

A Compendium of News.

The successful laying of the Atlantic Cable has raised the shutes nearly to par. A slave woman belonging to Mr. Cleveland of Florence, Kentucky, recently killed her infant child, assigning as a reason that she would not raise up children to work for others all their lives.

Oxford precinct, Kansas, which last fall polled, is pretended to poll 1,300 voters. This year at the 2nd of August election polled just 16 Lecounton votes and 13 anti-Lecompton votes. This shows about the extent of the frauds practiced last year at that election precinct.

Tom Corwin, the distinguished Ohio orator, has been nominated for Congress by the Republicans. The N. Y. Tribune says from the completion of the District which gave Fremont four thousand majority over Buchanan—there can be little doubt of his election.

The Democratic County Convention of Allegheny county met at Pittsburgh, August 18th, and nominated a county ticket, by Judge Wilkins complimentary to the administration of Mr. Buchanan.

Mr. Cyrus W. Field is about forty-three years old, and looks younger, if possible. He has a light, little body, five feet eight inches high, and weighs perhaps one hundred and forty pounds. His features are sharp and prominent, nose that almost exhorts his face, eyes bright, hair gray, and a full beard of auburn hair. There is a youthful, almost boyish appearance about him, that makes him seem younger than he really is. There is little of the impressive figure and manner about him, that distinguishes his brother Dudley, of the New York firm.

John Mitchell, though a regular Democratic gun, sometimes makes an effective shot into his own camp. In a late number of his paper he says: "We shall say, in plain English, that the National Democracy is and must be a united and held together, not by principle, but by self-interest and money, by the tradition and tender reminiscence of money; and that its sole use is to cover over and conceal a rent that yawns and shall yawn eternally. This being the case, the question arises, Does it pay at eighty millions? And if yes, then whom does it pay, and who pays it?"

There is, of course, no doubt that the people of Kansas will at once proceed to prepare for admission into the Union. We notice, with great regret, that a few of the ultra Southern papers declare that she cannot admit under her own free constitution, if she rejects Lecompton. She has performed the act of renouncing her own free will and now she will demand that her own Constitution shall be accepted. She has been a long year and a half trying to get in. One after the other she has defeated her enemies, and now she stands forth for her rights as guaranteed to her by all the great parties of this country in 1854. And who will say her nay? Make way for Kansas, the thirty-third State of this Union! Her speedy admission will effectually settle the question.—Press.

The steamship Arabia, which arrived at New York, August 20th, brings us the first dispatches from Valentia Bay, announcing the arrival of the Agamemnon and giving an outline of her voyage. From the time she parted company with the Niagara she experienced very severe weather, so severe that every moment the cable was expected to snap. On the first day there was so strong a head wind that the vessel could hardly make way against it, and these conditions continued for a heavy swell until she came into shallow water and entered upon the last twenty-four hours of trial. The Niagara seems to have had, comparatively, a much easier passage. The more we know of the perils to which this great enterprise was exposed, the more wonderful seems the success which has accompanied it.

J. Beverly, who died recently at the age of 99 in Westmoreland county, Pa., was at one time a resident of the only cabin between Fort Pitt and Ligonier. In the Revolution he was active in his scouting operations extended through Western Virginia and Pennsylvania, and into Ohio. He went with a party of thirty or forty men, who had been killed at Wheeling, sent to the relief of Fort Lawrence, and Waller's station; was on a scout to Ligonier, and joined in the pursuit of the party who killed the Williams; was on the expedition against the Tuscarora in Ohio, and served as General Braddock's aide, and encouraged by the general; followed a trail, in company with Jacob Smith and another scout, he killed an Indian chief in a hand to hand conflict.

The London correspondent of the Evangelist, in giving an account of a "three days" revival meeting at the town of Barnet, says: "Among those present and who spoke, was Dr. Hamilton, the general divine of the Scotch Presbytery, Co. Wick, in the Rev. Mr. Arnold, an able and young Episcopal brother, also took an active part, and added greatly to the interest and spirituality of the meetings. You will be interested with the fact, that he is grandson of Arnold, the American traitor, and the only male heir who survives him. He has a wife married, and they inherit a large tract of land in Canada from their grandfather."

The Pennsylvania says "the People's party are a failure," and asks "Why Henry will resign. We would like our neighbor to tell us when failure was recognized."

The McKean County News, we learn by the Potter County Journal, gave up the ghost a few days ago. The cashier decamped with \$71,000 of its funds, was arrested in New York, and committed in default of bail. The bills of the bank have been thrown out in New York. Mr. Knigoberry, its President, says his Journal will secure the holders of its issue against loss, being able and willing to do so.

The American General Committee of Albany county, New York, declares its readiness to unite with any party that will go for the admission of Kansas into the Union as a free State.

The Leap Frog papers are ridiculing Queen Victoria's message, and puffing Buchanan's. In England, no doubt, they will reverse the operation. It is our opinion that neither of these royal missives will set the Atlantic on fire.

We are told of a man down in California, who has undoubtedly made the best of his success. He and his next neighbor found the animal dead, the bullet having hit him in the throat.

The Mexicans gravely assert now that the reason why the North Americans as they call the Yankee nation, want more territory, is because they need the room to accommodate their wives and daughters skirts.

Plowing Match.

BENJAMIN OTIS.
Jessup, August 25, 1858.

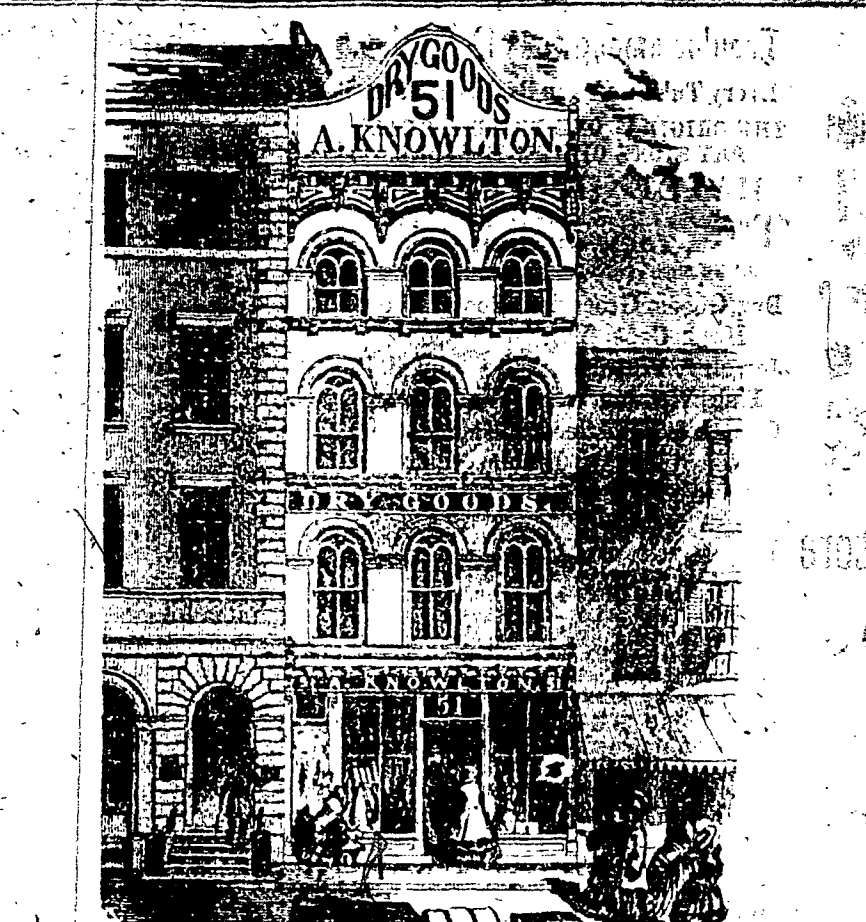

J. Higginbotham, WATCH FINISHER, AND General Repairer.
OF THE BEST SWISS, SWISS, AND CHINESE REPAIR WATCHES, PATENT AND COMMON LEVER, RAZORS, KNIVES, &c. &c. &c.
Truly proud of the flattering encomiums bestowed on him as an honest and superior.

WATCH JOBBER,
and grateful to all who have employed him, and doubtless to those who have continued to be his steady customers since his commencement in Montrose, (now nearly three years), and encouraged by the testimonials of the Country, he now informs those who do not, that early in life he was taught the art of repairing watches.

Finishing New Watches.
By Atkin, late of Lord Street, Liverpool, who was a first rate MAKER and REPAIRER of the best watches. After having worked for him upwards of five years, he returned as an independent workman, he then commenced for himself, and lately in New York, where he has been employed by some of the first and best responsible establishments in Broadway, Maiden Lane, &c., and was by them classed a first rate workman.

Scientific American PROSPECTUS.
VOLUME FOURTEEN Begins September 11, 1858.

MECHANICS, INVENTORS, Manufacturers and Farmers.
THE Scientific American has now reached its FORTY-FIFTH YEAR, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstract work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical, industrial, and domestic world, as to please and instruct every one.

H. SAYRE & BROTHERS, Montrose, August 11, 1858.

Binghamton Water Cure, BINGHAMTON, BROOME COUNTY, N. Y.
THIS Establishment has been greatly enlarged and improved during the present Spring, and is now ready for the reception of patients. For similar institutions in the country combine so many advantages, as the successful treatment of invalids. The location is beautiful, houses new and commodious. The rooms large, airy, well furnished, and every arrangement with a view to the health and comfort of our patients.
The physicians, Dr. Devereaux and Wife, have had twelve years experience in treating diseases, Hydropathic, (the last eight at Binghamton,) during which time they have treated successfully thousands of cases of chronic and acute diseases, which have been pronounced fatal by eminent physicians. In addition to the patients at the "Cure," they have a large practice in the village and surrounding country, which makes them familiar with the treatment of diseases of every grade and character. They plan, build, and erect the "Binghamton Water Cure," and are particularly qualified to attend to the treatment of all the diseases to which the peculiar adaptation of hydropathic treatment has been successfully demonstrated, they will generally guarantee a rapid and perfect restoration, such as the following: Rheumatism and Chronic Rheumatism, Nervous Diseases, Dyspepsia, Scrophulous and Spinal Complaints, Fever, Liver Complaints, Tumors, Enlargement of Joints, Throat, Burns and Scalds, Scurvy, Ague, and Chills, Female Complaints of every grade and character, St. Vitus's Dance, Catarrh, &c. &c.
Persons who have been long sick, or invalids, and who have succeeded heretofore in their efforts to regain their health are especially invited to give them a trial.

LOOK HERE!
Z. COBB offers to the public, at prices that cannot fail to suit, a large and superior assortment of **GROCERIES,** At the old and well-known establishment formerly occupied by M. Crane.
