

THIRTY SECOND CONGRESS. Second Session.

Washington, Jan. 17.

SENATE.

Numerous memorials and petitions were presented and appropriately referred.

Mr. Seward, of New York, presented a memorial from Mr. Thomas Erbank asking the aid of government in bringing out and demonstrating his improvement in paddle wheels and propellers, by which vessels who make use of them can obtain a much greater speed.

Mr. Broadhead, of Pa., presented a petition signed by over seventeen hundred names, asking for the extension of the bounty land laws.

Mr. Hall asked leave to withdraw his resolution of inquiry relative to the conduct of Commodore Morgan, while in command of the Mediterranean squadron.

Mr. Miller, of New Jersey, offered a resolution of inquiry as to the expediency of appointing an associate justice of the Supreme Court for California.

After some little debate, the resolution was agreed to.

HOUSE.

The House met at the usual hour, and after the reading of the journal, &c., an attempt was made to get up the bill for the relief of widow of Gen. McNeil.

A bill was introduced by Mr. Dean for an appropriation for an equestrian statue to general Washington.

A discussion ensued, and a majority declared in favor of the equestrian statue, instead of the Roman.

The bill was then passed.

The bill to continue the half pay to certain widows and orphans was taken up.

WASHINGTON, JAN. 18TH.

SENATE.

The Senate met at the usual hour, and read the credentials of Samuel S. Phelps, of Vermont, and of William C. Phelps, of New York.

Mr. Phelps was sworn in and took his seat.

Several Executive communications were received.

Mr. Hamlin, of Maine, introduced a resolution of inquiry of the Secretary of the Treasury as to what alterations were necessary in the Revenue laws of the United States.

Mr. Houston reported from the Committee on Finance the House bill making an appropriation for the support of the U. S. military academy, with amendments.

The resolutions of Mr. Cass upon the Monroe doctrine were then taken up.

He also endeavored to show that the principle can be resorted to by the American government only when the same contingency arises.

Mr. Cass in a few words replied to the arguments advanced by Mr. Mason.

Mr. Cass said that President Monroe distinctly declared his opposition forever to foreign re-colonization of America.

It was true that Mr. Monroe applied the doctrine to a particular case, but the reason given in that case, would apply in all, time to come.

HOUSE.

After reading the Journal, &c., the struggle for the New York Milk bill was renewed.

Mr. Brooks, of New York, withdrew his appeal from the decision of the chair last evening and asked leave to explain the bill.

Mr. Florence, of Pa., objected.

Mr. Chandler, of Pa., spoke with some warmth against the bill when he was such urgent need of legislation upon more important business.

From the Concord (N. H.) Daily Patriot.

Gen. Pierce's Cabinet. It is not a little amusing to read the speculations of the newspapers in relation to the Cabinet of Gen. Pierce.

Some of the opposition papers are so very obliging as not only to establish the principles upon which the members of his Cabinets are to be selected, but even to name the individuals who are to be recommended.

Mr. Hall asked leave to withdraw his resolution of inquiry relative to the conduct of Commodore Morgan, while in command of the Mediterranean squadron.

Mr. Miller, of New Jersey, offered a resolution of inquiry as to the expediency of appointing an associate justice of the Supreme Court for California.

After some little debate, the resolution was agreed to.

The House met at the usual hour, and after the reading of the journal, &c., an attempt was made to get up the bill for the relief of widow of Gen. McNeil.

A bill was introduced by Mr. Dean for an appropriation for an equestrian statue to general Washington.

A discussion ensued, and a majority declared in favor of the equestrian statue, instead of the Roman.

The bill was then passed.

The bill to continue the half pay to certain widows and orphans was taken up.

After reading the Journal, &c., the struggle for the New York Milk bill was renewed.

Mr. Brooks, of New York, withdrew his appeal from the decision of the chair last evening and asked leave to explain the bill.

Mr. Florence, of Pa., objected.

Mr. Chandler, of Pa., spoke with some warmth against the bill when he was such urgent need of legislation upon more important business.

Mr. Briggs, of New York, urged upon the consideration of the House, the necessity for the measure, alluding to the expense incurred in the transportation of immense amounts of gold from New York to Philadelphia.

Mr. Chandler further opposed the measure.

Enormous yield of Corn. The following is the statement of Mr. Geo. Walker, of Susquehanna county, who took a premium of \$50 at the annual meeting of the Agricultural Society, last week, for the largest crop of corn, using 160 bushels of shelled corn to the acre.

We believe this never has been equaled in the United States. There were several other competitors, but 96 3/4 bushels to the acre, raised by John R. Bitzer, of Lancaster county, was the next highest, and 93 by John A. McRea, of White Marsh, Montgomery county was the next.

George Walker's mode of cultivation. He ploughed five acres of green sward, for the corn the beginning of May, and hauled one cord and a half of manure on the same.

After the manure was spread, the ground was well harrowed, and planted the last of May, in rows 3 feet apart, running north and south, and 3 feet apart in the rows, running east and west.

From three to five grains in the hill. Two bushels of lime, mixed with three bushels of plaster, was applied to said five acres very soon after it came up.

A plow did not enter the field after the corn was planted. The ground was kept loose and mellow, and the grass and weeds subdued by the use of the cultivator.

Such are some of the particulars upon this subject, and they seem to us to be reasonable, and such as will command the respect of the good sense of the Democracy of the country.

It is their desire and expectation that the administration of Gen. Pierce may be the most successful, brilliant and permanently advantageous to the country that we have ever had.

There is an English boy, never called still; wherein may be seen the industry, who is George Washington? And the paper goes to inform its readers that this George is an obnoxious militia man, who can't help meddling with matters that he does not understand, and who will soon be mercifully remanded to obscurity in a foreign land.

The Proposed Nicaragua Ship Canal Between the Atlantic and Pacific.

A company recently obtained a charter from the State of Nicaragua for a ship canal between the Atlantic and Pacific, via the river San Juan and Lake Nicaragua.

A report of the engineer who was appointed to survey the route has been made, and he estimates that a canal, 17 feet deep, 50 wide at the bottom, and 118 feet wide at the surface, and 194 miles long, would cost \$31,538,319.

This capacity is deemed wholly inadequate to pass the larger class of vessels, which have a draught from twenty to twenty-five feet.

To make the canal sufficiently large for all vessels, would cost \$100,000,000. The report, with a subsequent examination by British engineers, was submitted to British capitalists, and they unhesitatingly pronounced against the enterprise.

Notwithstanding this, the project is still being pushed through the canal, while allowing the whole of the European and American trade with the Pacific coast of both continents, and the Pacific Islands, to pass both ways through the canal.

Little if any, of the trade with the Orient would pass through the canal, as it is 1,500 miles nearer by way of the Cape of Good Hope.

Montrose Prices: Current. Corrected Weekly by M. C. Tyler.

Table with 3 columns: Commodity, Price per bushel, and Price per unit.

We take this method to express our many thanks to the generous friends who remembered us with their bounty on the 13th inst.

That they may never lack in temporal goods or gospel faith and strength, is the prayer of your humble servants.

A CARD. We take this method to express our many thanks to the generous friends who remembered us with their bounty on the 13th inst.
