The Independent Republican.

LOCAL MATTERS.

Internal Revenue.—We call the attention of our readers to the advertisement of Collector Warner in another column. It will be found of special importance to tax payers.

Delegate Election.—The Republican Delegate Election for Bridgewater township will be held at the Court House in Montrose, on Saturday the 26th inst. at 1 o'clock P. M.

Surgical.—Dr. C. P. Bigelow, late Surgeon in the U. S. Hospital at Alexandria, Va., has opened an office at Great Bend. See his card in another column.

Agricultural Fair.—The Annual Fair of the Susquehanna County Agricultural Society will be held on Wednesday and Thursday, the 5th and 6th days of October, 1865.

Not Taxable.—It has been officially decided that bonds and script issued by cities, wards, counties, townships, &c., for bounty purposes, are not liable to the three mill tax which County Treasurers are required to collect on other such certificates of indebtedness.

Keep your Papers.—Discharged soldiers cannot be too frequently impressed upon them to keep their discharge papers. The brokers and speculators who buy them for a song expect to sell them to the heirs, at an immense profit, when Congress shall have appropriated lands to the use and benefit of officers honorably discharged the service.

Lucrne.—The Standing Committee of the Republican Party met at the Court House on Monday and resolved to hold the County Convention on Tuesday, September 5th.

W. W. Ketchum was appointed Senatorial Delegate to the State Convention.

Small Change.—Ex Governor Pollock, Director of the United States Mint, at Philadelphia, informs the public that small coins are now plenty, and can be had in any quantities, without delay, in exchange for greenbacks. The denominations are five, ten and three cents. The coins will be sent to purchasers, by express, at the expense of the United States. This will be the means of withdrawing from circulation the three cent fractional currency and eventually also the five cent scrip.

A New Powder.—Mr. John Widdall is now manufacturing at Mill Creek, two miles from Pittsburgh, a superb fine gun powder, for sporting purposes. The advantages claimed for this powder are that while it is fully stronger and quicker than common powder, it never fouls the gun, a great desideratum to the sportsman. We commend Mr. Widdall to the favorable consideration of all who have occasion to use powder for sporting purposes.—*Pittsburgh Gazette.*

American Agriculturist.—The August number of this illustrated agricultural monthly has, as usual, an extremely interesting amount of useful information for the farmer and others. It is the best work of the kind published in the country, and should be at once introduced into every household. Published by O. Judd, 41 Park Row, New-York.—Terms $1.50 per annum.

Teeth-Extracting.—Dr. Weeks's lecture and exhibition at the Key-stone Hall, on Tuesday evening last, was attended by a considerable number of ladies. The performance was quite successful, a number of persons having their teeth extracted without pain, generally without even knowing when the operation was performed. The Doctor has been equally successful in administering the chloroform gas and extracting teeth without pain, in Hartford. He remains in town but a short time longer and those who desire to secure his services should call soon.

Too True.—We clip the following from one of our exchanges, and as it is peculiarly applicable to ourselves, we hope those concerned will profit by the example therein stated:

It is disgraceful to see copperheads hovering and prowling around Union soldiers. Soldiers, they swear by their votes, and have at heart the same actions of it as that they had when they called you "nigger lovers," "Hessians," cut throats, and other opprobrious names. Spurn them as you would the copperheads which they are."

A New Idea.—The writer of the following letter (or rather the better half of him,) has done somewhat original. People celebrate their golden wedding after they have been married fifty years, and silver weddings after twenty-five years, but here is a case of celebrating the wedding, after five years. We shall soon see it grow into a custom. Read the letter:

RUSHVILLE, August 17, 1865.

FRIEND FRAZIER: The lady I board with, who is a sister of Mrs. Atwater, waked up this morning and said that some five years ago she was married, and that you, by request of some one, inserted a notice in your paper, and she did not believe you remember the wedding cake. My impression is that if one makes the debt is about outlawed; but if one has concluded not to take the benefit of the statute of limitations, and sends you a basket of refreshments, and, I believe, a fowl, which I do not think is the one we read of:

"She used to lay two eggs a day,
And besides she laid three."

And if this package, though small, may be accompanied by one our own raising, we remain

Yours truly,
CHAS. ATWATER,
For Mrs V. L. ATWATER.

We have only to add that the Atwater dinner would be followed the receipt of the above "message and accompanying documents," was excellent.

The Agricultural Bureau.—The Agricultural Bureau has just completed its tables, showing the condition of the crops on the 1st day of August, as reported by correspondents at that time. The returns have not been received, but, from the correspondents heard from, it is believed that the wheat crop will be secured any additional injury, excepting, perhaps, in Wisconsin and Minnesota, where the rust has extended since the 1st day of August. The Department has also issued another circular, containing returns received on the 1st of September, relative to the wheat and other crops, and to the amount of old wheat in the hands of farmers. When this circular shall be received and examined, it will be more definite and complete in its details, and it is believed that the deficit will not be so much as reported. The tables formed on the returns of August 1st show the following deficiency in the crops of 1865 from those of 1864:

	Bushels.
The crop of 1864	160,695,823
Estimated crop for 1865	134,454,125
Deficiency	26,251,698

The deficiency is as follows:

In New England and Middle States,	657,884
Maryland and Delaware,	1,719,575
Western and Northwestern States,	23,864,740
Total	26,241,698

All other crops, particularly corn and potatoes, are most promising, excepting tobacco, of which considerably less has been planted. The oat crop is very large, and the hay crop much injured by wet weather, but is still abundant.

The above is published by authority of Isaac Newton, Commissioner of the Department of Agriculture.

The Sacred Lute and the Choir are the books to be used. We hope to make this a pleasant and profitable entertainment for all. Lovers of good music, turn out. Further information rendered by the committee.

The Mason & Hamlin Cabinet Organs.—The *New York Tribune*, in speaking of Mason & Hamlin's Cabinet Organs, says: "These instruments have been blown by the wind of genuine success from Boston to San Francisco. That Messrs. Mason & Hamlin have succeeded in making a superior small instrument—from little hand box like things, to those which, though portable, and not larger than a piano, can make themselves felt in a Church, is the universal opinion of the musical profession. They agree that no such mechanical works of the kind can be found in equal perfection in Europe. The tone is pure and full, and with an immense body for so small a provocative mechanical force. They stand rough traveling, bad usage, and extreme changes in climates which will kill American miscreations."

This fine piece of music can be seen at O. D. BEMAN'S, Montrose.

Our Fallen Heroes.

FRANCIS—Died, in a military hospital, Mobile, Ala., Rev Henry Francis, of 83d O. V. I. He was a brother of Rev E. A. Francis of New Milford, Susquehanna County, Pa., and formerly of Canterbury, Windham County, Conn., both ministers of the Baptist denomination.

Our departed brother preached acceptably for the Freeman St. Church for about two years, when he enlisted in August, 1862, hoping to obtain the Chaplaincy in that regiment, but in this he was disappointed. A council was called while he was in New-Orleans, when he was ordained some eighteen months since. He was at the capture of Vicksburg, Red River, and at Mobile when it fell. He had frequently been sick during these three years, and was fondly looking for his return home to his family.—His last letter was written June 5th. The next news brought to his afflicted wife announced his death, which took place June 15th. His eldest son was in another regiment and was frozen to death while on picket duty. May God comfort his distressed widow and fatherless children.—*Cincinnati Journal.*

VALUABLE REAL ESTATE
FOR SALE.

A valuable lumber and wood lot in Lathrop township, Susquehanna county, Pa., containing about 800 acres, with a good dwelling house and barn thereon, and about 100 acres in grass. On this property is a good sawmill and lath-mill, capable of cutting 800,000 feet of lumber per year. The sawmill is within two miles of Nicholson station, on the L. L. & W. Railroad. A good road runs through the whole property. There is wood and timber enough on it to pay for it twice over. A rare chance—will be sold low, with easy terms.

ALSO, the farm known as the "Squire Roberts Farm," in Silvara, Wyoming county, Pa., containing about 200 acres, 15 miles from Nicholson station, lying on the Tunkhannock Creek; about 80 acres of flat land; the balance up land—a very desirable property.

ALSO, a valuable Mill property, one mile from Montrose, at the outlet of Jowes's Lake, consisting of a gristmill and sawmill, and about 20 acres of land, with the water power. The gristmill is now doing a good custom business, and is well adapted for merchant work.

ALSO, a valuable farm one mile from Montrose, containing about 200 acres. Fifty acres of choice wood land; the balance in pasture. This farm is well fenced with good stone wall, well watered, and in a high state of cultivation; is capable of keeping from forty to fifty cows—a very desirable property.

ALSO, a house and lot in the Borough of Montrose, fronting on the Public Square. The lot contains about 2½ acres of land, with a good choice fruit and shade trees.

The attention of those wishing to purchase real estate is called to these properties, as they are all good and desirable investments at the prices named for them. Liberal terms will be given. For term & prices, and other information, call on, or address DANIEL SEARLE Pittston, Luzerne Co., Pa.—or H. S. SEARLE,
