erned for the rising generation. We see out perfumelots of boys running at large, making boobies of themselves, in such fashion as to make us and honors, with weak, shifting ground tackle wonder what they will be at next, and what to his business of the world ; but a woman they will be and do when they reach matare without that anchor when they call Faith, is years. Think of a boy of fifteen feeling his addit and a wreek. A man may clumsily conlip for sprouts of hair as anxiously as he would tinue a kind of responsibility of motive, can explore a gold placer. Think of others, not find no basis in any other system of right actolder; set off with a Kossuth hat, and a feather ion, but that of spiritual faith. A man may riflyd from some turkey's tail, striving to look eraze his thoughts and his brain, to thoughtlike the great Magyar. See these fullows, fulness in such poor harborage as Fame and scarcely out of petticoats, with eigars in their Reputation may stretch before ; but a woman months, and hear the talk of these young apes. Surely the times are out of joint. And the worst of all is, there are plenty of parents who think all theso efflorences of juvenile im- love-that endearing hope, mellowing every rudones and self-assurance are marks of pre- scene of life, lighting them with the pleasantacious genius. O for the good old days of est radience; when the world's cold storms birch and leather straps, with vigorous hands break like an army with smoking cannonto wield them. Even now we have a crop of what can bestow it all but a holy soul tie to full grown men on the stage, who were never what is stronger than an army with cannon Half flogged in their childhood, and see what a Who that has enjoyed the love of a Christian muss they make whatever they do or whereve mother, but will echo the thought with energy er they go.- Does any one imagine we should and hallow it with a tear ?

Have so many regues in business, and such rowdies in Congress and the Legislatures, if these men had been duly trounced in their a singular and pleasing incident occurred at boy days ? It is shocking to think of, that the Philadelphia Mint. A number of young multitudes of men in years, can never be men in fact, mercly because they were not whip-ped soundly years ago. Never say Die

To you can't succeed at one buisness, try an other. If you fail as a cobbler, enter yourself as a member of Congress. In short, do any thing but take to despair. When Monsieur Jollic presented his picture of "Moses crossing the Red Sea," the curate of Loure threatened to kick it out doors. Did that dishearten him ? Not at all. He went home, added a little chrome yellow to it. Gave it a new name. "Cæsar crossing the Rubicon," and sold it in less than a month to the same curate for ten thousand Francs. Here we see the advantage of "never giving up." Had Monsieur Jollic been like most men, the insult he met with on his first going to " the great National Gallery," would have resulted in a shiling's worth of prussic acid. But he wasn't like most men ; the consequence is, he has become a lion of the first magnitude .-- When similarly situated go thou and do likewise.

A SENSIBLE LANDLORD .- The Frankford Herald is responsible for the following: A little incident transpired some weeks ago at one of the Frankford hotels, which, under fuel-apply the principle and you have the the present temperance excitment, is not unworthy of notice. The names of the parties we shall withhold from the public for shame sake."

A little girl entered the tavern, and in pitiful topes told the keeper that her mother had sent her there to get eight cents. "Eight cents," said the favern keeper

" What does your mother want with eight eents? I dont owe her anything."

"Well," said the child, "father spends all

EDUCATION'S Riz !-- A precocious youth, in country town in Massachusetts, had arrived at the age of nine years, when his father sent him to school. He stood beside the teacher to repeat the letters of the alihabet. "What's that ?" asked the master. " Harrer !" vociferated the urchin. " No, that's A." " Well, what's the next !" " Ox-yoke." "No, it's B,"

"Taint B, neither ! it's an ox-yoke ! Crotch all hemlock ! gosh a mighty ! think I dont know ? ---
