

By Telegraph.
New York, June 21, 9 A. M.
Philadelphia, June 20.—Three cases of cholera and 2 deaths are reported within the last 24 hours.

The loss by the fire at Dyott Glass Works is \$60,000, no insurance.

The weather to-day has been oppressively warm, the thermometer reaching 97 in the shade.

A man named Bowen Young was drowned while bathing at the Island this afternoon.

St. Louis, June 20.
The cemetery report 99 interments to-day, of which 81 were from cholera. The disease is fearfully increasing, and the weather very hot.

The water in the river is still rising—Business is prostrated, and there is much sickness along the Missouri river. The town of St. Joseph suffers greatly from cholera.

Cincinnati, June 20.
There were 35 cholera interments for the 24 hours ending at noon to-day. No cemetery had not reported. Business is dull, and the weather very hot.

MONTREAL, June 18.
The Association of new numbers 30 branches. The object of the organization is stated to be to influence the general election. The government still continues to receive addresses from country parishes—The effect of the Montreal out-break has been to strengthen the rebel party party. The Governor still remains at Montreal. Our city continues perfectly tranquil. If her Majesty shows intelligence that her Majesty approves of paying the rebels, there is no telling what will be the result. The rebels are not taking place to-day. The troops at garrison have been practicing and firing for the last 2 days.

New York, June 21, 9 P. M.
There have been 100 cases of cholera and 14 deaths since yesterday's report.

MARKETS.—Wheat—rather inactive, and prices firm. Sales of 13 barrels Pot at \$5, 25, 50, and 75 cents.

Correct in steady demand and a good business anticipated.

Flour—There is not much doing. The market is inactive. Sales were made of about 3000 barrels at \$1.14 1/2 for fine, \$1.14 1/2 for medium, \$1.14 1/2 for extra, and \$1.14 1/2 for superfine.

Wheat—A quiet at 1.00 for Ohio, and 1.30 for Canada. Sales were made of 1000 barrels of 1.30 for Ohio, and 1.30 for Canada.

Produce.—Pork is not so active as it was—Smoked hams were selling at \$11.75 a 100 for medium, and \$11.50 a 100 for small.

The Department has not yet returned in mourning out of respect to the memory of Jas K. Polk.

The Hon. Richard M. Young has resigned his post as Commissioner of the General Land Office, to take effect on the 30th inst. It is thought by many that Mr. Young will get the appointment.

Captain Boyle, of the navy, and a large number of officers are preparing to start for California.

Increase of Cholera.
PHILADELPHIA, June 20.
The Board of Health report 20 new cases of Cholera and 8 deaths since last report. The weather is scarcely so warm—the highest point reached being 91.

Sudden Deaths.
BOSTON, June 20th.—P. M.
There have been nine deaths in our city within the past three days from drinking cold water, and the excessive heat. No cases of cholera reported to-day.

Latest from Haiti.
BOSTON, June 20th, 5 P. M.
Advices from Haiti, per schooner Tallus, state that President Souleuvre has disbanded his army, and ordered them to return to their homes. It is thought that Souleuvre will be regarded as soon as the government had fulfilled certain conditions.

The big Id., ALPHING, June 20.
Kingston, Id., is now a master, from California via Oregon, where he is in gold dust and lumps, some of \$20,000 weighing over seven pounds.

BOSTON, June 20th, 1849.
We have St. Johns papers of yesterday, which inform us that the large fire in the woods were still raging with unabated violence.

A letter from St. Andrews, June 19th, says, "that the whole village of New River, including Mearns, Fry & Fernhams, by the raging element, together with large quantities of lumber. More than 100 persons were obliged to fly to the beach for safety.

The fire is slow burning out on both sides, and other saw mills have fallen prey to the flames. It is reported that 3 large ships are building in the great danger of being destroyed. The destruction of them houses, grain, &c. is very great."

From Canada.
MONTREAL, June 20, 1849.
There is no cholera here.

Two Americans, who have arrived from Toledo, Ohio, on Lake Erie.

The best continues increasing, and men exposed to the overpowering rays of the sun are often diseased.

A new advertisement is spoken of, but there is no need of any, as all the editorial papers go for association already.

St. Louis, June 23.—P. M.
Late accounts have been received of a removal of disturbances between the California and the Indians, in which a number of each party was killed.

The cholera was still making and having among the emigrants. Numerous parties were daily returning.

St. Louis, June 22, 1849.
The interments yesterday, in 11 cemeteries, were 130, of which 106 were caused by cholera. To-day, there were 96 burials in ten cemeteries, of which 85 were from cholera.

CINCINNATI, June 22.—P. M.
The cholera is rapidly on the increase in our city, and 34 interments of deaths by that disease have been made to-day. From other diseases, the interments were six.

One cemetery made no report. Although the deaths from cholera have lately been confined to the lower classes, it has now assumed a more general form, and several of our most respectable citizens have fallen victims.

CINCINNATI, June 23, 1849.
Of the interments in the various places of burial up to noon to-day, there were 60 from cholera, and 18 from other diseases.

The weather is exceedingly hot with prospects of rain.

NEW ORLEANS, June 16, 1849.
The prospects bid fair for the effectual checking of the increase in a couple of days. The water has already receded considerably in the interior districts.

We learn from Memphis that the Mississippi is again rising tremendously, and threatens to be higher than it has been this season. What then is to be the fate of inundated New Orleans?

Another Californian Returned.
St. Louis, June 22, 1849.
William Luther has just arrived from California, via the Isthmus of Panama.

Two years ago, Mr. Luther left the State. He was a poor man, and now returns to the bosom of his family, after having accumulated a fortune. He fully certifies all the previous accounts of the richness of the gold mines, of which he possesses quite a sufficient quantity of the most convincing proof in the way of gold dust.

He likewise states, that California is a rich and happy land, and that the gold mines are being worked, and that the State is becoming a great and powerful nation.

He also states, that the gold mines are being worked, and that the State is becoming a great and powerful nation.

He also states, that the gold mines are being worked, and that the State is becoming a great and powerful nation.

He also states, that the gold mines are being worked, and that the State is becoming a great and powerful nation.

He also states, that the gold mines are being worked, and that the State is becoming a great and powerful nation.

He also states, that the gold mines are being worked, and that the State is becoming a great and powerful nation.

He also states, that the gold mines are being worked, and that the State is becoming a great and powerful nation.

A Heartless Villain.—A man named J. G. Mills, a dentist at Harrisburg formerly of Danville in this county, is stated in a letter to the N. Y. Herald, to have ruined three sisters in one family, and has barely escaped the Lynch law in consequence. He first, it is said, ruined one poor girl and compromised the matter. During this period he was paying attentions to the eldest of the sisters alluded to. The father hearing of the affair, forbade him the house, having learned also that Mills, by his cruelty and neglect, had brought his first wife to a premature grave.

Finding himself foiled in his open visits, he resorted to covert means of meeting the unsuspecting sisters in his office and in the streets, to each of whom he made promises of marriage; and so well arranged were his plans, and so successful his dissimulation, that neither of the artless girls was a confidante in his attachment, and looking forward to a future, which they had no doubt should be removed from their union. In this manner he accomplished their ruin; and it is said a letter has been discovered, written by Mills, in which he declares his intention of destroying the peace of the family, in consequence of his summary ejectment from the house of the father.

Good News.—The Eric Bank, we learn officially that the Bank of Eric is about to open an agency in Philadelphia for the redemption of all its notes. The Bank will also recommence operations shortly—having by the above highly honorable movement redeemed all the promises made by Mr. Reed, the President, at the time of the Bank's suspension. Last week its notes were selling at 100 per cent. The redemption is once commenced, when they will no doubt be as good as the generality of the north-western notes of this State.—*Lancaster Express.*

A Modest Dum.
Will not those of our patrons who know them, or who are acquainted with the character of the Dum, be induced to purchase a few of these Dum, for their own use, or for the use of their friends? They will, it will be readily admitted, be well repaid for the small amount of money which they will be obliged to pay for them. They will be well repaid for the small amount of money which they will be obliged to pay for them.

NEW YORK CATTLE MARKET.
June 20th.—Offered, 1,600 head of cattle, including 500 head of calves, and 5,000 head of lambs. The market was very quiet, and the prices were generally low.
