The Meeting.

The Democratic Meeting, at the Court House last Monday evening, was a large, and enthusiastic gathering of determined menmen who will not be bought and sold into the hands of any lodge or power by any one. vite the attention of the people of the county to their sentiments. They will perceive that aside from the general policy of the Democratic party on matters of finance &c., which its opponents have now ceased to oppose. there can be no issue formed by our opponents save that of Know Nothingism. On the question of Slavery no issue will exist between the parties of this county, it is therefore simply idle for any body to howl about it. The opposition must content themselves with laying down opposition, or admit that they are simply contending for the power of the lodges, and the principles of religious pro-

position into which they are driven. In our judgment the day has burst into brightness for the Democracy of this county. Should our Convention next Monday take about the same course of the Conventions last January, and last week, the party will stand upon the rock impregnable,-it will not only succeed in the Elections, but it will succeed on high ground of principles. Let us therefore entreat Democrats to stand firm, act with prudence, tempered with a love for the party of your heart's attachment, and you will soon see those doctrines, so subver-
