Arrival of the Europa.

The steamer Europa, which left Liverpool on Saturday, the 24th ult., arrived at Halifax on Friday morning, at 5 o'clock.

Her news, in a political point of view, is not of much importance.

There has been a decline in the cotton market, with small sales

Private letters from Madrid, of the 15th, announce that the promotion of 134 officers, granted by General Espartero in the latter period of his regency, has been recognized by the Spanish government. This measure would, it is believed, impart additional strength to Gen. Narvaez against his intrigues

A treaty of navigation between France and Belgium has lately been signed by General D'Hautpoules and M. Firman Regies

FRANCE.—The condemned prisoners of Versailles have addressed their counsel, dated from the prison of Versailles, the 14th inst, signed by all the condemned prisoners "The eleven of the accused who were acquitted have addressed a letter of a similar nature to their counsel

The prisoners have also, in a letter to the Democratic Journal, registered their declaration that they were not justly treated by the judges The *Temps* has been seized for an article on the late trials at Versailles The *Constitutional*, so long the organ of the Thiers party, has deserted it for that of the Elysee, and will now devote itself to defending the personal policy of Louis Napoleon.

In consequence of the convictions before the High Court of Versailles, twenty seats in the Legislative Assembly have become vacant.

M. Pierre Bonaparte has written a long letter to the journals, stating that he held a right to do as he liked and to leave his post if he chose That the decree of the President had no force in law, and that he considers his dismissal as null and void

Legal proceedings have been ordered to be instituted against the editor of *La Liberte*, for exciting hatred and contempt of the government of the Republic

The following appointments have been officially announced:—Gen De La Hitte Minister of Foreign Affairs in the room of M De Rayneval; M Dares, Prefect of the Rhine, to be under the Secretary of State for the Department of the Interior; M Anselmo Petetin, a well known writer, to be Administrator of the Theatre Francaise; M. Cleon at Rare, to be Secretary General to the Prefecture of the Place; M Arcisse de Caumont, to be Councillor of State; M de Tocqueville, to be first Secretary of Legation at Berne; M de Sailly, to be Depelon, first Secretary at Berne, to be Minister at Hamburg; M de la Cour, formerly Charge de Affaires at Vienna to replace M de Eodeau, at stuttgart; M Varroc to be Director of the Beaux Arts

M Bineau has received the letter of resignation and is succeeded for the moment by the Association of Prefects General

On the 11th ult the High Court of Versailles re-commenced its sittings M M Ledru Rollin and the other accused persons implicated in the June affair

It is also added that the sentence would within the three days following be pleaded by the Commune Executioner in the Pillory at Paris, but the President would not allow so late a part of the sentence to be carried out with effect

It is positively stated that the decision between France and Morocco has been settled by the Emperor personally; all the points demanded

SPAIN.—Garibaldi has arrived at Gibraltar on board of a Sardinian ship of war placed at his disposal by the Government 10,000 frances were ordered also to be given to him, but these he positively refused to accept

TURKEY.—Lord Stafford Wellby, on the 4th inst, state that all the Hungarian and Polish refugees had been transported to Widdin to Shumla The first portion left on the 30th, 500 Poles under ex-General Bem, now Murat Pacha, Massaros, and Count Vay The second portion left on the 31st ult, commanded by Gen Stein now Feh ti Pasha, and Kossuth, now Kramil Pascha These both included the appointed

The Magyars left on the 3d, headed by M. M Kossuth and Ralegh.

The rumors of war between Turkey and Russia were fast dying away at Constantinople

The English ships of war were anchored within the Dardanelles The French fleet were near Smyrna

Nothing further has transpired relative to the decision of the Emperor of Russia respecting the Turkish affair

ITALY.—The large levy of troops going on in Lombardy is causing great discontent All who are able to fly are doing so Rome was quiet on the 11th, and the Pope shortly expected

A new loan, of near y one million sterling, had been concluded

A rumor existed that Cardinal Antonelli had resigned, and would be succeeded by Cardinal Delagnigs

AUSTRIA AND GERMANY.—The most important news from Austria is the sudden change of the cabinet to a sort of free trade policy. An offer has been made by Prussia to form a Zollverein including Austria, and the Berlin cabinet rather retreats from the proposal—however, some modification of the import duties into Austria appears now to be generally anticipated.

From Berlin there is but little news, except the more developed intention of Prussia to withdraw her forces from the Duchies, and to avoid farther interference in the Schleswig Holstein affair.

After the repeated predictions we have made, that Germany would sooner or later perceive the folly and hopelessness of this quarrel, we rejoice greatly at the returning good sense of the Germans.

The parties in the Duchies who have chiefly promoted the war, seem however as averse as they ever were, to allow a peaceful termination of the dispute to be brought about.

The Diet of Saxe Meningen have approved of the adhesion of the Duchy, to the alliance of the three kings.

INDIA.—In consequence of renewed plotting by the rebel chief Chutter Singh, his four sons, and many others of the Sikh leaders, who took an active part in the late insurrection, the whole of them have been surprised and seized, by the orders of Lord Dalhousie, at Umritsir, Lahore, and other places; and henceforth they are to be rigorously confined within the walls of a prison.

The Punjaub and Peshawer, indeed the whole of India, is in a state of profound tranquility, and the imprisonment of the rebel chiefs is the best guarantee of its continuance. There has been as yet no disturbance with the Chinese, as was anticipated.

ONE MONTH.

LATER FROM CALIFORNIA:

Arrival of the Crescent City

The Steamship Crescent City arrived at New York on Friday last, at 11 o'clock — She left Chagres on the 28th ult., and touched at Kingston, Jamaica, on the 30th. Her Advices from San Francisco are of one month later date, being down to the 2d November.

The Crescent City brings nearly one million of dollars on freight, besides a large shipment of California gold belonging to the passengers.

The health of the people at the mines of California was generally good; but slight attacts of dysentery prevailed.

The average amount of gold dug by the miners is computed to be about ten dollars per day

The steamer California arrived at Panama on the 22d, with accounts from San Francisco to the 2d, touched at Maxatlan, where she received $72,000, for England; she also took from San Blas $42,000, for the same destination.

Thirteen hundred passengers passed thro' the town of Chagr s on the 26th ult., and there were, at least, one hundred additional passengers awaiting transit to California

The Isthmus was perfectly free from sickness

A naval execution took place on board the United States frigate Savanah, on the 23d of October last The parties charged with mutiny, and attempting to murder one of the officers of that vessel The names of the mutineers were John and William Black Henry English, shipped some time since at Valparaiso, in the United States schooner Eagle There were five persons implicated, but the above named men having confessed the crime and acknowledged their guilt the other three were sentenced to hard labor for the remainder of their term of service, viz: three years

Among the passengers by the steamer Crescent City," is the Hon J. P. Judd Minister to his Highness the King of the Sandwich Islands, accompanied by Alexander Liuhiliho, heir apparent to the Hawaiian throne, and Gis brother Lt Kamehamaheha. The object of Mr Judd's visit to the United States and Europe at this period, has not come to the Life outrages of the French at the Sandwich Islands

Rents at San Francisco, and the other city sites, continue to increase, and building is rapidly going forward. There is great demand for houses especially at San Francisco Buildings lots few and unencumbered, and of legal title, are available to a long time to come, and organized means of procuring title, are available to be sought away by conflagration The numbers of ships, crowded closely in port, and decks of ships, crowded closely in port, so much a case, also be destroyed Efforts are being made to organize a fire department

The Californians are determined in the stand they have taken in their Convention, against the existence of slavery in the territory

Great excitement is made of the monopoly exercised by a few persons in the navigation of the Sacramento These persons have squatted upon, or secured all the landings and the only sites upon the river, and large extra charges for the transportation of passengers and freight, and the privileges of both wharf and storage at them dep ts along the River

Three Chinese ladies of rank arrived in the Bay bark Helen Stewart, on the 29th Oct

The tide of emigration still continues with but little abatement The number of arrivals by sea at San Francisco during the month of October is 4,069, of which 119 only were females

Total arrivals for the months of August, September and October, 13,677

THE STATE CONSTITUTION.—The State Constitution has been submitted to the people of California and will be voted for or against on the 13th of November With reference to this subject, the *Alta California* of the 1st of November observes:

"The political fires, which have slumbered long, remain pent up no more. Inconsistent with the character of the inhabitants, the nature of their occupation, and the immediate requirements of California as it may appear, our citizens have in mass meeting revived political distinctions, zealously advocated extreme, if not ultra measures, and plunged into the unhesitating support of party principles; abandoning, in many instances, business pursuits, and wholly forgetful of the chief desire of their lives, and to accomplish which they have assembled on the shores. This heated state of public feeling is confined almost exclusively to the district of San Francisco.

"There are numerous candidates daily presented for the offices to be filled by the election of the 13th November. For Governor, we have the names of Peter H. Burnett, W. M. Steuart, W. S. Sherwood; for Lieutenant Governor, J. McDougal, F. J. Lipnitt; for Representatives to Congress, Edward Gilbert, R M Price, G W Wight, L. Dent, W Shannon, and a list of names before the people, of the aspirations of which, with the qualifications and prospects we know nothing. To the Senate of the United States, California will send J. C. Fremont, and the choice for the remaining seat will be probably be T. Butler King or Mr. W. Halleck.

"To the gold digger in his industrious pursuit, the month of October has proved more satisfactory "pay" than to the politician. The ship loads of emigrants landed at this port have with better discretion than generally exercised heretofore, pushed on for the mining country, where we are credibly informed they are for the most part prosperous and contented. Stories of individual success among them are by no means rare.

"The health of the mining community was never better than at this time. The sickly season is passed, and the best of the Sacramento and San Joaquin vallies greatly abated Winter quarters are spoken of and a mountain home will be the choice of nearly all now engaged in mining"

In the address to the people of California, submitting the Constitution, the delegates say:

"In establishing a boundary for the state, the convention, conformed as near as was deemed practicable and expedient, to great natural landmarks, so as to bring into a union all those who should be included by natural interest, mutual wants, and mutual dependence No portion of the territory is included, the inhabitants of which were not or might not have been legitimately represented in the convention, under the authority by which it was convened; and in unanimously resolving to exclude slavery from the State of California, the great principle has been maintained, that to the people of each state and territory, *alone* belongs the right to establish such municipal regulations, and decide such questions, as affect their own peace, prosperity and happiness."

The subject of slavery is thus disposed of in Sect 1st, Art. 18th of the Constitution: "Neither slavery nor involuntary servitude, unless for the punishment of crime, shall ever be tolerated in this state."

Several meetings, well attended, have been held, preparatory to the general election which is to take place on the 13th November, for the purpose of selecting state officers and deciding upon the adoption of the constitution framed by the late convention at Monterey.

One held on the 25th November, was attended by about four thousand persons, and many more would have been present had the *Plaza* been spacious enough to accommodate them Many speeches were made, all of which proclaimed that California should be a free state, governing by her commerce, that of the whole Pacific coast"

On the 27th Nov, another meeting was held, which broke up in a row, in consequence of some injudicious speeches on the question of who were to be considered voters under the new constitution

THE CONVENTION.—We are advised that the House on the 3d, had under consideration the clause introduced by M M. Mc. Carver, prohibitory of the imigration of free negroes to California, and struck it from the Constitution by a vote of 31 to 8! It is believed that the issue of contention will be the appointment of members of the legislature, some considerable dissatisfaction having been manifested at the report of the committee on the subject — *Alta California* 11th

Sacramento city is full of political aspirants

Placer Intelligence.

SHERLOCK'S DIGGINGS, Mariposa, Sept 27.

We muster about fifteen hundred strong in this neighborhood, and five hundred Texans are daily expected. Our merchants would willingly compact with the post office agents for the establisment of a mail route between this place and San Francisco

THIS MR EDITOR, is unquestionably the place for big e nuks, but let me instruct you concerning these diggings They were discovered two or three months since, by a man named Sherlock, who, with a company of seventy Mexicans, worked the deposites on shares. Their work varies with us, as well as elsewhere In eight days, three men took out 57 pounds of pure gold; and last week, two men, in two days took out 29 pounds from a spot near my camp.

Sherlock has gone into the mountains, no one knows where, and we have elected a new Alcade, who the day of his installation into office issued an order for all Mexicans to decamp, which they did forthwith. We all met to work here, as we can easily make comfortable quarters This place is distant 11 miles from Fremont's discovery and is much the richest of the two deposites Many large pieces have been recently found here, averaging from one to eight pounds, pure gold The finest pieces usually are worth about fifty cents, so you perceive this is the region of "big lumps"

THE PLACER.—The Placer Times of October 13th says:

"We have seen several from the mines during the past week—some of them with a bag full of dust, while others were not troubled with anything heavy. The following letter from a friend will give our readers a common sense view of mining and miners in all sections of the Placer, although written on the Middle Fork, and dated—

SPANISH BAR, Oct 10th, 1849

Since I have been on the Spanish Bar (now about three months,) there has been an immense amount of money taken out — Damming parties have done the best by going into the bed of the stream, yet many dams have proved failures; a me companies have taken out over a hundred dllars a day for several weeks, but these things are not common

You are undoubtedly annoyed every day by new comers, who wish to know the richest place. Give no advice at all; if my brother were to come to me with the inquiry, I could not give him the information required. Some do well everywhere, and others are equally unfortunate. Miners here are thinking about going into winter quarters; the nights are quite chilly, and every one is anxious to get breakfast for the sake of being in the vicinity of the fire.

CALIFORNIA MARKETS.—Fresh Provisions— 18 cents per lb; veal 35 a 40 cts; pork 60 a 75 cts; mutton $2 per quarter; potatoes are no longer sold by the bushel, they bring 4 per hundred; squashes and cabbages 30 cts to $1 per lb; eggs $6 per dozen.

Milk 75 cts a $1 per pint. Fish, fowls, and all kinds of game are exceedingly scarce and command extravagant prices.

Flour, U S superfine $12 a 15 per barrel, a slight advance in half barrels. Chilian in bags $4 50 a $5 per cwt. Corn meal, kiln dried $8 a 10 per barrel, half barrels sell readily at $5 50 a $6 each.— Mess pork $28 a $32 per bbl. Prime do, $25 a 28 per bbl. Clear do $20 a 22.

QUITE SPUNKY.—Governor Wood, of Texas, in his annual message to the legislature of that state, threatens to go to war with the United States, if Congress confirms the claim of New Mexico to a strip of land which is also claimed by Texas. This is quite fierce, *considering*. Governor Wood displays more spunk than sense.— We should not be surprised to hear little Delaware next threaten to fling her Mother.

MARRIAGES OF NOTABLES.—Chevalier Belmont, the millionaire agent of Rothschilds in New York, "tied to the alter," the fascinating and accomplished Miss Slidel daughter of Commodore Perry, on Wednesday.— He made an independent settlement on the lady, before marriage, of ten hundred thousand dollars. The Hon Robert C. Winthrop, did the same agreeable service to Miss Wells, "a wealthy and fashionable lady" of Boston. As Speaker of the House of Representatives Mr Winthrop acquired considerable experience in the art of "putting the question," he has at last "popped" it successfully on his own account.

MR AND MRS. JUDSON.—Late letters from those devoted Baptist Missionaries say that both are in excellent spirits and in good health Mrs. J. has entirely recovered, and now has the prospect of a useful life amid scenes of labor and great interest.

Col. James Watson Webb, *Charge de Affaires* to Austria, sailed on his mission from New York, on Saturday week, accompanied by his wife, a young lady recently espoused, and his daughter.

His Excellency Alexander Ramsey, Governor of Minnesota, arrived at Harrisburg, on Wednesday week.

MARRIED:

On the 9th inst, by Rev. Daniel Terry, Mr. AMOS ELY, to Miss EMILY L. TEWKESBURY, all of Brooklyn.

Donation Visit.

The friends of Rev Mr Long are invited to a Donation Visit at his residence on Friday afternoon and evening of the 29th inst MANY.

Gold Mine in Montrose.

Where a man may make himself rich in a day by stepping into

LATHROP & SALISBURY'S,

AND selecting from the largest and most complete assortment in northern Pennsylvania.

Trade having been very great the past season, has reduced our present stock very much which is now now considered to present to the country, a "New Edition" refined and enlarged, embracing most everything that a person may think of, among which we now mention—

30,000 yards of brown and bleached sheetings,

5,000 yards French, English and American prints,

50 pieces cassimeres and satinetts,

25 " English Frenches and American cloths,

20 alpacase, merinoes, de laines, cashmere, Francisco plaids, &c &c 20 pieces flannel, 75 different styles worsted lace, a great variety of corsets, satins, silks, ribbons, gloves, laces, flowers, &c &c., 200 shawls from 75 cts to $20 each, from 1½ yd square to 4 yds in length.

Hats and Caps from 3 cts to 4 dlars. Muffs and Buffalo Robes, from steel, nails, & nail rods,—mackerel, veal fish & Cheese. Tea from 3 cts & upwards—500 pieces wall paper 300 bbls. salt—Iron castings all sizes, youth's Tetlery, Jewelry, Pocket Books, Pins, Needles, shaving Tools, Chemical Powder for Razor-strops, Key-rings, etc

Lady's & men's Boots and Shoes of all kinds—a great supply of Crockery & Hardware,—500 pieces wall paper 300 bbls. salt—Iron castings all sizes, youth's Tetlery, Jewelry, Pocket Books, Pins, Needles, shaving Tools, Chemical Powder for Razor-strops, Key-rings, etc

HUNDREDS—THOUSANDS

Have been cured the past and present years, of diseases of the blood, by *this Purifier*—and such cures stage made too, by the use of

Four Times Less Quantity, and at Four Times Less Cost,

than such diseases can be cured by *Sarsaparilla, or any other* remedy that has been in operation for the past.

We wish it more possible to publish to the world, at one view the

MANY THOUSANDS

that are now living and enjoying good health, who acknowledges themselves indebted to the purifying and healing efficacy of *Brant's Indian Purifier* This Panegyric

THE WORST SCROFULAS,

and all impure diseases of the blood, viz.: *Scald Head, Salt Rheum, Rheumatism, Ringworm, Pimples on the Face, Pains, Blotches, Ulcers, Carbuncles, Tetter, Chronic Sores, Pains in the Back, Side, and Limbs, Rush of Blood to the Head, etc., etc.*

IMPORTANT TO THE AFFLICTED.

It is a question of no small importance for the afflicted to decide, which, of all the sarsaparillas and other remedies, is the

CHEAPEST AND MOST CURATIVE.

We say, *Brant's Indian Purifier* is cheaper and more curative, because *one bottle of it*, which can be bought for One Dollar, contains FOUR TIMES as much *Active Principle* as *one bottle of Sarsaparilla*, which also costs *one dollar* We also prove *Brant's Purifier* to be as cheap at *one dollar a bottle*, as *Brant's Purifier* would be at *four cents a bottle*, but as our assertions does not prove the greater power and medical virtues of this Purifier, when compared with the best Sarsaparillas, we shall therefore show how much better and cheaper it cures

BY ONE DOLLAR'S WORTH.

The first case we state, is the cure which was effected by *Mr. J. B Hoskin*, of Rome, Bradford Co., Pa. This case is not of any of our veracity, when we say that this is the most *inhabited* for and hopeless case of one of the

Most Horrid Scrofulas

that ever has been cured through the use of Sarsaparilla, and this was cured by TEN TIMES LESS of Brant's Purifier, and at LESS COST, than even a case half so revolting and hopeless was ever healed by TEN TIMES Sarsaparilla. For full particulars, see our *Pamphlet*

Mr Hoskin states that he had been confined to his bed for *Two Years*, and was not expected by five *twenty-four hours* longer, when he commenced using the *Purifier*; his neck and arms were literally of one sore mass, and his body was rotting through the Scrofula; his nurse nearly worn out, and one arm dislocated from it, through so long a bend, had nearly come through his side—and there were on him in all,

Twenty Large, Deep, Discharging Ulcers,

—that the *first bottle* he tried, enabled him to *get off of his bed* where he had been confined twelve months, the *second bottle* enabled him to get out of the house, and the *third bottle* enabled him to walk *two miles*, and that the use of

ONLY TWELVE BOTTLES

cured all the Ulcers, and restored him to health and strength, so that he was able to *work* and *attend to business* again, as he had formerly done

This cure is certified to by FOURTEEN RESPECTABLE WITNESSES living in *Bed Tree Village*, one of the most populous settlements of Kentucky. Also by *Rev. Mr. H. Brown*, present and former pastor of the West Rome hotel—by *Brant, Brandt & Lawrence*, Druggists, and by *these* other persons all residents of Rome

AGENTS.—Abel Turrell, Montrose; Henry Barrett Nicholson; Wilbur & Millard, Lanesboro; T. P. Baker Lanesboro; Gilman & Young, Great Bend; Silvin Tiffany Brooklyn; Johnson & Terry, Hartford; O. M Gamble, Dundaff; Carpenter & Edwards, Lenox; Lathrop & Salisbury, Springville.

Prepared only by MYRICK & CO. 21 *Spruce Street*, New York For sale by ABEL TURRELL Montrose

Consumption can be Cured.

The following case is one of the greatest triumphs of medicine over disease ever published in medical history. Read it!

Prompted by no other than the feeling of humanity to send it to the list of my afflicted fellow beings, I desire to make known to you a short description of my case, and the means by which I obtained from Schenck's Pulmonic Syrup the wonderful cure I was taken sick, which gradually increased, until I was so far reduced that I was expected to die every week. I had at different times the attendance of six eminent physicians, without receiving any benefit In the month of February, 1847, I comm
