New Banking Office.—It is announced that a rivate Banking Office will be opened at Great Bend in the 1st of August, by 8. B. Chase & Co.

A Strikte.—The mines throughout the Lackawanha and Wy ming coal fields are on a strike. A reduction of wages on the part of the Companies is
the cause. The miners say they will not resume
work at less than the old rates and the companies
are equally determined on a reduction. The strike
extends from Carbondale to Nanticoke, and promhee to prove a long one and to cause mutual harm.

Robbett.—Mr. Miles Cragin, residing at Susque-tenna Depot, on Tuesday night, 10th inst., satdown on a stoop in Canal street, New-York, and while there fell asleep. When he awoke four deeds for certain houses and tracts of land in Susquehanna cannty, Pennsylvania, and Broome County, New-york, made out in his name, and valued at fitteen thousand dollars, which were in his possession at the time he sat down on the stoop, were missing, they having been abstracted from his pocket.

Potter was called upon to discharge the duties of the Bishop of Pennsylvania, and he was consecrated on the 23d of September, 1845. For nearly twenty years he was a citizen of Philadelphia, where his learning, plety, and unaffected simplicity of manners rendered him universally beloved.

Bishop Potter has written several books of established reputation. Among these may be mentioned, "The Principles of Science Applied to the Domestic and Mechanic Aris," published in 1841; "Political Economy; its Objects, Uses, and Principles Considered." 1841; "The School and Schoolmaster," written jointly with George B. Emerson, 1841; "Hand-Book for Readers and Students," 1853.

Sall Spring.—The spring of which we speak is situated in Franklin township, near Silver creek, the outlet of Silver Lake, about live miles from the lake and one from where Silver creek joins Sanke, at what is known as the "Forks of Sanke Creek."

Early settlers tell of the spring as being a "deer lick" of such strength of salt that capitalists of Philadelphia had a well bored in anticipation of Fhiladelphia had a well bored in anticipation of striking a vein of water salt enough to pay for boiling salt. The first boring was done under direction of Judge Delhart, and about three hundred feet was accomplished when the enterprise was given up for several years, and the lands passed into the hands of Colonel Biddle who had the work renewed, and about two hundred feet more was drilled which made the total depth of the well, according to the best data which can now be had, about five hundred feet. The enterprise was given up about the year 1825, and the lands on which the spring is located was taken up by settlers and improved and cultivated. The tools used by both Judge Defiart and Col. Biddle for boring, were such, that several years were spent by both parties in getting down the distance which they bored. They used a spring pole worked by hand. The water from the drill hole was always more sulphury than salty, and often bubbles would rise to the surface which, if touched with fire, would flash like powder.

rise to the surface which, if touched with fire, would fash like powder.

In January last, the well and sixteen acres surrounding, were bought by a company from New-York City, for the purpose of boring for petroleum. This Company, unlike Messrs. DeHart and Biddle, work with more power than a "spring pole."—
Their motive power is a flitteen horse power engine, and their drills are of the most improved patterns. The old drill hole, which was three and a quarter inches in diameter, they are reaming to four and a half inches, and at this time (July 19th) are about a hundred and seventy three feet from the top of the ground.

the ground. the ground.

In reaming they average about ten feet in twentyfour hours, though thirty-six feet was done in thirtysix hours. The rock is variable, some strata being
hard as flint, and some like plaster stone. The
weight of the drill and stem as used, is about seven
hundred pounds.

Time is Money.—Improvement in Drilling Oil or Moural Wells.—Mr. Amos Craudall, of Great Bend, Pa., has just obtained a patent for a combination of drill and reamer, with sand pump attached, on an entirely new plan from any now in use, which fluishes the well as fast as worked, without changing, only when the tools need sharpening or putting in order. This invention has been examined by practical workmen in the oil region, and skilled mechanics, all of whom speak highly of it and its construction in doing the work, and consider time and money can be greatly saved by its use. Those interested in the Oil business, or well operators, can see it by calling on Mr. Crandall, or will receive any information by addressing him at Great Bend, Susqu'a County, Penn'a.

True that our beauteous dove Hath left her still retreat, But purer now in heavenly snow, She lies at Jesus' feet.

O star! untimely set!
Why should we weep for thee?
Thy bright and dewy coronet
is rising o'er the sea.

McDONNELL-In Silver Lake, June 27th, 1805 Jennis, son of Maurice and Eliza McDonnell, age

Deunia, son of Maurice and Eliza McDonneil, aged twenty years and ten months.
During his sickness, which was long and painful, he frequently expressed his attachment to his Saviour, and long to be released from his sufferings here, to join the company of the redeemed, in Hesven.—He was a faithful son and a kind brother—kind, Oh ever kind, to all whom he knew.

No language could his sufferings tell,
No words express his peace of mind;
His faith assured him all was well,
Although the pain severe, yet God is kind.

RYAN—In Silver Lake, June 19th, of fever, Jerry Ryan, son of Jeremiah and Mary A. Ryan, aged fitten years, eight months, and five days.

Jerry, dear, has gone to sleep,
(That sleep which knows no waking,)
In the lonely night of the grave,
Where the tunnit of life is ended,
And the weeping willows wave.

Where the tumult of life is ended, And the weeping willows wave.

GUERNSEY—In East Bridgewater, July 2nd, 1805, Emma N., youngest daughter of Hiram C. and Maria R. Grernsey, in the fifteenth year of her age.

Our Emma is gone! and we have nothing left but her cold clay and the memory of the happy hours spent with her, when the faintest dream of her leaving us never shadowed our, hearts. Tenderly we watched by the bed-side of that suffering, though uncomplaining, dear one; ministering to her comfort in every possible way, fondly hoping that she might be sourced to us, until disease had done its less tand greatest work, and we saw the "light of life" go out. Death came and took her home.—More and more do we miss the ready heart and willing hand, the bright face and cheerful words of Emme, our hearts' darling pet.! Hers was a nature so kind, gentle, loving, generous, and forgiving, that "none knew her but to love." But with all her loveliness, she has gone to her heavenly home, there to join her Angel Sister, Martha, whom she loved so much one earth. Though the affiliction seems severe, yet God has done it in goodness; though we mourn, yet we are comforted, for we know that " our loss is her gain." The desire which she often breathed, "I want to be an Angel &c.," has been realized.—Though her departure has brought so much of lone liness and sadness to our houschold yet we would not wish her back, to tread again the thorny pathway of life with us. "Let her sleep in peace." M.
