"Man, Know Thyself."

tracted by promiseuous saxual ntercourse, by self abuse or by sexual excess, with advice

From A. Woolward, M. D., of Penn University, Philadelpha.—It gives me pleasure to add my testimmy to the professional ability of the Author of the Marcat Marval. Numerous cases of Disease of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by selfabuse or Excess of venery, I. do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity, they may safely confide themselves.

ALFRED WOODWARD, M. D. whose professional skill and integrity they may safely confide themselves. ALFRED WOODWARD, M.D. "This is, without exception, the most comprehensive and intelligible work published on the class of disease of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent however fastidious, can object to pikeing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with 400 little breath to nuff and too little presumption to move, had a offered one complaints treated of, and, with a do little breach to put and loo little presumption to impose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years most successful practice."—

"No teacher or parent should be without the knowledge. Imparted it this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."—People's Advocate.

A Presbyterian elergyman in Ohio, writing of "Hunter's Medical Vanual" says:—"Thousands upon thous ands of our youth, by evil example and indusere of the passions, have been led into the habit of self pollution, without realizing the sin and fearful consequences upon themselves and their posterity. The constitutions of thousands who are raising families have been enfectived, if not broken down and they do not know the cause or the cure.

A Carrier of the constitutions of the passions of the passions of the carrier of the cure. ands who are raising families have been enfeebled. If not broken down and they do notknow the cause of the cure. Anything that can be done as to engine me uninfluence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness. would confer the greatest blessing next of the religion of Jesus Christ, on the present and coming generation. Intemperance (of the use of intoxicating drinks) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on, behalf of the afflicted, and, believe mo, your co-worker in the good workyou are so actively engaged in."

The Fluid Extract Buchu has been pronounced by emigent Physicians the grediest remedy every innocent in its action, and yetso thogough that it annihilates every particle of the rank and foll onous virus of this dreadful disease; and unlike othes remedies, it does not dry up the disease in the blood.
