is the product of the pure carbon of the coal, all impurities being rejected, and is said to produce in many fabries, such as patent leather, varnish, &c., ? better black than even lamp black. It is also superior for enduring heat, and possesses a preservative power on metals against the weather. - Luzerne Union:

Kirby's Mower and Reaper. WE are manufacturing the above mentioned ex-cellent machine, for Eastern Pennsylvania, and the neighboring Counties of New York, and invite the particular attention of Farmers to the following entures of KIRBY'S MOWER AND REAPER which we believe to be superior to all others in use, in the following particulars: It is the lightest in use, is strong and durable, simple in construction, easily worked, adapted for horses or oxen, requires much less draught than other machines, has no side draught, hough it cuts a wide swath, will work on rough though it cuts a wide swath, will work on rough ground where no other machine can follow it, very difficult to be clogged in any kind of grass, be it wet or dry, not liable to get out of repair, is composed principally of iron, is a perfect combined machine, working equally well whether mowing or reaping, and is the cheapest in price—the Mower being only one hundred dollars, and the Combined Machine, 120 dollars, inaking it altogether the most.

Desirable Mower and Reaper in Market. Farmers wanting RELIABLE MOWERS and REAPERS should by all means see our machine before making up their minds to buy any other.
