Mysterious Death.

On Sunday morning last, a young girl named Mary Morgan, in the neighborhood of South Easton, was found dead in her bed. The following particulars were furnished us in relation to her:

On Saturday evening the friends with whom she resided, left for some part of New Jersey, on a visit to some friends, and left the girl alone in the house: according to directions, she was engaged in ironing clothes; a young girl from the neighborhood called in and remained with her until 8 o'clock in the morning; whilst she was thus employed she heard a noise at the window, and she went out, and in a short time returned to the room, as pale as death. Whereupon the young girl who was with her interrogated her as to the cause, and she told her she had seen a friend who died long since, and told her she was going to injure her. The girl was very much frightened, and requested her companion to remain with her during the night, who refused, and went home, after which she retired, and in the morning when her friends came home, they went to her room to call her, but to their astonishment found her dead. A medical gentleman was immediately called in, but all efforts to restore her were unavailing. We understand that she was buried on Monday morning. The case is a singular one, and should have been investigated. We think that the physician did not perform his duty in not having the matter investigated: an inquest ought to have been held over the body, and the facts connected with the case ought to have been elicited. We think that physicians should be compelled to give notice to coroners in such cases, and if not compelled, humanity alone should dictate such a course.—*Easton Argus.*

Interesting from Mexico.

Revolutionary Schemes of Santa Anna.—A correspondent of the N. Y. Times, writing from the city of Mexico, thus refers to Santa Anna and his future movements.

Santa Anna, the Prince of Mexican conspirators, you know, has never relinquished his hopes of again securing the Dictatorship of his unhappy country. His banishment and disgrace simply afford him secure opportunities to mature his plans. It is well known that he is even now contemplating another revolutionary stroke at an early day; but, with more than his usual adroitness, he has succeeded in keeping from the Government the particulars of his movements. It is very probable that he will make his descent upon Mexico at Acapulco—a point farthest from the suspicions of his enemies. I know that such was his intention, although circumstances may lead him to change his plans. A house has been built there and furnished for him by one of his friends; and many things useful for a campaign are landing there daily. The day I left I saw 150 or 200 camp kettles going into the warehouses of the leading Santa Annaists there, and many bales of blankets and clothing. You need not be surprised if you hear stirring news from that quarter soon.

All the officials in that State (Guerrero) are Santa Anna's friends. General Alvarez the Governor, is almost omnipotent, a firm friend of the great conspirator, and a bitter enemy of President Arista. He has plenty of arms, and can call i to the field 17,000 Indians at any moment.

The government is almost powerless against him, as the soldiers from the more northerly part of Mexico "cave in" with the dysentary as soon as they get into Alvarez' mountains. All the military officers of the different stations in the State are appointed by his influence, and are his creatures, and of course Santa Anna's rallying cry with the ignorant will be "war to the North Americans."

Pardoning by Wholesale.

A list of the pardons granted by Wm. F. Johnston, during the last seventeen days of his administration, has just been published. It embraces the names of fifty-three individuals, who stood convicted of crimes of almost every grade. The records of the State Department may be searched in vain for a parallel, in this wholesale and indiscriminate use of the pardoning power, and cannot otherwise than astonish the good citizens of the Commonwealth. We notice in one instance, that of Michael Murphy, of Schuylkill, who was awaiting his trial for a grave offence, he constituted himself Judge and Jury and granted him a pardon, in advance of a fair and proper tribunal of the Country; thus usurping the prerogative of the Judiciary, disgracing alike himself and the Commonwealth over which he presided. His Ex-excellency used to say a great deal about the democratic party abusing the pardoning and vetoing power, but we think this disclosure presents a state of things, the recollection of which ought to be sufficient to force him to "place his mouth in the dust," and forever hereafter hold his peace on this subject.—*Easton Sentinel.*

Singular Incident.—A few days since a steel trap was set on the farm of Jacob Boon, in Bristol township, for the purpose of catching crows, which much infest that neighborhood. It soon caught a crow by the leg, and held it safely for some time when a huge hawk seeing it in this situation, pounced upon it. The claws of the crow were at once clenched in the flesh of the hawk, when the latter flew off with the crow and steel trap to the farm house, and the whole party were captured by those who set the trap.—*Doylestown Democrat.*

Col. Fremont's Gold Mines.—It is now stated that the negotiation for some time pending between Col. F., and certain British capitalists for the sale to them of his interest in gold bearing lands in California, has been brought to a conclusion very satisfactory to all parties. Col. Fremont, though his agent, receives one hundred thousand dollars upon the execution of the deeds to the purchasers. He will afterwards receive sixty thousand dollars a year, until he shall make a valid title to the lands, whereupon he is to receive a million of dollars for the fee simple of the property.

In mercy, not in wrath,
The Heavenly mandate cries,
A blossom from a world of pain
To decorate the skies.

We yield the treasure, Lord,
It was thine own before,
Since thou art pleased to take it home,
There we shall prize it more.

Ayer's Cherry Pectoral,

For the cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma, and Consumption.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this combination of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affect ons of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer for further inquiry to the circular which the Agents below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these facts.

From the President of Amherst College, the celebrated Professor Hitchcock,

"James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution, that it is an admirable compound for the relief of laryngial and bronchial difficulties. If my opinion of its superior character can be of any service, you are at liberty to use it as you think proper. EDWARD HITCHCOCK, L. L. D.

From the widely celebrated Professor Silliman, M. D., L. L. D., Professor of Chemistry, Mineralogy, &c., Yale College, Member of the Lit. Hist. Med. Phil. and Scientific Societies of America and Europe.

"I deem the Cherry Pectoral an admirable compound from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure."

New Haven, Ct., Nov. 1, 1849.

Maj. Pettibon, President of the S. C. Senate, states that he has used the Cherry Pectoral with wonderful success, to cure an inflamation of the lungs.

From one of the first Physicians in Maine.

Saco, Me., April 26, 1849.

Dr. J. C. Ayer, Lowell—Dear Sir: I am now constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies.

I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease. Respectfully yours,

I. S. CUSHMAN, M. D.

Prepared and sold by James C. Ayer, Practical Chemist, Lowell, Mass.

Sold by A. Turrell, Montrose; Lucien Scott, Great Bend, and by Druggists everywhere.—6y1

SHIP AHOY!

As some have supposed that I was about to leave Montrose, from my selling off goods at auction, I take this method to correct such idea, and would say that the business will be carried on as formerly, except that if a man wishes to buy anything in my line they can *positively* do it 15 per cent. cheaper than they have ever done it in this place. I shall confine my trade principally to Watches and by buying low for cash I can and *will* sell lower than any man in this county. In two weeks I will have a full assortment. All kinds of time pieces carefully repaired and warranted. Amongst the *numerous shops* in this place don't forget the True one is the place to buy cheap Turnpike st. in the *Candy* shop.
