The Stolen Kiss.

'Oh, quit—get out—now don't you—
I really wish you wouldn't;
Oh, quit—will you? Oh, get out—
You know you ought to, shouldn't.

'I'll cry now if you don't let me go—
I will, I'll declare I will—
Oh, quit, now—behave—get out—
Come, now, can't you be still?

'I'll get mad, now, it you don't—
I'll slap your jaws, you elf;
Pop—now take that—pop—and that,
And go and behave yourself.

'There, now, you've got it—oh, be still—
You shan't have any more,
You've got—oh, take your face away—
What no man's got before.

'Once more—there—that will do! Oh, don't,
You've rumpled up my hair—
If you'll but quit, I'll *give you one*—
Now take it—there—there—there."

Reciprocal Trade with Canada.

On Friday last, in the House of Representatives Mr. Seymour, of New York, Chairman of the Committee on Commerce, reported a Bill to establish reciprocal trade with the British North American Provinces on certain conditions. His Report was very lengthy and able. The *Herald* of Saturday gives it entire and remarking upon the subject says:

It recommends in the strongest manner, the adoption of a system of reciprocity in the trade between the United States and the British colonies in North America, and urges it with special reference, First—To trade of our great commercial cities. Second—The inland navigation and transit trade of the States bordering on the British provinces. Third—The agricultural interest. Fourth—The manufacturing interest. Fifth—The interests of the lake trade and the northwest, as connected with the free navigation of the river St. Lawrence. Sixth—The fisheries. Seventh—The revenue. This covers every important interest of the country, and every one is directly connected with the system proposed.—It would be difficult to tell which would be the most benefitted. Independent of advantages derived immediately from a beneficial trade with a country so intimately connected with the most densely populated portion of the Union, it would remove the numerous political differences and difficulties existing and preventing the creation of any new questions involving the two governments in disputes. It would do away entirely with the necessity for any more treaties, and place the policy of the two countries upon such a basis as would secure permanent peace to each. The committee have gone deeply into the merits of the various points at issue. It has presented a host of facts and figures to strengthen the position taken; and the reasoning is so sound, the conclusions so plausible and reasonable, the result so satisfactory, that it will without doubt become the most popular public movement of the day.

The mercantile interest is deeply indebted to Mr Seymour, the Chairman of the Committee on Commerce, for this able and important report. It must attract great attention abroad. It conveys, throughout, such a spirit of liberality, of concession—such a disposition to reciprocate, to the fullest extent, in all commercial intercourse between American ports and those of British North America, that it cannot fail to receive the warmest support in Great Britain. We offer everything that can be desired. We break down all barriers, all obstructions to trade, wipe out all lines of separation or distinction, and leave the vessels of each nation free to go and come—free to act in any peaceable way—without restraint or restriction. This is free trade—this is reciprocity—but it is not in advance of the age. It is a matter of necessity. The geographical position of the countries immediately concerned in this matter requires such a system, and they must have it.

Important Announcement.

Marrisburg, Jan 29th.

The negotiations that have been for some weeks pending between the Pennsylvania Railroad Company and Messrs. Bingham & Dock in reference to the passenger carriage on the Columbia Railroad, were brought to a successful termination to-day, and the settlement thus effected, of the hitherto existing difficulty, cannot fail to result advantageously, not only to the interests of Philadelphia but the State at large. Under the contract entered into by the Pennsylvania Railroad Company and Messrs. Bingham & Dock, the latter gives up the control of all the passenger trains running in connection with those of the Pennsylvania Railroad Company, over the Columbia Railroad to that company. Messrs. Bingham & Dock will, under the arrangement, act as local agents at Philadelphia.

INSANE THROUGH EXCESSIVE JOY.—A writer describing the Lunatic Asylum at Blackwell's Island, says: "Here is a woman whom joy has deprived of her senses. Her husband and child were on board a vessel which was wrecked. Going down to the shore every day, as if with the view of being nearer the beloved objects that lay buried beneath the sea, suddenly she beheld them landing from a vessel which had picked them up and saved them.—An overwhelming flood of joy pervaded her bosom, and then reason was gone forever.—She never has known them since, but sits on what she thinks the same rock, where she used to await their late, wringing her hands, and "mourning most piteously; while every week the husband and son come and gaze on her from afar, in hope to rouse one gleam of memory, but in vain."

Interest, wisely applied, readily directed to some leading pursuit is the source of all distinction.

HOW TABLES ARE MADE MEDIUMS.—In the family of a friend of ours, several attempts have been made to divine the secret of table moving, chair-dancing, and other freaks of household furniture, which form part of the spirit-rapping exhibitions. Last evening they succeeded perfectly. Standing around a small table, five or six members of the family kept their hands upon its surface for a considerable time, until the magnetic current between themselves and the table was established.

They then found that by holding the hand a short distance from the table, attraction remained in full force. The table without being touched, was thus lifted, or made to lean over at an angle of forty-five degrees, and subsequently followed the operators to some distance.

The table on which the young people experimented was a very small one. We presume that when the experiment has been a few times repeated, the table will yield to the attractive force, with more ready and wonderful agility. There can be no doubt that it is magnetized, and if so, each trial we believe will increase the power of attraction. This we take it, solves the whole seeming mystery of the "spiritual" imposition which has been practiced so long upon the credulous and superstitious.

The moving of tables by an unseen power has always been accounted a greater feat than the producing of sound. We have no doubt the same agent can produce both effects. The imposture consists in the pretence to supernatural intercommunications. We hope soon to hear that the key being discovered, the whole imposition has come to an end. Of the boldness of the imposture we have had and have given illustrations: and probably the rappers will find some dupes even in spite of evidence of their fraud.—*N. Y. Commercial Advertiser.*

DEATH OF MRS. MARTHA MARTIN DOUGLAS.—Yesterday's announcement of the decease of this excellent lady, the wife of the Hon. Stephen A. Douglass, was too brief to express on our part, who were well acquainted with her amiable character, our deep sense of the extent of the loss involved in the mournful event Seldom, indeed, has death invaded the family circle with more heart-rendering effect, or left a more desolate hearth than in the instance here recorded. All this community in which she has resided for several years, has rarely had cause for deeper sorrow. Mrs. Douglass, the last surviving child of the late Col. Robert Martin, of Rockingham county, North Carolina, was married in April, 1847, and did at the residence of her husband, in this city, on the 19th inst., in the 24th year of her age.

Largely endowed by nature, highly educated and accomplished, and possessing in an eminent degree all the amiable and lovely attributes of her sex, greatly admired in society, and beloved and idolized at home. Of her it is no exaggeration to say, that

"None knew her but to love her,
Or named her but to praise."

She has left to mourn her loss and aged and bereaved mother, a heart-stricken and disconsolate husband, and three infant children whose tender years alone conceal from them their irreparable loss.—*Wash Union.*

Population of the Globe.—The population of the globe is supposed to be less than one thousand millions—936,000,000. A French writer, alluding to the subject says:

If all of mankind were collected in one place every four individuals occupying a square metre, the whole might be contained in a field ten miles square. Thus, generally speaking the population of a country might be packed, without squeezing, in its capital. But the mean idea this gives us of the number of the human race, is counterbalanced by its capitability of extension. The new world is said to contain of productive land 4,000,000 square miles of middling quality, each capable of supporting 200 inhabitants; and 6,000,000 of a better quality, capable of supporting 500 persons. According to this calculation, the population of the new world as peace and civilization advances may attain to the extension of 4,000,000,000. If we suppose the surface of the old world to be double that of America (and notwithstanding the comparative poverty of the land, this calculation may be accepted, if we say nothing of Australia and the various archipelagoes,) it would support 8,000,000,000; and thus the aggregate population of the entire globe might amount to 12,000,000,000 or to twelve times the present number.

COUNTERFEIT DETECTOR.—A paper for more reflection, Sibbet's counterfeit Detector, has been placed on our table. It is an excellent number, but one would suppose, to glance over its pages, that counterfit notes were about as numerous as the genuine. Should the present banking system continue, we presume there soon will be a necessity for a new learned profession.—Every town or city will have offices where, by paying one half per cent., you can ascertain what kind of money you have. This will be as valuable a share to the community as that now imposed on Ohio and Kentucky bills. The counterfeit detector is becoming somewhat voluminous, and will have to be used until the new profession commences operations. It is accompanied by Kennedy's *fac simile* of bank notes a valuable work.—*Essex*

ANOTHER DEATH FROM BURNING FLUID.—A little girl, scarcely two years of age, was killed one evening last week in Suffield, by the explosion of one of the Camphine or burning fluid lamps which are now so generally in use. The mother of the child had temporarily left it in charge of a sister some five years old. The lamp had but one wick, the other having fallen through the tube, and thus left a place for the fluid to run out if the lamp were handled carelessly. The elder child in endeavoring to light it, brought the lamp in proximity with the flame and vapor of gas arising from the fluid, which at once took fire, blowing the lamp to pieces, and shockingly burning the face of the little girl. She lived three or four days after the accident.—*Syracuse Star.*

Real difficulties are the best cures of imaginary ones: because God helps us in the first ones, and so makes us ashamed of the others.

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, Provost street, Liverpool, dated 6th June, 1851.

To Professor Holloway—Sir:—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however the virulence of the attack was so alarming, and the inflamation rose to so severe a height, doubts were entertained of her life being able to beat up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health! I could have sent you many more cases but the above were from the *severity of the attack*, and the *speedy* cure, I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND

Copy of a Letter inserted in the Hobart Town Courier of the 1st March, 1851, by Major J. Welch.

Margaret M'Connican, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs, during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's Pills, which she consented to do, and in an incredible short space of time the effect of a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Teen & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement,—August 21 1851.

To Professor Holloway.—*Sir*—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

(Signed) HENRY COE, Northgate, Lynn, Norfolk.

WONDERFUL EFFECT OF HOLLOWAY'S PILLS IN CASE OF DROPSY.

Persons suffering from Dropsy, either about the turn of life, or at other times, should immediately have recourse to these Pills, as hundreds of persons are annually cured, by their use, of this direful complaint in its different stages, when all other means had failed.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague, Asthma, Bilious Complaints, Blotches on the Skin, Bowel Complaints, Colics, Constipation of the Bowels, Consumption, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Inflamation, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Retention of Urine, Sore Throats, or Sore Throats, Stone and Gravel, Secondary Symptoms, Tic Doloureux, Tumors, Ulcers, Venereal Affections, Worms of all kinds, Weakness from whatever cause &c

Sold at the Establishment of Professor Holloway, 224, Strand, (near Temple Bar, London,) and by all respectable Druggists and Dealers in Medicines throughout the British Empire, & of the United States, in Boxes at 37½c., 87c., and $1.45 each. Wanted by the principal Depot in the Union; by Messrs. A. B. & D. Sands, New York; and by Mr. C. D. Knight, 7 South 6 st., Philadelphia.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box. 6y1

Binghamton, Nov. 18, 1851. A. J. EVANS.

MOUNT PROSPECT
WATER CURE AND INSTITUTE,
BINGHAMTON, N. Y.

THIS institution is located in a beautiful and romantic grove at the base of Mount Prospect, and within the corporation of the village; possessed of an abundant supply of *purest soft water*, advantages for exercise in the pure air, a carriage and foot walk up the mountain, overlooking a scenery unsurpassed in beauty and grandeur, and free from the noise and turmoil of busy life," with excellent sailing and rowing privileges on the pleasant waters of the Chenango.—These are a few of the presentation the "Cure" offers to the invalid.

The house is new and commodious—bathing apparatus excellent—well ventilated, with 230 feet piazza.

The medical department is under the entire care of Dr. Thayre and wife, who have had large experience in Hydropathic practice, and are favorably known as successful practitioners.

Courses of Lectures, with full plates and illustrations, will be given throughout the season to the Students and Patients, upon Anatomy, Physiology, Hydropathy and Hygiene, for which there will be no additional charge.

Females who have been confined to their beds for years, are invited to correspond with us or give us a call. Our success in the treatment of diseases peculiar to females, has given us confidence, and we say to all such, even if they have suffered much from many physicians," make one more trial.

Terms from $1 to $3 per week, (payable weekly,) according to room and attention required. Patients will provide for personal use 2 comfortables, 2 blankets, 3 linen or cotton sheets and 6 towels.

O V. THAYRE, M. D.,
Resident Physician.

(19tf D. W. & H. M. RANNEY, Proprietors

DR. E. CHAIN, GERMAN PHYSICIAN, takes this method of informing his friends and the public in general that he has removed to Harrord from California, and located in the village of Owego, County of Tioga, and has established a permanent office on Lake street, over L. P. Fitch's new brick store, and is ready to attend to any business in the line of his profession.

He is superior in the following at a correct diagnosis in diseases, and is unsurpassed in treating the various diseases incidental to the human system, more especially those of an acute, subacute, chronic, or complicated character, are all that is necessary for him to offer the invalids and diseased of every character to entitle him to the confidence of a discriminating public.—For the benefit of those unacquainted with his method of practice he would say that he describes disease by a chemical and microscopical examination of the urine.

Persons may send or bring their Urine in a clean (at least two ounce) vial, the first in the morning is preferred, and as a record is kept of all the cases examined the name and age of the patient are also required. No exception is made for examining a case where no medicine is taken.

His medicines are principally selected from the vegetable Kingdom, and are administered according to the German HOMŒOPATHIC PRACTICE.

He would also state that he has at last made an important discovery in relation to curing all cases of calculous orders, or gravel. This is a liquid deposition and may consist of crystalline grains, of a gritty, harsh feel, but not distinctly visible upon a close examination; or it may consist in irregular shaped transparent concretions, as fibrin, large to be readily distinguished by the eye, and denominated tubeuli.

The preparation that he has introduced is capable of dissolving and holding in a union calculous, or lateritious concretions, which is the source of irritation and very often excessive inflamation of the Urinary organs, and thereby allowing the same to escape.

References can be had as to cures from persons living in all the Western counties of the State of New York; Pennsylvania, Michigan, &c., who have been given up to die by the most skilful Physicians, but log of him and availing themselves of his skill, have been restored to good health. The great German remedies for Female obstructions, Worms, Croup and Dysentery, may always be found at the office. ELIAS E. CHAIN, M. D.,

Owego, January 1, 1852—ly2nd

ENGLISH HUNTING WATCHES.—The subscriber has this day received another lot of English Patent Lever Watches, Hunting Cases, for sale very low. ALFRED J. EVANS, Binghamton, July 30. Odd Fellows' Hall.

Lumber for Sale.

PINE, Hemlock, Bass-wood, Maple and Ash Lumber, also Shingles, for sale by

ABEL TURRELL.

ST. JOSEPH'S COLLEGE.
SUSQUEHANNA COUNTY, PA.

THIS Institution is situated in the most healthful and picturesque part of Susquehanna county, in the Choconut Valley. A stage leaving Montrose twice on the Lackawanna Railroad and connecting with the cars going North and the Railroad at Great Bend, at a distance of six miles therefrom, passes the Institution daily. The distance between the Depot and the Institution is fifteen miles, one half of which is by Plank Road. It is also equally distant from Binghamton on the New York and Erie Railroad, and connected with it for half the distance by a Plank road.

The regular courses of instruction comprises the English, French, Latin and Greek languages, including History, Geography, Book-keeping, Logic, Rhetoric, Natural and Moral Philosophy and Chemistry. Care will be taken to adopt the course of instruction to the future pursuit or profession of the student.

The collegiate year begins on the first Monday of September, and ends on the 15th of July.

TERMS.

The annual pension for Board and Tuition, payable half yearly in advance, is $100

The modern Languages, German, Spanish and Italian, will form an extra charge, each per annum. $15

Books, Stationery and Medical attendance, will form extra charges.

Washing and mending will form an extra charge, per annum. $8

It is to be understood with the student to furnish himself with bed and bedding. If furnished by the institution it will form an extra charge, per annum $8

Day scholars for six months. $15

Semi annual bulletins will be sent to parents or guardians informing them of the health, progress and deportment of their children or wards.

Those who may desire to have their bed and bedding furnished by the Institution, are requested to send previous notice of the fact to either of the undersigned.

Those who intend coming by the way of Binghamton are requested to give previous notice of their purpose, that they may be conveyed to the College without delay.

☞ All communications relative to the College should be addressed, St. Joseph's Post Office, Susquehanna county, Pa

REV. JOHN V. O'REILLEY, President.

REV. HENRY FITZSIMMONS, Vice-President.

Reference.—Calvin Carmalt, Esq., Choconut; Hon. G. A. Grow, Glenwood; Hon. D. Wilmot, Ward, Esq., Old Bard, Towanda. 37n6*

FIFTY dollars forfeit. Dr. Hunter will forfeit $50 if failing to cure any case of sexual disease that may come under his care, no matter how long standing or *flicting* either sex are invited to his Private Rooms, 38 North Seventh st. Phila., without fear of interruption from other patients. Strangers and others who have been unfortunate in the selection of a Physician are invited to call.

IMPOTENCY—Through unrestrained indulgence of the passions, by excess of self abuse, the evils are numerous. Premature imbecility, involuntary seminal discharges wasting of the organs, loss of memory, a distaste for female society, general debility or constitutional derangement, are sure to follow. If necessary, consult the Doctor with confidence, he offers a perfect cure.

READ AND REFLECT—The afflicted would do well to reflect before resulting their health, happiness, and immediate welfare in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and it is that he devotes most of his time and study.

YEARS OF PRACTICE exclusively devoted to the study and treatment of diseases of the sexual organs together with others upon the body, throat, nose, or legs, pains in the head or bones, mercurial rheumatism, strictures, gravel, bronchitis, coughs, consumption, scrofula, leprosy or impurities of the blood, whereby the constitution has become enfeebled, enables the Doctor to offer speedy relief to all who may place themselves under his care.

Medicine forwarded to any part of the United States.—Price five and ten dollars per package. -30y1

Liver Complaint.

Jaundice. Dyspepsia. Chronic or Nervous Debility. Diseases of the Kidneys.

AND all diseases arising from a disordered liver or stomach such as constipation, inward piles, fullness or blood to the head, acidity of the stomach, nausea, heart burn, disgust for food, fulness or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried or difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency of perspiration, yellowness of the skin and eyes, pain in the side, back, chest, limbs &c., sudden flushes of heat, burning in the flesh, constant imagining of evil, and great depression of spirits, can be effectually cured by

Dr. Hoofland's celebrated German Bitters.

Prepared by Dr. C. M. Jackson, at the German Medicine store, 120 Arch street Philadelphia

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States as many can testify, in many cases after skilful physicians had failed.

These bitters are worthy the attention of invalids—Possessing great virtues in the restoration of diseases of the liver and digestive organs, exerting the most searching power in weakness and affection of the digestive organs, they are withal, safe, certain, and pleasant.

Read and be Convinced.

The Editor of the Boston Bee said, December 22d—

Dr. Hoofland's Celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic, or Nervous debility, is deservedly one of the most popular medicines of the day. These bitters have been used by thousands, and in fact in every case in which he has seen or received an effectual and perman ent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomach, with safety under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

Scott's Weekly, one of the best literary papers published, said, August 25th—

"*Dr. Hoofland's German Bitters*, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the medical faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thereby save themselves from the misery of sons of debilitated constitutions will find these bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

More Evidence.

The Philadelphia Saturday Gazette, the best family paper published in the United States, says of Dr. Hoofland's German Bitters:

"It is seldom that we recommend any of the so called Patent Medicines to the confidence and patronage of our readers, and therefore when we do speak highly of any, they are almost always worthy of notice. Dr. Hoofland's German Bitters we wish to be distinctly understood as not being one of the many quack nostrums of the day, but are those long established, universally approved, and which has met the hearty approval of the faculty itself.

Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper and his name blown in the bottle, without which they are spurious.

For sale, wholesale and retail, at the *German Medicine Store*, No. 120, Arch street, one door below Sixth, Philadelphia, and by respectable dealers generally throughout the country.

☞ Country merchants can always obtain a supply of these medicines at the proprietor's wholesale prices.

Also for sale by ABEL TURRELL, Druggist, Montrose, Penn'a. 7y1

$500 CHALLENGE.

WHATEVER concerns the health and happiness of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that *Worms*, according to the opinion of the most celebrated physicians, are the primary cause of a large majority of diseases to which children are liable, if you have an appetite constantly changeable from one kind of food to another, bad breath, pain in the stomach, picking at the nose, heaviness and fulness of the belly, dry cough, low fever, pulse irregular, remember that all these denote *Worms* and you should at once apply the remedy

HOBENSACK'S WORM SYRUP,

An article found upon scientific principles, compounded with pure vegetable substance, acting perfectly sure when taken, and determined in all its effects, and not leaving the system in a diseased condition as most advertised nostrums for the removal of worms, composed of calomel, such as Lozenges, Vermifuges, &c.; but has performed the most astonishing cures on many of the wives and children of our most worthy citizens, who have been pronounced hopeless. Incurable, by physicians. Read the following and become convicted of its efficacy over all others:

Morris River, N. J., Aug. 13, 1851.

Mr. J. N. Hobensack—This is to certify that my child, 15 years of age, having been sick for three years, was attended for a disease of the spine by Drs. Lopez, Ogilby, and Phisler for a long time without receiving any benefit. After giving her up as incurable, I went to Philadelphia and consulted one of the best physicians, her disease still growing worse. It was at this time I was induced to try Hobensack's Worm Syrup, and after taking two bottles she entirely regained her health, after passing a great quantity of worms. Hoping this will be of benefit to parents whose children are similarly affected, I am yours, &c. R. BROWN.

HOBENSACK'S LIVER PILLS.

No part of the system is more liable to disease than the liver, it serving as a filter to purify the blood, or giving the proper separation and secretion to the bile so that any wrong action of the liver affects the other important parts of the system and results variously in Liver Complaints, Jaudice, Dyspepsia, Fevers, &c. We should therefore watch every symptom that might indicate a wrong action of the liver. These Pills being composed of roots and plants, furnished by nature to heal the sick, namely: Leptandrin or Culver root, which augments the secretion from the pulmonary mucous membrane, or promotes the discharge of the fecal matter. Blue Flag, an alterative which changes in some inexplicable and inexplicable manner, the certain morbid actions of the system. 3d. as a Tonic, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th. a Cathartic, which acts in perfect harmony with the other ingredients by operating on the bowels and expelling the whole mass of corruption, and vitiated matter, and purifying the blood, which destroys disease and retards health.

Prepared at Hobensack's Laboratory, Philadelphia, corner 4th and George st. Price 25 cents. For sale by the principal Druggists and stores generally throughout the country. By agent Ashbury Ward, Philadelphia.
