Omer Pasha has only crossed the Danube with a force amounting altogether to 36,000. The former is abundantly supplied with horse and artillery, and the nature of the ground is peculiarly favorable for effective movements of cavalry. Omer Pasha has no horse to speak of A similar disproportion exists, if we man

take not, between the contending armies in Asia. In point of zeal and ardor the Turks may have the advantage; but in numbers discipline, and equipments, the Russians are manifestly their superiors. Nor must it be for gotten that the Russian troops actually engag. ed in the present conflicts are mere detach. ments from the standing army of the Czar: that he could double them at a moment's warning; that he runs no risk of lacking money or supplies, that his army is in excellent training and discipline; while, on the other. hand, the Turks are straitened for means, must have drawn heavily on their people for the present levies, and, whatever may be said of their courage, have as yet carned no claim to distinction for military skill.

These considerations give peculiar signifi a recourse to arms, to compel the Ottoman from it reparation for its offences." Takenin conjunction with the facts we have related, this manifesto would seem to close the door,

From other quarters, we learn that Nicholas is taking measures to countercheck Englands unticipated interference in the quarrel. A remor had been telegraphed in advance of the India mail, to the effect that an alliance had been formed between the Czar, the indomits ble Dost Mahomed; and the King of Persia, to oppose Turkey, and of course to threaten the British possession in India. The news

Our readers have now before them the leading facts of the intelligence received last evening—intelligence more important, proba-bly, than has been sent over the telegraph wires since the French revolution of 1848— Should it be confirmed—as there is little doubt it will—the Czar Nicholas will stand in the position of a man who desires and intends to set not only Europe, but all Asia, in a blaze of war. It is utterly impossible to speculate on the extent to which the confligration will reach, or the stupendous revolutions it may effect ere it is quenched.

What attitude these new events may compel France and England to assume, we me left to conjecture. A menacing movement against the British possession in Asia would both France and England have all along hitherto dictated a neutral attitude; it remains to be seen whether Russian ambition or French love of martial glory will compel them to

The New Orleans Picayune has re then shot him in the thigh, which brough him down, and in that position Dr. Steiner shot him twice in the breast, making four shots has already been published in the Star on the subject.-Washington Star.

EXPENSIVE GARMENT: The Journal of comnerco states that a Russian gentleman reding in New York, had occasioned, not long since, to bring to this country his overcost, which was lined with sable, agreeably to Rosaian custom, and the duty assessed on it monated to \$700—the garment having been appraised at something like \$3000.

We do not know of any thing painful, so full of sorrow and regret, so over-flowing with unfathomable love, as the last look which an alderman gives a haunch of venison, just as it is carried away.
