upon a field full of the promises of success and usefulness. In conclusion he offered the usual resolutions of respect and condolence.

Messrs. Dawson, Straub, and others, spoke in reference to the sad event.

The resolutions were then adopted, and a committee of four appointed to accompany the remains to Reading.

The House then adjourned.

HOUSE.—*Jan.* 11.—The House after some limited unimportant business resumed the consideration of the joint resolutions of Mr. Dean, tendering the thanks of Congress to Capt. Ingraham for his gallant conduct at Smyrna, and directing some suitable testimonial to be prepared under the direction of the President for presentation to him.

Mr. Phillips moved an amedment to strike out the words, "in extending the protection of the American Government to Martin Koszta," and inserting, "in vindicating the right of Martin Koszta to American protection."

Mr. Perkins said the friends of Captain Ingraham must be gratified that there was not a dissenting voice in the House as to the propriety of the gallant conduct of that officer in rescuing Martin Koszta.

Mr. Clingham then moved the previous question and it was ordered to be put.

The question being on the motion to commit the resolutions to the Committee of the Whole, on the state of the Union, it was disagreed to—yeas, 30, nays 153.

The question then being taken on the amendment of Mr. Barry, inserting certain words after the name of Koszta, it was rejected.

The substitute of the Committee on Foreign affairs for the original resolution was then adopted, and the joint resolution as amended passed jointly—yeas 174, nays 9.

The committee on printing reported in favor printing 50,000 copies of the compendium of the census to be prepared.

SENATE, Jan. 12.—The journal of yesterday was read and approved.

On motion of Mr. Badger, it was ordered that when the Senate adjourn, it adjourn until Monday.

Mr. Weller gave notice of his intention to introduce a bill providing for the establishment of a semi-monthly mail between New York and San Francisco, via Nicaragua.

Mr. Bell submitted a resolution, which was adopted, instructing the Committee on Foreign Affairs to inquire into the alleged imprisonment of American seamen on the coast of Chili.

The joint resolutions from the House, tendering the thanks of Congress to Captain Duncan N. Ingraham, and directing the presentation of a sword to him for his gallant conduct at Smyrna, were received, and reffered to the Committee on Foreign Affairs.

The Senate then resumed the consideration of the motion submitted by Mr. Cass on Thursday, the 5th inst., to refer to the Committee on Foreign Relations, the message of the President received on the 3d inst., communicating in compliance with the resolution of the Senate of December 12, 1853, the correspondence which had taken place with the British Government on subjects growing out of the treaty of Washington of July 4th, 1850, since the message of the President of December 30, 1852.

The Senate adjourned until Monday.

HOUSE.—After some little unimportant business, the House resumed the consideration of the report of the Committee on Printing in favor of printing fifty thousand copies of a compendium of the census to be prepared by the present Superintendent, provided it shall be printed in royal octavo form, and not exceed four hundred pages.

Mr. Meachem moved an amendment, providing for one hundred thousand copies.—He said, the census information had been collected at a cost of one million and a half of dollars in the large book form, which not one person in a thousand can see. He therefore wished to give the proposed compendium the largest circulation.

Mr. Florence said he was always in favor of presenting to the people in the most diffuse manner possible, all information of interest to them. He regarded the census returns as information of the most valuable character and wondered at the accuracy that has been attained, in view of the fact that the Deputy Marshals had been appointed chiefly with reference to their political sentiments and affinities. He should especially view as unnecessary any change in the superintendent report of the census.

The amendment was then adopted—yeas, 114, nays 64.

Mr. Houston, from the Committee on Ways and Means, reported back the Senate bill making the Secretary of the Senate a disbursing officer, with a recommendation to strike out all the parts excepting that confirming the simple authority proposed.

The clauses increasing the pay of the Secretary of the Senate $1000 per annum, and providing for auditing of his accounts by the Committee of the Senate, were the parts stricken out.

The bill was discussed at length, and the amendments of the committee generally agreed to.

The bill then passed finally—yeas 113, nays 59.

The House then adjourned.

SENATE—*Jan.* 13.—The Senate isnot in session to-day, having adjourned over until Monday.

HOUSE.—The House met at 12 o'clock, when a number of memorials, &c., were presented, and several unimportant bills introduced.

Mr. Latham, from the Committee on Public Lands, reported a bill extending until March 1855, the act to ascertain and settle private land claims in California. He said that the commission was appointed in the Spring, of 1851, but was not organized till Jan. 1852, between 800 and 900 claims have been held, embracing a million acres of land in California. The Commission have disposed of about 200 cases, 200 cases have been argued and submitted to the Board, but remain undecided. It was desirable the bill should be passed at once, to prevent loss to the Government and to claimants.

The bill was passed.

Mr. Cutting, from the Committee on the judiciary, reported a bill to secure the rights of citizenship to children of citizens of the United States, born in foreign countries.—The bill being before the House it was discussed at some length and finally passed.

The House then went again into Committee of the Whole, and resumed the consideration of the resolution for the reference to the appropriate committees of the several parts of the President's message.

The Committee then rose.

The Senate bill changing the mode of the appointment of the Assistant Secretary of the Treasury, was taken up and debated at length.

The substitute heretofore submitted, making the provisions of the bill applicable only to appointments hereafter to be made, was adopted—yeas 96, nays 70.

The question then recurring on the bill as amended, it was negatived—yeas, 70 nays 107.

A motion was then made to reconsider the vote, but the motion was finally laid upon the table.

The House then adjourned until Monday.

Small pox is prevailing in New York City.

News by Telegraph.

BOSTON, Jan. 14,

The *Halifax Chronicle* gives a few brief details of the loss of the ill-fated Staffordshire. Mr. Alden, the chief mate, and the steward, had reached Halifax. They were badly frostbitten. In the gale a day previous to the wrecking, the Staffordshire lost foretopmast, foreyard, and sprung bow-sprit. Captain Richardson had dislocated his ancle, but was on deck giving orders when the ship struck.

In ten minutes after striking the ship went down. When the boats left the ship the water was even with the upper deck. Captain Richardson, when urged to save himself, refused to leave the ship, saying that if it was the will of heaven that she should sink, he would not desert his passengers. One hundred and seventy-five persons went down in the ship. The survivors rowed seventeen miles to land.

BALTIMORE, Jan. 14.

The steamer Georgia, from Baltimore, on Thursday night, in the Bay, ran into and sunk a brig from Newfoundland, bound to this port—name not known. The crew were saved.

ASHTABULA, Jan. 13.

Both U. S. Marshals have been arrested for trespass in arresting Erie citizens; they both refused to give bail, and are now in jail.—Work on bridges suspended.

ERIE, Jan. 13.

The Railroad Company have nearly completed the laying of the track in the city today, and it was intended to run the four feet ten cars to Harbor Creek break to-morrow. About 3 o'clock a message was received from the Council of the city to issue a warrant for trespass against the Marshal and his deputies for the arrests that had been made, and held them to bail in each case.

This was done and the Marshal and two deputies were arrested—the others escaping for the time being. They were brought before the Clerk of the Council, and refusing to give bail, were committed to jail. A writ of *habeas corpus* was granted by Judge Sterrett and they were taken out and gave bail for $5,000 in each case, amounting to $20,000. They left in the evening train for Pittsburgh.

The workmen were notified by the High Constable to leave their work, and did—so things remain at present.

WRECK OF A MISSISSIPPI STEAMER—FIFTEEN LIVES LOST.

CINCINNATI, Jan. 14. 1854.

Memphis papers report that the steamer General Bem, bound from this city to Arkansas river, struck a snag in the Mississippi river, at Grand Cut Off, and was torn to atoms in five minutes. She sank to her hurricane deck, when the whole cabin floated off, leaving the hull with fifteen deck passengers below the surface of the water, all of whom perished. The cabin passengers and crew were fortunately rescued by the steamer Saranac.

ACCIDENT ON THE HARLEM RAILROAD.

Two Employers killed—Passenger's leg broken.

CROTON FALLS, Jan. 16, 1854.

About 11 o'clock this morning, near the Whitlock station, a flange of the forward truck of the express train from New York broke and the engine ran off the track, taking with it the baggage car. James Baird, the engineer, and the fireman, were instantly killed, and some of the passengers in the baggage car were injured, amongst them Lewis Griffin, of New York, who had his leg broken.

The passenger cars kept on the track and ran some distance after the disaster. No one in them was hurt.

WASHINGTON, Monday, Jan. 16, 1854.

Gen. WALBRIDGE Carried a resolution thro' the house to-day, thanking the Captains who saved the passengers from the wreck of the steamship San Francisco.

The following despatch from A. G. Sloo, dated New Orleans, Jan. 15, has been received here:

"Mr. Gadsend started for Washington yesterday with his treaty. The Garay Grant is settled."

It is supposed that Sloo's friends have compromised with Garay and Hargous.

BROWN has been elected to the Senate from Mississippi by an overwhelming majority. Gen. Foor received a letter this evening announcing the result.

The report that Secretary Guthrie has sent in his resignation, is an unadulterated humbug.

The funeral of Lieut. Davis took place from St. Patrick's Church this morning, and was attended by a large assemblage, including the Secretary of the Navy, and many officers of the Navy in undress uniform.

The rumors of Cabinet changes are entirely premature.

Mr. Gadsden's Treaty with Mexico, if such as represented, will encounter strong opposition. Gen. Houston declares he will not pay a farthing for the Mesilla, Valley, it being ours already.

The San Francisco.

Further inquiry concerning this ill-fated steam ship has elecited the following facts:

1. She was entirely chartered by the Government for the voyage, so that the owners had no interest in the amount of her cargo except to see that she was not overloaded.—Half a cargo paid them just as much as a full one.

2. Her entire freight-list consisted of 3,500 barrels of Government stores, which could not have weighed over 1,000 tuns, and probably weighed less. Besides this, she carried 800 persons, (mainly United States troops, with their arms and baggage,) and her coal. Estimating them at 500 pounds per head, (which seems large,) they add but 200 tuns to her burden.

3. She had 750 tuns of coal on board when she started, which was considered by her owners barely sufficient to carry her, not to Valparaiso but to Rio Janeiro, the nearest practicable port, at which coal could be procured. There 700 tuns had been sent to await her, and a like or larger amount to Valparaiso. She was chartered to stop at Rio Janeiro, Valparaiso, Acapulco, for coal. The direction to the engineer to drive her but eight revolutions per minute was given with a view to the fact that her coal was considered barely sufficient to last her to Rio—too little if she were driven rapidly.

4. Counting everything she carried, she would seem to have had but 1,750 tuns.—Her rated capacity was 2,500 tuns. We think these facts exonerate the owners from blame with respect to her loading and general management. As to her model, we are not convinced that it was a good one. Good judges have pronounced her too square behind, while others declare that she was quite sharp there. So with regard to her draft of water. We are assured that it was but little over sixteen feet at the bow and less than fifteen at the stern, which, for a vessel twenty-five feet deep, was not unusual. Of course, the judgment that her guards were within two feet of the water when she left our harbor was erroneous.—*Tribune.*

FROM EUROPE.

Arrival of the Baltic &c.

NEW YORK, Jan. 12.

The United States Mail Steamship Baltic, from Liverpool, with dates to the 28th of December, arrived at her wharf this evening, at 7 1-2 o' clock, after a passage of 15 days.

Her news is four days later than our last previous advices, and in some respects is highly important.

The Liverpool Cotton market closed very firm on the 27th, the sales of the previous three days having been 18,500 bales.

There had been a further advance in Breadstuffs, and Flour was active at 37s a 38s 6d for Philadelphia, Baltimore and Western Canal.

The demand for Wheat was active, and prices had further advanced, 2d per 70 lbs. Corn had advanced from 6d to 1s.

The London Money market was steady. Consols had further advanced, and closed at 94 1-2.

ENGLAND

The leading item of news from England, is the resumption, by Lord Palmerston of his seat in the cabinet. The step is regarded as likely to have an important bearing on the affairs in the East.

The latest advices from Constantinople and Vienna, represent the aspect of affairs between Russia and Turkey to be very serious, though the occurrences of the last few days indicate little progress on the part of the hostile armies.

All efforts at negotian have thus far proved unavailing. The Sultan, however, it is stated in a Vienna dispatch to Paris, has indicated a willingness to send a plenipotentiary to the conference of the four Powers, provided that Russia first evacuates the Principalities.

The Czar on the other hand, has stated his fixed determination not to agree to any proposals for peaceful negotiations, unless material concessions from the Turkish Government be first obtained.

Several further skirmishes are reported on the line of the Danube, but little advantage had been gained on either side.

It is reported that the demand for the combined fleets of England and France to enter the Black Sea has been refused.

Board of Canal Commissioners.

Hon. Thomas H. Forsyth, newly elected Canal Commissioner, entered upon the discharge of his duties on the 10th inst. The Board consisting of Messrs. Clover, Hopkins and Forsyth, organized on the said day by the appointment of Gen. Seth Clover as President, and Thomas L. Wilson as Secretary.

Wm. T. Morison, Esq., the late President of the Board, has, during his official term earned a high reputation as an able, faithful and courteous officer, and carries into his retirement the best wishes of a large circle of friends for his future prosperity. On Monday last, his colleagues passed the following resolution, which was not intended as an unmeaning compliment:

Resolved, That the thanks of the junior members of the Board are due to the Hon. Wm. T. Morrison for the kind and gentlemanly manner in which he has discharged the duties of President of the Board, and that he carries with him into his retirement their best wishes for his future health and prosperity.

The Artist's Greeting.

Friends, Patrons, and Everybody, another mile stone has been reached on the journey of life—another degree has been marked on the scale of time—another link has been severed from the chain of the future—another page has been written in the great volume of the past—and again we witness the bright opening of a New Year:

And at its early dawn we meet you,
And with a "happy new year" greet you.

And now, as you review the year just departed, and dwell upon its joys and sorrows—its privileges enjoyed, and its duties neglected; perchance, some of you have neglected to call on the Artist and secure one of those "*Faithful Shadows*"

Which light and art, with magical spell,
By working together, can catch so well!

But you may yet redeem the past. As you lay your plans for the advancing year, let *this* occupy an early and prominent place on the programme of your future intentions.

Would you leave *a lasting impression* behind you? Come to the Daguerrean Gallery! Would you "see yourselves as others see you?" Come to the Daguerrean Gallery. Would you make an appropriate present to a cherished friend? Come to the Picture Rooms! And beside all this, would you encourage art, and make glad the heart of the Artist?

Then let it appear by promising here,
That during the year Fifty Four,
You will, one and all, be sure to call
At "Odd Fellows' Hall," Second Floor.
