Your new Square Pianos, sir, are of such clearness and equality of time throughout, that they very successfully compete with the voluminous and expressive Grand Piano. - Vanderweyde. The Editor of the Sarannah Republican, Savanuah, Ga., speaking of the Piano Fortes kept by Messes, J. W. Morrell & Co. of that city,

"It will be seen that their stock comprises instruments of every grade of excellence, from the well-known manufacturing establishments of Chickering & Son, Horace Waters, H. Worcester, Nunns and Cark, and Bacon and Raven. It might well be supposed, that in so large a collection there would be some very fine instruments. But there is one which, for beauty of finish and richness and brilliancy of tone, equals, if it does not excel anything of the kind we have ever seen. It is from the establishment of Hornee Waters. Being constructed of the best and most thoroughly seasoned material, and upon improved principles, it is capable of resisting the action of every climate, and of standing a long time in tune. The keys are of pearl, and the recess for the finger-board is inlaid with pearl, the legs are most elaborately carved, and the whole instrument finished up in a style of great excellence and licanty. And yet its chief merit lies in the power brilliancy, and richness of its tono, and the elasticity of its touch." Extracts from Editorials concerning C. GILBERT

& Co's PREMIUM ÆOLIAN PIANOS. The Æolian Plano Forte is undoubtedly the most pediect musical instrument human ingenuity has constructed. Two instruments are blended in one. The Bolian is both attached and detached; so that the Piano may be played with or without it; or, with one hand the performer low rates. may ejicit the melodious strains of the Æolian, and with the other invoke the harmonies of the Piano. The instrument which, in the evening, incited to the dance or aided the festive song, gives forth, in the morning, the pealing tones which prelude and accompany the solemn hymn Mr. Waters' new rooms are very inviting to the lovers of music.
