MOST STARTLING CONSIDERATIONS Reflections for the Thoughtful.

Strange that countless human beings exist and drag through life as do the beasts of the field, or the insects of the earth, evincing no more thought or reflection than though the noble faculties of mind were not vonchasfed to them.

Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the happiness of a confiding and affectionate wife, with perhaps a family of children HOW OFTEN IT HAPPENS THAT THE

WIFE LINGUES FROM YEAR TO YEAR In that pitiable condition at not even for one day to feel the happy and exhilerating influence incident to the enjoyment of health.

She may not be an invalid confined to her bed, or even to her room; as her pride, subtition and energy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always ailing.

Thus, day after day, and inouth after month transpire. Her health daily sinks, till finally even the hope of recovery no longer remains. And thus THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicatly, becomes a feeble, sickly, debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental reconstruction. impress of suffering, and an utter physical and mental prostration.

Sometimes this deplerable change may and does arise from organic or constitutional causes. But eftener, by far oftener, to gross and inexcusable ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery not only to the wife, but often

DREADFUL INHERITANCE from the Parents. And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cews, our oxen, the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human functions and passions, subject to great derangement, involving our future peace and happinessin all that concerns the health and welfare of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE,

AS CULPABLE AS INEXCUBABLE! AS CULPABLE AS INEXCUSABLE!

How long shall this ignorance prevail so productive of its bitter fruits? How long shall the wife and mother be ignorant of the nature, character and causes of the various womb and sexual complaints, embittering her days by suffering—suffering often prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever close our eyes to the results of physiological science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children.

LET EVERY WIFE AND HUSBAND PONDER! No husband or wife need be ignorant of what concerns them most to know to secure their health and happiness. That knowledge is contained in a little work entitled. THE MARRIED WOMAN'S
