LATEST MAIL NEWS.

Later from Havana.

CHARLESTON, Dec 11.

The steamship Isabel, Captain Rollins, with dates from Havana to the 7th inst, and Key West, the 8th, arrived at this port to-day. We learn by her that the cholera had entirely disappeared from the city, but that it had re-appeared in several other parts of the island. All was quiet when the Isabel sailed.

There was every prospect that new sugars would open at high prices, and contracts had already been made for shipments to Spain at 7½ to 12¼ rials, delivered in March.

From Texas we learn that the State debt is increasing very fast. Since the passage of the Bounday Bill hundreds of claims have been presented never heard of before. The *Houston Telegraph* says the whole of the $10,000,000 will be required to pay debts.

The Sugar crop has partially failed but the quality is good.

From New Mexico.

WASHINGTON, Dec 11

Letters have been received from Santa Fe, dated Nov 1.

The act establishing Territorial Government over New Mexico reached there on the 25th of October.

The people were all united in favor of Territorial Government, and against organising under their State Constitution.—All excitement upon the subject had subsided.

About seven hundred persons are turned out of employment by this calamity.

Later from Europe.

BOSTON, Dec 13.

We have one day later news by the steamship America, which arrived here at 8 o'clock this morning

The *London Sunpaper Gazette* of Friday, Nov 29, 3 P M, has the following announcement. The intelligence from the continent is again of a warlike object ter The Cabinets of Berlin and Vienna are now stated to have arrived at a point at which the dispute must merge into open hostility.

The late negotiation between the two Cabinets not having led to any satisfactory result, the French Government is said to have received a despatch from Berlin, announcing that the Austrian Government had demanded the evacuation of Hesse Cassel within twenty-four hours. The same report states that on the same day a note drawn up in energetic terms, was communicated by the Russian Ambassador at Berlin to the Prussian Government

Report of the Secretary of the Navy.

The report of the Navy Department is long, and is characterized by clearness and ability. It gives an account of the operation of the six different squadrons into which the ships in commission are divided.

It is remarked that no record of insult to of British interference with vessels bearing our flag on the African coast has occurred, but that in each case explanations and apologies have been made to our officers on that station, and the reports made of it submitted to the government.

The Secretary says that our flag has been respected on every sea, and that the interests of commerce have been secure under its protection. The Navy consists of 7 ships of the line, 1 razee, 12 first class, 21 sloops, 4 brigs, 2 schooners, 5 steam brigates, 3 steamers of the first class, 6 steamers of less than first class and 5 store ships. The ships in commission are 1 razee 6 first class, 1 second class, 2 sloops, 3 (coast service,) 2 steam frigates, 1 steamer of the first class, 3 less than first class, 3 ships of the line are receiving ships, 1 steamer do, and 1 sloop do. Five ships of the line are on the stocks in process of construction, but the work is much delayed. Besides these, there are the mail steamships on the New York and Liverpool and New York and Chagres lines, liable to naval duty in case of necessity.

The Secretary notices the improvements going on in the Navy Yards in Philadelphia and other places; states that he has invited proposals for the construction of a Dry Dock in the Pacific; says that the stores on hand in the various yards amount to $6,500,000 in value; and discusses the question of reducing the number of yards, which he declines recommending at present, and depending on private contracts for the construction of ships.

The existing personnel of the Navy embraces 68 captains, 97 commanders, 327 lieutenants, 68 surgeons, 37 passed assistant surgeons, 43 assistant surgeons, 64 pursers, 24 chaplains, 12 professors of mathematics, 11 masters in the line of promotion, 464 passed and other midshipmen, and 7,500 petty officers, seamen, landsmen, boys, &c. The Secretary says that this system of officers is unshapely and disproportioned, there being a great disparity between the head and the subordinate parts, and he recommends a reduction in the three higher grades.

The report discusses a variety of other questions respecting the organization and distribution of the service, all of which are worthy of attention to those interested.—They will, therefore, advert to it for the particulars.

THE WIFE.—It is not unfrequent that a wife has to mourn over the alienated affections of her husband, because she, has made no effort herself to strengthen and increase his attachment. She thinks, because he once loved her, he ought always to love her; and she neglects those attentions which engaged his heart. Many a wife is thus the cause of her own neglect and sorrow. The woman deserves not a husband's love, who will not greet him with smiles when he returns home from the labors of the day;—who will not try to chain him to his home by the sweet enchantment of a cheerful heart. There is not one husband in a thousand so unfeeling as to be capable of withstanding such an influence, and of breaking away from such a home.

Aid for Fugitives.

The Committee appointed, at a public meeting held in Montrose on the evening of the 28th ult, to solicit aid for the fugitives in Canada, in pursuance of the object of their appointment, make this public appeal to the friends of the suffering poor.—Authentic intelligence has come to us that thousands have been added to the number of refugees from American oppression, by force of the recent act of Congress, known as the Fugitive Slave Bill; and every many of them are in exceedingly destitute and suffering circumstances. If the Irish, the Poles, the Greek and the Hungarians were ever the objects of our benevolence much more the Fugitives in Canada should be now. Through the wrongs inflicted, by Americans, they suffer, and by the benevolent action of Americans their sufferings should be alleviated and their necessities should be supplied. Who will yield to the claims of justice and humanity in these respects? Believing that there are many in different parts of the county, as well as in Montrose, who would be glad to do something for this object, did they know how it could be done, the committee take this method of informing them that A L Post, of Montrose, has been appointed Treasurer to receive and transmit to their proper destination, all moneys and goods which the philanthropic are disposed to contribute — Will not individuals, in the different townships interest themselves in this matter—collect funds and send them on to the Treasurer? "Cast thy bread upon the waters: for thou shalt find it after many days"
