We have recently examined some superior pitchforks, manufactured by the Montrose Fork Company. We publish to-day a call for the People's State Convention, to be held at Harrisburg, on the 8th of June, to nominate candidates for Auditor and Surveyor General. We hope to see every county, in the State fully and ably represented, in order that candidates, unexceptionable in every respect, may be selected, and such measures adopted as will thor oughly harmonize and unite the opponents of the corrupt National Administration, and lead to a triumph over the Slavery Battalions unprecedented in the political history of the old Keystone State.

The Montrose Democrat is a very small ve per. Certain citizens of Harford sent to the two paners published here a statement with regard to the Sophia family,-the article closing with these words: We believe the above to be a simple statement facts, and desire their publication in both the Mont rose papers." The Democrat received the article a soon as we did, but delayed its publication one week and then credited it to the Republican, and omittee from the sentence quoted above the words "in both the Montrose papers." The object of this little trick is evident, but it is almost too small for notice.

Where is "the indomitable Snobble?" have not heard anything of this favorite of the Susquehanna Democracy, for some time. It was be whose eloquence persuaded them that Packer was the great embodiment of Pennsylvania Democracy, and made them so enthusiastic for his pomination fo Governor. But now Packer has forsaken them; of rather, they have forsaken Packer, and are wander ing shepherdless wherever a wry-necked and obstinate old Buck chooses to lead them. Why not send for Snobble the virtuous, to collect the wanderer once more together, and direct them where to go!

Among the names attached to the call for an anti-Lecompton Democratic Convention in this State are either "mythe" or "lunstics." And are John W.
