ion and publish the same throughout the te. If the above proves a real public ben-the State will please reward the underuned whatever they see fit. Yours Respectfully.

ABREE LEWIS.

A Fact in Migration.

It is a singular fact, that, notwithstan-We are minimize that the inducments held out by the and Coal Company have concluded a contract and control of the cont In finish a larger quantity of coal, to be designed to the city of Buffalo for the use of pired in the city of Buffalo for the use of Buffa Vote, as well as not generating steam on the lakes. Through the indomitable enterprize with daily multiplying responses as often as they say "come." The Australian Colonics are reached in Section 1. of Messra. Scrantons & Platt, the Lackawanna and Western Railroad has been opened,
and coal can now be delivered in the city of
and coal can now be delivered in the city of
the company the difference between Buffild Never was the difference between stand in the market at the rate of \$1.25 individual and State enterprize more strongly per acre.—Australian at about \$5. But the maked, than as seen in the enterprize of those distance is not so important, when it is Bartons, Ex'rs., vs. House, marked, man and the slow movement of the travelled free of cost to Australia. Nor is Daily vs. Roe, Controlling the North Branch Canal the difference in the prices of land a very Bates vs. C. & Friendsville T.P.R. Appeal.

Eighten months only have elapsed since the controlling item. The influence of our National Property of the Controlling item. Eighten months only have chapsed since the tional name and fame has more to do with it Drinker vs. Gates, than anything else. Men love liberty from than fifteen months birth. It requires no training to feel the appropriate the commencement of the work on that aspirations of free men. The sun-flower Cottrell vs. Averest, aspirations of tree men. The sun-flower randing over a road nearly fifty miles in length. So do men learn to set their hearts and faces of the sun-flower learns aspirations of tree men. The sun-flower vs. Averess, and turns its face to the sun-flower learns and faces of the sun-flower learns are supported by the sun-flower learns are suppor Scenteen years ago the first work was done towards the light of liberty, as it shines on Chamberlin vs. M. & H. P. R. Co. Attacht

yet, nor can a single carge of coal be taken Here, too, are the inducements of good Boyle vs. L. & W. R. R. Co. from our valley through this Canal, to the society. Australia is, in a great measure. Ganal waters of the State of New York, in fif- made up of English scape-graces-men who teen months from this time, provided an appro- have dedged the halter and cheated the pration be made immediately, of money hangman. Vandieman's Land and Norfolk Island are grand receptacles of all the enough to complete it. Thus the State has enough to complete it. I have the State has been engaged more years in building a canal condemned and corrupt humanity that England's convict-ships vomit forth. There only twice the length of the Lackawanna and they receive most gracious pardons and fol-Western Railroad. The money invested by low the promises of higher wages into the stock-holders of the Railroad, is already Australia: With such society, substantial paying the interest on the amount invested by English people prefer not to associate, and is our earnings; while the money invested bence we find them yearly, by tens of thouin the ranal, has been earning nothing, but has sands, nestling down cozily under the wide been an annual tax upon the pockets of the wings of our American Eagle, mixing with people to pay its interest. If a man supports her mingled broad and making such a na-

Silver Mining in California. Nearly four mouths ago the discovery o and outh to do it himself, we ought to curse silver was made near one of the old Rushim. Had a judicious policy been adopted by sian Mills in the town of Bodega, on the the State in regard to our canal, it would have coast, north from San Francisco about 100 been finished years ago, and its own earnings wiles. But little attention was paid to the would now have been paying the interest on matter until within a short time, when a the money which it cost, and it would now be few parties made farther explorations, and the money which it cost, and it would now be supporting itself. A different policy has been pursued, and it compels the people to support to that employed at Gold Hill and other localities, on the first discovery of quartz gold, and the average proceeds are from These who own coal and depend upon this five to seven dollars per day. But few enal for a communication through which to men are yet emyloyed in the mine and send to market, are compelled to stand idle they are confined to the residents of the with their arms folded, while their neighbors place, who are also engaged in agriculture

One of the party working the mine, who is the difference between the enterprize of a visited Sacramento yesterday, states that the deposit is of considerable extent, probably half a mile in extent. The facilities of water power for working the lead are deficient, but redwood and timber abound in the neighborhood, furnishing ample means for prosecuting the undertaking with

The only other claim of silver now held copied from the Banker's Magazine, a very in the country, is that of the South Carolina Company, at Coyote mountain, on the Stanislaes River, which is now being developed principally for the gold, but the prevalence of silver is found by no means on Tingley, Freeman Tingley.

Francis A. Sanford, Franklin Tiffany, Jack-Joseph Mason and Boniel Recree ,600 veloped principally for the gold, but the cimens from this mine, weighing between two and three ounces, and extracted from six pounds of ore.

770 The silver of Bogeda is found in a primood itive gneiss formation, associated with caicspar, closely assimilated to many of those ores found in Peru and Chili, particularly 000 at Copiabo and Checo. An opinion is entertained by those most familiar with the 200 geology of our State, that silver will be found through nearly the whole length of the coast range in greater or less abun-320 dance, and that it is likely ultimately to cqual the product of any other metal.—Placer Times, Jan. 14.

WALKING LIKE A FLY HEAD-DOWN-WARDS .-- The Scientific American says that a Mr. McComick has been rather astonishing some of the New Yorkers, dur-1000 ing the past week, by walking on a polished 1000 marble slab, head downwards, in one of our amphitheatres. It is somewhat frightful ton, Samuel Quick jr.

Thomson: Daniel Wrighter. 00 to see a fellow mortal perched up in midoo air, with his head to the ground—but a long way above it—and his feet to the roof It is the first feat of the kind ever performed so far as we are aware, and Mr. McCormick has been dubbed with the the title of Professor, for his scientific performance.

The feat is performed upon well known on Tuesday evening. April 6th at 8 o'clock, those, that may be worthy of trial. We had and working them step by step, to extract principles of science, by using air pumps P. M.
