There being no further business prepared, the Convention took a recess till \$ o'clock, when Prof. Richardson, from the Committee on grades of Teacher's Certificates, made an elaborate report, closing with a recommenda-tion to adopt three grades of the following import, viz; 1st grade to include a thorough knowledge of all the branches named in the law, together with the higher branches of Mathematics and natural Science.

2nd gride including a thorough knowledge the the several branches named in the law. id grade including a thorough knowledge of Reading, Orthography, Penmanship and the elements of Geography, Grammar and Arithmetic.

The latter is designed as a mere provisional arrangement to accommodate primary schools of the lowest grade, and in view of the scarcity of qualified Teachers, is deemed necessary to meet present emergencies. A certificate of this grade would be good for higher grades would have the seal of the State mined to sell very cheap. G. & W. H. FULLER. Department affixed, and be permanent. Threshing Machines.

THE undersigned desire to call the attention of the Public to the article of THRESHING MACHINES, manufactured by the well known establishment of Wheeler, Melick of Co., Albany, New York.

These Machines have been so long in use in this county, and so universally approved, that we feel any effort at recommendation would be vain. Suffice it to say, that all the improvements suggested by experience and approved by test, have been adopted by the Manufacturers in their Ma-chines for the trade of 1854. Besides this, all ative. opposite the house of Truman Baldwin, thence along said highway, north 27 degrees east,7 rods and cleven and a half fees thence north 621-2 de-Machines sold by us are warranted to give good satisfaction, or they may be returned after a fair grees east 12 rods to a corner, thence in aline partrial allel with the first described line, 7 rods and 11
