STOVE EMPORIUM IN FULL BLAST! THE UNDERSIGNED would take this opportun ty to inform his filends and customers, that has recently made large additions to his former extensive stock of

Hardware, Stoves, Stove Pipe, Stove Trismmings, Ziène, &c., and that he is prepared to supply the wants of the community in that line at unusually low prices. We would add, in this connection, for the information of all concerned and the "rest of mankind," that we are tired and sick of the credit system; we have suffered enough by it already, and are determined to rid ourselves of the whole "critter" Believing that the nimble sixpence is the true system, we are re-solved to adopt it and are offering our goods at prices Produce taken in exchange for Goods. Great Bend, Pa., March 3, 1858.-1y GODDARD, WARFIELD'S & DR. I. L. ALLEN'S PATENT DEVICES,

D't the use of this improvement, the Carriage top can be missed or lowered from either the right or the left, the outside or the inside, thereby obviating the difficulty heretofore existing of springing one, joint and then the one on the opposite ride, as well as the extreme care necessary to prevent the top from failing so heavily as to break the bows, props, &c. This is effected by means of a small lever in connection with the hollow prop, to which an arm nob or holder is attached. The top may also be raised or lowered with PERFEOT EASE, by means of the lower lever; which is usually placed at the right hand alde of the seat, the weight of the top being nearly halanced by two spiral springs attached to the through or connecting rod, which ease it down while in the act of falling, and assist in raising it. The cost for materials, &c., on a carriage is but trining; condecting regreat utility.

The undersigned having purchased the exclusive right of the above Patent, in the counties of Susquehanna, Bradford, Luyense, and Wyoming, will sell rights in said counties, and will manufacture Carriages with the improvement stateched, at his shop, in Montroes E. H., ROGERS.
