For a clean clover and timely ley, devoid of foul grasses, it is our opinion that one plowing on or before the first of September...

Wants in Building. A writer in the American Mechanic mentions the following sensible facts for those who propose to construct dwellings...

On a fact is that a square form secures more room with a given cost for outside walls than any other rectangular figure...

Another fact is that a dwelling with a central chimney should exclude this. The chimneys, windows, and doors, should be so situated with regard to each other, that a full draught of air can be secured at any time...

The third fact is that a steep roof will not only shed rain and snow far better than a flat one, but will last immensely longer...

The sixth fact is that a door opening from the interior principal room, without the interruption of a hall or passage, costs much more than it saves in the frost ingress of air into it.

The seventh fact is that if the front door is made at one side instead of the middle of the front, a partition will be saved, and for small houses this should not be forgotten...

To Drive Away Haze - Mr. Charles Dixon, of Milton, pounded up potato and stirred it around their holes and rubbed some on the sides of the boards and under parts where they came through.

BRITISH DISCOVERY EXPEDITION - Some four years ago an expedition was fitted out under the auspices of the British Government for the purpose of discovering a North West passage across this continent to the Pacific Ocean.
