LATEST MAIL NEWS.

From California.—Arrival of the Cherokee—$2,000,000 in Gold.

The steamer Cherokee, Capt. Windle, arrived at New York, on Friday last at about 12 o'clock, bringing dates from San Francisco to the 15th of November

Of the varied intelligence bbought by this steamer the N. Y. *Tribune* says:

The cholera has committed serious ravages, especially at Sacramento, but it was evidently declining at the latest dates — Gold-digging has not, on the whole been very productive the past season, but the number of diggers has secured a large aggregate yield, while the signally improved facilities of intercourse and consequent reduction in the cost of provisions, &c has enabled very many to realize large rewards for their labor Still, it must be considered that 'prospecting' for fresh gulches' and other 'washings' has seen its low days and that turning rivers for the sake of washing their beds has generally proved a failure. Regular mining, or extracting the gold from the quartz rock in position, must henceforth be the main reliance, and this appears to be prosecuted with success wherever skill, capital, and proper machinery are employed. There has been another difficulty with the Indians, but it does not seem to threaten serious consequences — Business has been greatly depressed, mainly in consequence of the cholera, but was recovering at the latest dates.

From Europe.

The steamer Africa arrived at Jersey City on Saturday last. Of the news she brought the N. Y. Tribune says:

The news from Europe wears a pacific aspect. In Germany, affairs have taken precisely the turn we expected. Prussia has finally given in. How far the German states are bent on peace, no matter what the conditions, may be understood from the prorogation of the Diet the instant it began to oppose the plan of settlement agreed on with Austria We think that there is little doubt that the people will prove submissive. The danger of War,—never very great—is reduced to the barest possibility, if not totally removed.

Of course this intelligence has produced an improvement in the markets of England It will not be without a similar effect here.

A Paper for Your Family.

New Series—New Features—New Type.

THE HOME JOURNAL,

Published weekly in the City of New York, at two dollars a year

ON the first of January next, commences a New Series of this old-established, comprehensive and elegantly printed *Family Newspaper*, which is now acknowledged to be the indispensable drawing room gazette of the country.

Since it has become a family visitor, we think we may safely venture to say, without the HOME JOURNAL, which is the *Chronicle of the Movements of Society*, and the *Record* of the intelligence which most concern an American Home. New York is the great centre, and here, at the fountain head of novelty, incident, literature and foreign news, the Home Journal is granted and published. Its editors, (Dr. G. P. Morris and N. P. Willis,) add to their entertaining, chit and eagleness, to the task of giving each week, *Every thing worth knowing*. Their pens minister to every taste; the whims and novelties of New York society, preserving sketches of the *beds of our time* and careful portraits of *birds-of-passage and public wonders*. The Home Journal also attracts gains from the choicest productions from French journals, and by foreign correspondence, to prepare such reports of the fashionable gossip at Paris, as is always highly instruct and amusing. We present to our readers, the facts and outlines of all news, in a form of novelty and brevity, we aim at sketches and readable criticism, and in our condensations of the fecund productions of the vast newspaper world of England we endeavor to select that which is fresh, new, and of interest, true wit, and genuine humor. In addition to the above, we propose to give, in the course of the ensuing volumes, a story entirely new Fashion, which we think will partly satisfy interest the ladies, viz —*A series of reviews of our late letters*. This being a species of composition which authors are readily to trust to make the contents of the Home Journal those superb looked for, and more especially to the ladies, we have made arrangements in London and Paris, who will send us much that could never reach us through foreign journals. As a New York weekly visitant from a Gentleman to a Lady, the Home Journal is one, of which the remembrance is renewed every week, and it is unsurpassed as a gift in good taste.

I do not say that I will sell at cost as many impudent pretenders to. I have not had my stock on hand long enough that anyone can feel in earnest to get rid of it, but should any one attempt to undersell me, my old friends may rest assured that I will not be the trade. I only say that no undersold me on any article of equal value in my line. Call a few doors above the "Democrat Printing Office," and you will find me there.
