Indeed, if there is any military combination, composed of flesh and blood, capable of stolidly withstanding the charge of an infuriated herd of Buffaoes, I have yet to find it out.

STEAM ON CANALS .- A Philadelphia correspondent of the Tribune says: Some folks hereabouts are surprised at the demonstrations going on along the New-York canals in honor of canal navigation by steam as if it were a great novelty. Why, this thing has been in successful use for years on the Delaware and Rarian Canal, where steam provides of leaves of the provides of leaves of the provides of leaves of the steam. propellers of large size, as well as small tugs, are indispensable appliances of the work .-They have superseded horses to a great extent. It is true that at some points the canal

banks have required protection by planking or stone walls, but as a general thing the wave occasioned by the ordinary large propeller produces no injurious effect on the bank. It would be impossible now to conduct the transportation on this canal if steamboats were to se excluded. This state of things is so well many of your interior citizens should consider steam on a canal as something new.

WOLVES IN PENNSTLVANIA. - For some time past a pack of wolves has infested the neighborhood a few miles north of Ebensburg, Cambria county, Pa. They have been amusing themselves by disturbing every-body's slumbers with their howls, and attacking everybody's sheep. Considerable damage has been occasioned by their fondness for mutton, and great efforts were unsuccessfully made to capture some of them. On Thursday night, Mr. John T. Williams ucceeded in catching one of the "varmints" in a steel trap, on his place, four miles north of the town. He is still alive, and represented as being and "old soger" of fine proportions. Andrew Dunmire, residing on the Pittsburgh pike, some four or five miles west of Ebensburg, had a large number of sheep killed by wolves, a few nights since.

In 1823, at the change of the form of government; he was chosen one of the first Elders of the Church, which office he held for ally undermined a constitution remarkably vigorous.

Three years since he was laid aside from the more active duties of his office in the Church, and mostly the observance of the Sabbath, and as faithful in the onstitution by the people of Kansas, training up of his family. Counding grady, in the Acorrespondent of the Philadelphia gracious covenant which secures the promise of a him, and grieved at the imperfections of his fellow christians, he was not unmindful of his own; nor did burden to the two governments would be he fail to mourn over them. But now he is, we trust, light, while to individuals it would be very with the Church triumphant, where a perfect, sinless service is that of every worshipper.

Never led to relinquish his hope in Christ, there was, nevertheless, during a portion of his last pro-tracted illness a cloud upon his spirit which checked the expression of perfect confidence. But as the h ur of his departure was drawing nigh, and the body, yet very tonacious of his severe disease, turyielding to the pressure of his severe disease, turcloud passed from his spirit, which seemed now to

DRAW MADAM.—The reputation of the Medical Discovery, in curing all kind of humors, is so well established by the unanimous voice
of all who have ever used it, that I need not say anything on the
subject, as the most skilful physicians and the most careful Drug
gists in the country or unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it withfull knowledge of its curative power, in relieving all, and curing
most of those discases to which you are unfortunately so listing.—
That most exeruciating discase to an affectingate mother, NURSING SORE MOUTH,

CANKER DYSPEPSIA, KIDNEYS, RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, at even of that your system does not get half the nourishment it coating as the aerimonous hind of the enther eats it up; then yor complexion loses its bloom and becomes sallow or greenish, and you losed day is gone. For want of nourishment your system becom loose and the fibres of your lody become relaxed. Then follow trail of diseases which the Medical Discovery is peculiarly adapted. CURE; *

In the MEDICAL DISCOVERY You have both the preventive and the cure, with this great and good quality, that it will never under any circumstance, do you any injury. No change of diet ever necessary—at the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults, one table spoonful per day—Children over ten years, dessert spoonful—Children from five to eight years, it ca spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the boweis twice a day.
