CATTLE WEIGHED BY MEASURE.—The only instrument necessary is a measure, with feet and inches marked upon it. The girt is the circumference of the animal just behind the shoulder blades. The length is the distance from the shoulder blade to the rear of the buttock. The superficial feet are obtained by multiplying the girth and length. The following table contains the rale to ascertain the weight of the animal:

If less than one foot in girth, multiply superficial feet by eight. If less than three and more than one, mulsuperficial feet by eleven.

If less than five and more than three, multiply superficial feet by sixteen. If less than seven and more than five, multiply superficial feet by twenty-three. If less than nine and more than seven, multiply superficial feet by thirty-three.

If less than eleven and more than nine multiply superficial feet by forty-two. Example.—Suppose the girth of a bullock to be six feet three inches; length five feet six

inches; the superficial area will then be thirty four, and in accordance with the above table the weight will be seven hundred and Example.—Suppose a pig to measure in the girth two feet; and length, one foot nine the girth two feet; and length, one foot nine feet or under, promenading Broadway within Mohark, inches. THE MARRIAGE STATE: Shall Happiness and Health, or silvery and MOST STARTLING CONSIDERATIONS!

Reflections for the Thoughtful. Strange that countless human beings exist and drag through life as do the beasts of the field, or thei insects of the earth evincing no more thought or reflection than though the noble faculties of mind were not vouchsafed to them.

Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the happiness of a confiding and affectionate wife, with perhaps a family of children. HOW OFTEN IT HAPPENS THAT THE

WIFE LINGERS FROM YEAR TO YEAR In that pitiable condition as not even for one day to feel the happy and exhilerating influence incident to the enjoyment of health.

She may not be an invalid confined to her bed, or even to her room; as her pride, ambition and energy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to they and always ailling. sinking from day to day, and always ailing
Thus, day after day, and month after month transpire. Her health daily sinks, till finally even the hope of recovery no longer remains. And thus THE BLOOMING BRIDE.

But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sikkly, debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing impress of suffering, and an utter physical mental prostration.
Sometimes this deplotable change may and does arise from organic or constitutional causes. But oftener, by far oftener; to gross and inexcusable tignbrance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often Hereditary Complaints upon the Children UNTO THE THIRD AND FOURTH GENERATION,

from the Parents. And must this continue? Shall we be wise in And must this continue: Shall we be vise, in all that concerns the cattle of our fields, our horses, our sheep, our cows, our oxen, the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human functions and passions, subject to great derange-ment, involving our future peace and happiness-in all that concerns the health and welfare of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be im-mersed in the darkest and most

BENIGHTED IGNORANCE, AS CULPABLE AS INEXCUSABLE! How long shall this ignorance prevail so productive of its bitter fruits! How long shall the wife and mether be ignorant of the nature, character and makes of the various whub and sexual complaints, embittering her days by suffering—suffering often prolonged to years, eventuating in a complication of diseases, atterly and hopelessly incurable? Shall we for ever close our eves to the results of physiological science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children. perpetuating them to our children. LET EVERY WIFE AND HUSBAND PONDER!

No husband or wife need be ignorant of what concerns them most to know to secure their health and happiness. That knowledge is contained in a little work entitled THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION. BY DR. A. M. MAURICEAU,
