Manager. The Mason & Hamlin Cabinet Organs.-No one who hears these instruments will be sarprised at the very strong favor with which they are regard-ed by our leading organists. Their quality of tone is admirable, round, sonorous, pure, and sympathet-ic: while they have abundant volume of tone for any private house, and quite sufficient to smaller churches and for such halls as are usually occupied by Sunday-Schools. With all this, their capacity for expression is wonderful, exceeding in some re-spects even that of the largest and most costly church organs. This is mainly effected by the in-troduction of a need, operated upon an entirely new principle, which gives the performer very efficient control over the tones he produces. The moderate index which gives are sold, and the little space these instruments.-New York Commercial Advertar. O. D. BEMAN, Agent, Montroge. O. D. BEMAN, Agent, Montrose,
