1865.

INCREASE OF RATS.—The Farmer's Gazette (English) asserts and proves by figures that one pair of rats will have a progeny, at the end of three consecutive years, of 350 millions! Now, unless this immense family can be kept down, they would consume more food than would sustain 65,000 human beings.

☞ See "COSTAR'S" advertisement to this paper.

1865.

RATS versus BIRDS.—Whoever engages in shooting small birds is a cruel, mad, destroyer and in exterminating RATS is a benefactor. We should like some of our correspondents to give us the benefit of their experience in ditting out these pests. We used to use shot, cats, and traps for this business.—[Scientific American, N. Y.]

☞ See "COSTAR'S" advertisement in this paper.

1865.

"COSTAR'S RAT EXTERMINATOR" is simple, safe, and sure,—the most perfect RAT DESTRUCTION we have ever used. Every Rat that eats it properly prepared according to directions, will eat it, and every one that eats it will die, generally at some place as distant as possible from where the medicine was taken.—[Lake Shore, Mich., Mirror.]

☞ See "COSTAR'S" advertisement in this paper.

1865.

HOUSEKEEPERS troubled with vermin need be so no longer, if they use "COSTAR'S" Exterminator. We have used it to our satisfaction; and if a box cost $5, we would have it. We have tried pots &c, but they offered nothing; but "COSTAR'S" article knocks the breath out of Rats, Mice, Roaches, Ants, and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—Medina, Ohio, Gazette.

☞ See "COSTAR'S" advertisement in this paper.

1865.

A VOICE FROM THE FAR WEST.—Speaking of "COSTAR'S" Rat, Roach, Ant, &c. Exterminator—"more grain and provisions are destroyed annually in Grant County by vermin than would pay for a ton of this Rat and Insect Killer."—(Lancaster, Wisconsin, Herald.)

☞ See "COSTAR'S" advertisement in this paper.

1865.

FARMERS AND HOUSEKEEPERS—should recollect that hundreds of dollars' worth of Grain, Provisions, &c., are annually destroyed by Rats, Mice, Ants, and other insects and vermin—all of which can be prevented by a few dollars' worth of "COSTAR'S" Rat, Roach, Ant, &c. Exterminator, bought and used freely.

☞ See "COSTAR'S" advertisement in this paper.

Agricultural Implements.

THE undersigned desires to call the attention of the public to the article of THRESHING MACHINES manufactured by the long established and well known firm of

Wheeler, Melick & Co., at Albany.

These Machines are so favorably known and universally approved that any effort at recommendation I consider unnecessary. Suffice it to say that experience in manufacturing, and long use, have brought out improvements which make them the

CHAMPIONS OF THE WORLD.

I would call especial attention to their

Barger's Patent Cleaning Attachment

a new thing, and attached to single, double, treble, or any other horse power, and to either undershot or overshot threshers. They can be used as an ordinary hand mill, and is superior, as such, to an fanning mill made. It takes no more power to drive the whole tachment, than it does to drive an ordinary separator or shaker—Different sizes of cleaning attachments, same patent, are made.

Horse Powers, single and double, Wheeler's patent with recent improvements. Lawrence & Gould's patent, one, two, and three horse powers. Saw mills for sawing wood, feed cutters, clover hullers, horse rakes, &c. An unrestricted warranty given to the public the strongest guaranty that the above machinery is unequaled in its work, durability, convenience and cheapness.

For further particulars, send to the subscriber for circular, or examine machine. Orders solicited and filled with promptness and fidelity. Also Agent for

THE VERDICT OF THE PEOPLE

IS DECIDEDLY IN ITS FAVOR.

The fact of there being more of these Machines sold THAN OF ANY OTHER

ATTESTS ITS SUPERIORITY.

For further particulars call upon the Agent, where the different styles of machines are on exhibition.

Parties that have used other so called Standard Machines have thrown them aside and give their testimony in favor of these.

EVERY MACHINE WARRANTED TO GIVE ENTIRE SATISFACTION.

For several reasons it recommends itself above all others

1. Beauty and excellence of stitch, alike upon both sides, working equally well on silk, linen, woolen, and cotton goods—seaming, quilting, gathering, hemming, felling, cording, and braiding.

2. Strength of seams that will not rip nor ravel.

3. The most simple in construction of any two threaded machine in use; therefore less liable to get out of repair.

4. Sews without the use of a shuttle, thereby doing away with much cumbersome machinery, and the trouble of regulating the tension of the under thread.

5. Runs at a greater speed than a shuttle machine possibly can.

These machines with all the new improvements, warranted and delivered in Montrose, at Manufacturers' prices
