Singular Effect of Lightning-A House Destroyed by a Fire Ball.

i i je i

The Portland Advertiser gives an account of the singular effect of lightning which oc-curred on Monday evening last, 14th inst., curred on Monday evening last, 14th inst., at six o'clock, at the house of Capt. David Upton, of Great Chebeaque Island, Maine.— Paints, Oils, Dyc-Stuffs, Yankee Notions, in fact, The house was struck by lightning during the storm. A neighbor who was looking at the house at the time, perceived a ball of fire. apparently a foot in diameter, with a trail thirty yards long, descend upon the chimney, and immediately after a volume of smoke began to ascend as if the house was on fire .--

The Advertiser save :

"The family, fix persons, were at supper. and their escape with their lives is a miraele. Old Mrs. Upton's right arm is cut to the bonc, above the elbow, and sho is otherwise badly bruised. Her granddaughter. Marietta Hamilton, six years old, is so bruised as to be purple from the hips to the feet. and is in a precarious condition. David Upton. Jr., is badly bruised about the head and face. ' His child, in his arms, was unhurt: also his wife, standing near, and old Mr. Upton, likewise unhurt.

"But the effects of the lightning about the premises are astouishing. Old Mr. Upton was cating a bowl of bread and milk, with one hand upon the bowl, and the other hold-

ing the spoon-the bowl was broken in his hand and the spoon has not been found .---Old Mrs. Upton had a cup of tea in her hand, and when she came to herself she was partly under the table, with a piece of the cup in her hand and herself covered with the wreck. of the chimney, among which was a piece of timber, from the front of the fire place, eight feet long with a flat bar of iron of the same length attached.

"The granddaughter was thrown from her was litterally covered with bricks and morwere smashed. The chair in which old Mrs. Unton was sitting was broken into twenty- terms. eight pieces-at any rate that number of pieces belonging to it were found ; every chair in the kitchen was broken. Every partition in the house was removed from its position, and more or less shattered.

"The fluid scemes to have gove-through the boltom of a cooking stove, sitting in the kitchen fire place, leaving a hole as if made hy a shot four inches in diameter, taking off one leg of the stove, then entering the cellar through the floor, leaving a hole large enough for an ordinary man to pass. The Hitchen is on the north side of the house, and from the sill on this side a portion has been carried off one foot in length, leaving an appearance as if from the action of powder.-The sills of the house on the south side and east end were sundered and thrown off the underpinning, so that the side and end hang

suspended from the roof. "The arch in the cellar, making the foundation of the chimney, which is of stone masonry, two feet thick, was rent asunder in four different places. The fluid scems to have passed off through the northeast and southeast corners of the cellar wall; the wall, built of stones, two feet wide by one thick, laid flat in masonry, being severed in two places from

Extracts from Editorials concerning C. GILBERT & Co's PREMIUM ÆOLIAN PLANOS.

The Æolian Piano Forte is undoubtedly the most perfect musical instrument human ingenuity has constructed. Two instruments are blended in one. The Æolian is both attached and detached; so that the Piano may be played with or without it; or, with one hand the performer may elicit the melodious strains of the Æolian, and with the other invoke the harmonies of the Piano. The instrument which, in the evening, incited to the dance or aided the festive song, gives forth, in the morning, the pealing tones which prelude and accompany the solenin hymn Mr. Waters' new rooms are very inviting to the lovers of music. But he has nothing in his rooms equal in beauty and completeness to Gilbert's Aolian Piano Fortes .-. Morris & Willis' Home Journal. The variety and beauty of the effects con only

praised .-- Christian Reflector, Boston.
