

SEVEN DAYS LATER FROM EUROPE.

Arrival of the America.

By JOHN, N. B. AUG. 12, P. M.
The Steamship America, Capt. Harrison, from Liverpool, July 28, arrived at Halifax, at about 12 o'clock, morning, bringing passengers and advices from Paris, London, and London papers to the 27th ult.

AUSTRIA AND HUNGARY.—It is difficult to detect intelligibly the military operations of the contending armies, as all the accounts from Vienna to 21st ult., are grossly confused, and contradictory. It is admitted that the Austrians have been completely defeated by the Hungarians under Dem. It appears that Dem crossed the Franks canal at the head of 50,000 men, and after a series of conflicts which lasted four days, compelled the imperialists to raise the siege of Peterwardein, and to evacuate the Banat.

THE SOUTH OF HUNGARY.—From a bulletin by Prince Serbskiewich, published in the "Waiver Zeitung," we have the version of a sharp action which occurred on the 11th at or near Waitzen between Gen. Georgy and the Austrians Gen. Suss and Kumburg. Hungarian army marched upon Waitzen, which was then occupied by the Russian Regiment, which according to former orders fell back as the enemy advanced at night. Gen. Georgy had occupied a strong position at Waitzen. His army was estimated at 44,000 men, 120 pieces of artillery. He was attacked by the advance guard of the Russians, under Gen. Say, but his powerful artillery foiled all attempts that were made to dislodge him. The cannonade on either side was very severe, and the Hungarians fired a salvo of seven or eight charges upon the Russians on this point. On the 10th the main body of the Russian army was brought up, and on the 11th the Russians attacked Waitzen, and notwithstanding a desperate resistance, the town with 12,000 of two standards, two cannon and 200 prisoners. In the course of the pursuit it was found that only the rear guard of the Hungarians had engaged the enemy, and that their main army had marched to the north. Gen. R. says that his cavalry was detached in pursuit of the fugitives. The troops of the Banats were, it is said, no lead against them, and the Hungarians to the south, and the Imperialists to the north will enter Serbia, and the Hungarians have been directed to the Danubian Delta, and the Serbian chief Kuckanin has been forced to leave his position on Zlatina. Haynala has gone with the 11th Division to the support of Dem. Dem. has ordered 20,000 men, and 100 pieces of artillery to the aid of 10,000 men.

This is the substance of the bulletin, which corresponds to the line of a "Times" article by stating that it should be used as great distrust, or be looked upon as the production of very disaffected agents. From private accounts it will appear that Dem. had abandoned Waitzen on the 10th, and that Gen. Georgy, marching along the left bank of the river, had taken a strong position near Waitzen. At the junction of the Danubian river, which had been already engaged, from the missing district, came down upon the Russian army, which was compelled to retreat to Daul Kelp, midway between Waitzen and Perth.

The Austrian Gen. Remberg, located at Perth, on the day of the Russian retreat, but that city, and hastened to their support, and succeeded in stopping the progress of Dem. Dem. was eventually driven back upon Waitzen. The body of the Russian army meanwhile came from Kumburg, and the strongly fortified position, which had been already engaged, from the missing district, came down upon the Russian army, which was compelled to retreat to Daul Kelp, midway between Waitzen and Perth.

ENGLAND.—A very large and most enthusiastic meeting has been held in London, at the London Tavern, to express public sympathy with the achievement of the English ministry, to urge upon the English ministry of the crown, the reorganization of the de facto government. It is mentioned as a significant fact that a speaker moved the first resolution which was adopted unanimously, when they were, in a member of the peace society, something like an abhorrence of war.

This feeling was strikingly evidenced by the meeting, when some of the speakers, instead of mixing expressions of sympathy for the taking up of arms against Austria. The scene which ensued baffled description. The whole assemblage packed together to suffocation, rose as one man, and never, so says the well remembered expression of Mr. Byron, was there a man in London tavern showed more rebelliously.

graph despatch to the French Government, that the Serbians have finally accepted the terms imposed by Austria. The report, however, is not fully credited.

VENICE.—The prolonged resistance of Venice, says the "Times," who gloried in its defence against the overwhelming force has done for her history—has shown the world that glory of the ancient city of Italy has not departed forever.

FRANCE.—The committee on the question of the prorogation of the Assembly recommended that it should adjourn from the 13th of August, to the 20th of Sept., and that in the meantime a court of 25 should be substituted to be chosen by ballot. The 13th division exist in the ranks of a majority of the Legislative Assembly, and the Legitimists have determined to recede from the ranks of the Bonapartists, and Orleansians, and form a separate party.

The articles which have appeared in the "Legitimist" organs all show, it is said, a tendency to separate factions on the part of the Duc de Bordeaux, and would seem to be a token of the existence of an extensively original legitimist conspiracy. It is announced that the troops which had been commended after the announcement of the surrender of Rome, are now to be embarked for their original destination.

BAVARIA.—The French government have received a telegraphic despatch, dated August 10th, from the commander of the fortress of Rastadt on that day. The Prince of Prussia had entered Rastadt at the head of two regiments. Rome—Under the military rule of Gen. Oudinot, order and general tranquillity prevailed in the name of the Pope. His holiness still continues at Gaeta; but beyond the fact that he will remain there after the occupation of the Queen of Naples nothing is known. He is said to be a very comfortable man, and to be in the full possession of both temporal and spiritual authority, and that the principal around him having learned nothing from him regarding the past mistresses, respectfully refuse all communication with him.

The Am. in a report at Rome had not received the news of the capture of Gaeta, but he said that the French army, which was in the place, and the French soldiers, the Consul after strongly protesting against the indignity which was being done to the Pope, had not been able to do anything.

COMMERCE AND FINANCE.—Liverpool, July 25.—Commercial affairs during the past week have presented no new feature requiring particular remark. Trade prospects generally would be improved, rather than depressed. The market for cotton indicates business will continue active and healthy. Assurances from the manufacturing districts are not altogether satisfactory, and in fact we do not think a fair business is going on.

at \$10 per ounce when received in payment, for goods.
Immense quantities of gold had been found.

The merchants at San Francisco were generally in a state of confusion, and guarding the merchandise consigned to them.

On the 1st of August a convention was to have been held, at which delegates were to be chosen from a Territorial Government, when it is intended to apply for admission into the Union.

There is a City Government, already established and in operation.
At the mines Lynch law, and should be chosen, the evidence heard, and he convicted, he is immediately hanged and driven away from the mines.

The health of the persons working at the mines has been very bad. Fever and chills have been common, and in some cases it has been fatal.

Sailors were very scarce, and wages were from \$100 to \$200 per month. Nearly every sailor that arrives runs away to the mines and works a while, but soon returns to San Francisco, to take a spree and spend his money.

There were no troops in San Francisco, and there were no specie sent to the United States by the next English steamship.

More Indian Outrages.
The Hon. Mr. MACKAY, Pa., Aug 1. The Hon. Mr. Magee, bearer of the despatches to Gov. Mansfield, from Tampa, arrived here last night, bringing the following news: The Indians killed 17th, 18th, and 19th, and on the 20th, they appeared at an Indian store on Peace Creek, kept by Mr. Paine. They desired to sleep in the store, but Mr. Paine informed them that it was against his rules. They then reported that they had killed 17th, 18th, and 19th, and on the 20th, they appeared at an Indian store on Peace Creek, kept by Mr. Paine. They desired to sleep in the store, but Mr. Paine informed them that it was against his rules.
