Demoralizing Influence of Know-Nothingiem.

Know-nothingism fattens on bigotry, cultivates vice, and breeds liars. To prove the truth of this remark we shall criticise briefly the obligations of the order, and the character of its whole machinery.

The man who is ambitious of a connection nor is he required to do either. He obligates sion, exacts from the individual unconditional submission to the commands of a bare majority and conflicts with every liberal and demodently wrong, for a just cause scorns to rest

Know-Nothingism "breeds liars," because the candidate for initiation must signify his willingness to become an educated falsifier. before he is considered competent to keep its secrets. An eminent citizen in discoursing apon this point, not long since, said that truth never entered the lodges," and the severity of his remark is more than equalled by Read the advertisements of R. M. The subject is worthy of atten- ceiver and a falsifier, it is unreasonable to suppose that an honorable and patriotic employment awaits him in the Lodge. We can imagine that a sense of shame might impel a man to deny his connection with the secret order, but how a man with his moral faculties unimpaired can deliberately subscribe to its iniquitous obligations, is more than we can understand.

The demoralizing influence that Know-Nothingism exerts upon society is strikingly illustrated by the distrust and want of confidence it creates between man and his brother. To destroy that confidence which exists

between man and man as members of the ame great family is to take away a necessav element of civilization and christianity.-Teach man to regard his brother as a falsifier, and unworthy of confidence, and the strong tie of friendship and affection is broken, and what we respect not we loathe.

Will the Administration sustain Governor Reeder? Will it, if necessary, send an armed force into Kansas to protect the citizens of that Territory in the exercise of their constitutional rights, and to yindicate the principle of popular sovereignity? If Reeder is sustained, and the citizens of Kansas are permitted to determine the character of their institutions without the atervention of drunken mobs, it is very evident that Kansas will in a few years demand admission into the Union as a free State. SPEAKING OUT IN MEETING .- The COTTUP tion and profligacy of the present know-noth ing Legislature of Pennsylvania is becomin Of course honor made me more of apparent to every man in the State; but still we did not think the editors of that pure new party was so willing to acknowledge it. Yet such is the fact, as evidenced by the following, clipped from the Harrisburg Item, one of "Sam's" organs:

"The fact is, legislation has fallen into bad hands. A set of political scoundrels took advantage of the late revolution in political sentiment, and, where they did not honestly succeed, fraud was resorted to in order to accomplish the object. The legislation of this session, its glaring absurdities and villainy, to make use of the mildest terms, will be execrated by every honest man in the Commonwealth. The honor of the State is bartered boisterous merriment, and foreign railroad capitolists are the lions who are worshipped at the shrine of Mammon. When will Modown the golden-calf?" The Know-Nothing majority in the legis-

lature may exclaim, "Save me from my friends!"
