Susquehanna County Agricaltural Society. Iy thought of at a distance from our place of The Society met at the Court House on the moord Due day evening of April, pursue ant to adjournment Perrin Wells, Vice President, in the chair. The Executive Committee made a verbal President, in the chair. The Executive Committee made a verbal report of their progress in negotiating for the which they contribute, for doing what they purchase of a piece of ground for the use of

the Society. On motion of Hon. William Jessup, the following resolution was adopted: Resolved, That the Executive Committee be instructed to continue their efforts to secure the necessary grounds for the society : and in case they should deem it expedient that they purchase the grounds of Messrs. Post north of Montrose, Provided that the cost of the said ground shall not exceed \$500, and the same be raised by subscription from and our valleys the abode of contentment, citizens of Montrose.

The report of the Special Committee on Township Societies being next called for, ers and sisters should be, because here it can Caleb Carmalt, Esq., Chairman of the Com- be usefully and effectually invoked; and it is by mittee, made the following Report : The Committee to whom were referred the land, that our higher and nobler objects

resolutions, respecting township societies, are to be attained. It is this patriotic and sorespectfully report . That the subject committed to them has been one of anxious solicitude, because it not only involves the interests of the County Soci-

ety but the welfare of our whole farming com. munity. It has always been a subject of just complaint that the other branches of human industry unite and associate for the advancement of their common interests, manufacturers combining to influence legislation."

merchants doing the same in their-chambers of commerce, mechanics associating in cities and villages, and like railroad companies holding conventions to fix a tariff of prices, while all are concentrating their efforts to promote unanimity, to increase their respectability, to diffuse intelligence, and strengthen each other's energies-farmers, on the contrary, dividing, if bot scattering their: forces; acting without combined efforts; having no

agencies to regulate prices; no combination to control any important avenues of trade. or to obtain the necessary supplies, they often thwart, oppose, and defeat each others purposes, while they occasion, in many instances, ruinous sacrifices in case their necessitics require them, and in doing so cripple their own resources and those of the country.

Your committee therefore report back the resolutions, and, with slight alterations not materially affecting the principles involved, recommend their adoption. There are, however, circumstances connect-

implements, the same to be in addition to ed with the failure of these propositions that such premiums as may be awarded to indican hardly escape the attention of men who and haraly escape the antennon of an even the County Society. The personal sacrifices the unity and integrity Resolved, That Committees or Judges viduals under the present arrangements of appointed to decide between rival township

of the County Society. If it should be divided and shattered into fragments and trifling combinations, incapable from their weakness of exciting emulation, of stirring up improve- and it shall be their duty to hear the delement, or encouraging indivdual or even com-bined effort, it is sowing the seeds of its own dissolution. If a few wealthy individuals in the more improved parts of the County

society who may have paid up his dues, shall should associate to depress of even compete be entitled to all the rights and privileges of with poorer or very remote districts, wheth-er by a lavish expenditure or an ill directed the members of this society-provided a like benefit is extended by the township society public spirit, they defeat, discourage and detoour members. Resolved, That whenever any township so

press those who, without equal means, are oftentimes equally deserving. They therefore respectfully suggest that the Executive Committee, or the Judges, be authorized to discriminate, at the annual exhibitions, in the may be so provided-the Executive Comdistribution of premiums, in favor of those mittee exercising a reasonable discretion as who drive live stock, or bring articles for exto the propriety of each movement and sub-

hibition from remote and less wealthy townships; and in this connexion they are willing to submit for consideration whether the money distributed in premiums would not be as judiciously invested if applied to pay for the time and expense of those who can ill afford to incur the loss. Your Committee are not now prepared to propose any such measure,

and cannot avoid seeing that it is filled with THE VALUE OF LEACHED ASHES - A WOST aifficulties; but if township societies were difficulties; but if township societies were ern agricultural paper says "thoroughly aided in proportion to their numbers, their leached ashes contain no potosh." I have nodistance, or their other disadvantages, section- ticed that ashes can not be thoroughly leached

al jealousies might be avoided, an increased of their potash, even by the application of public spirit might be cherished, and to town- bot water, as enough of alkaline salts has reships of enlarged means, and higher improve mained to affect the skin of my fingers. The ments might contribute to encourage less fa- presence of acids, or the action of the roots vored districts by extending advantages that of growing plants, can alone extract all the are only useful to themselves as they become potash from wood ashes. But as leached general: among these, the possession of a ashes contain, beside potash, all the mineral common property in which the township so elements of plants, they cannot fail to be an cieties have an interest, and upon which they would unite in improvements, would doubt less greatly contribute to bind all together er saw in Rhode Island was brought up from in the pursuit of the best interests of the an exhausted barren sand that supported no

meeting; and indeed it is unreasonable to ex-pect men to compete for such premiums who live very remote from the place of exhibition ind beyond their ability, sectional feeling, unkinderstand local jealoutes are often the result. The doubtless, has been the origin of local societies; and to obviate and remove these difficulties such societies ought, in the opinion of your Committee, to be encouraged. They cherish the love of home, induce the poor to make them places of comfort and re-D finement, oppose a strong barrier to emigra tion, that bane to all social as well as physical improvement, while they make our bill whose ways are ways of pleasantness, and all its paths peace. It is here the aid of moth-

There can be ly in their own light if they do not exert no doubt that hav cut before the seed has themselves to counteract such calumnies.- filled is twice as nutritious, if well cured, as Every man of common understanding must that which needs no curing after the seed is see that such an influence, if often or vigorripe.

ously exercised, must discourage respectable farmers and intelligent families from settling LONG AND SHORT DAYS .---- At Berlin and among us-must depreciate the value of our London the longest day has sixteen hours and cartily inheritance, as well as the spirit of a half; at Stockholm, the longest day has eight those who find their efforts thus degraded, teen hours, and the shortest seven; at St. ridiculed and alused while they have no adequate means of resistance. Your com. and the shortest five hours; at Tornea, in mittee are entirely willing to contrast the Finland, the longest day has twenty one farming althis county; its crops, its cattle, hours and a half and the shortest two hours its natural and artificial productions, as well and multiplicity At Wanderus, in Norway, the and a half : At Wanderus, in Norway, the its natural and artificial productions, as well and a main in the standards, in its standards, its standa be giad to place them by the side of the fa- and a half vored counties adjoining him, and freely

abide the comparison and its results: but it shows not only the strange amount of ignorance prevailing upon such subjects among educated, intelligent men : the amount of jealousy and riving existing egainst us; it also shows the wast magnitude of the interests involved in the continuance and prospersitions, as in cherry frees, &c., &c. The skins of carnivorous animals, as cats, could also be stuffed and suspended in like manity of our County Society! Your Committee know of no more judicious means for the employment of opulence than to promote ner. the fore of country and of home ; and unless those who possess the means encourage those who have but little, in their efforts for imitagood road through arable land; and that s to ridge it well up in the middle, and altion and improvement, the latter, misled by ow no water to remain on either side. In this species of misrepresentation and abuse, general this may be effected with the plow sink into a listless indifference, and are ex-

ceedingly apt to drag out an existence useless Some are of the opinion that after the work cceangy apt to grag out at existence decrees. Some are of the opinion that after she work if not injurious to the community. We are has progressed so far, it should remain one not speaking now of individual efforts, but of Winter to slibw it to settle and become more combinations to prevent selfishness, to beget compact. a faste for rural enjoyments, to promote public apleit and private virtue. We believe

no individuel has ever been born with such four different persons have been known, since elevated feelings upon these subjects as not the nineteenth century came in, to teturn to need improvement, and it is equally "rate borrowed umbrellas. Out of this small numto find one so low as not to profit by encour. ber, three were afterwards found to be hope are ment and instruction, and yet to refine lessly deranged, and the other was proved to and improve a task for horiticality and to be so abstrated, that he picked his icoth ral improvement in our exhibiting a correct with a boot jack !
