Penapelema, April 2, 1852 Motion for a new trial of the brothers Skupinski, for the murder of the boy Lehman, was argued this morning by Messrs. Keyser and Brown in favor, and Afforney General Reed in opposition.

The Court over-ruled the motion, and Judge Allison, who was deeply affected, prenounced the following sentence of death, which was subsequently translated into Polish:

MATHIAS SKUPINSKI AND BLAISE SKUPINSKI -A jury of your own selection, after an impartal and laborious consideration of the chargos preferred against you by the representa-tives of the Commonwealth, have found you guilty of the wifful and deliberate murder of Jacob Lehman. With the verdict which now stands recorded against you, the court are en-tirely: satisfied; believing, as: we do, that it was fully justified by the evidence upon which it was based, which, although entirely circumstantial, was so conclusive in its nature as to dispel every reasonable doubt of your participation in the crime of which you have convicted. In view of your awfully solemn situation, I desire to avoid saying anything that may unnecessarily add to your distress.-For however you may feel, it comports not with the dimnity of the law, neither is it in accordance with its humane teaching and operations to embitter your remaining days on earth by ni needless repetition of the details. In vindication, however, of the awful sentence I you may have some influence in inducing you to regard in a proper light the crime committed against an inoffending brother, it is proper on this solemn occasion to remind you of its enermity—a crime against which the most pawerful instincts of our nature revolts, and which is in direct violation of the divine command Thou shalt do no murder.' Life is the most precious of precious gifts. No one with that which his Maker has entrusted him, and be guiltless; much less can he no excused in taking the life of another; and he who violates this sacred law of humanity shall pay with his own, the penalty of his offending. You are soon to exemplify this truth sanctioned alike by human and divine enactments, and thus to present to all men another and arm of Omnipotence follow upon the track of the murderer, laying bare the most hidden actions, and bringing him to a speedy account-

In the retirement of your own house, alone with the unfortunate victim of your capidity, you slew him, and amid secreey the most profound, protected, in all probability, by the darkness of the night, the mutilated corpse is placed where to all human calculation, no eye shall ever again behold it. Before I end my painful dutly as the minister of the law, whose voice I cotter, not my own, let me remind you that alough your crime be great, it is not beyond veness.
