

Stories are fit, indicating the heartiness of Lord Palmerston's sympathy with the Reichstag. Among others this Sir Richard Bethel was talking with his Lordship at Cambridge House, last Saturday night, of the telegram announcing the Austrian declaration of war, and said Sir Richard, with a very heavy nose, "our side is right, and I was not aware we had any troops engaged."

THOMAS D. WOODS,

Mr. Harry Brodhead, who belongs to the graduating class of this year, has shown himself during the two years of his connection with the College a capable and successful teacher, and should be highly recommended to the society of instruction. Mr. H. Brodhead of the class of 1859 in Yale College is a good scholar and has a superior mind. I have little doubt that he will make an effective and successful teacher, and will not disappoint his patrons.

Farmers, Attention!
KIRBY'S AMERICAN HARVESTER,
IS A PERFECT MOWER,
IS A PERFECT REAPER,
And is warranted as a Perfect Combined Machine.
It is very strong and durable, being nearly all iron, and is the lightest DRAFT MA-CHINE in the world, and runs steadily; there is no pressure upon the farmer's necks; and it has a SELF-ADJUSTING FINGER-BAR. The finger-bar works up and down, independently of the cutting wheel, enabling it to go through dead furrows and ditches, among stones and logs, and over stones and hills where no other machine can follow it.
It is EASILY-MANAGED AND OPERATED.
By means of a lever the driver can at pleasure throw the cutter in and out of gear; by another lever he can raise either end, or both ends of the finger bar to pass over obstructions; or move from field to field. It is difficult to clog the machine. It is a cheap machine, and is in high construction, made of good material, well constructed and finished.
